The Work in New England

The Central Committee of the New England branch has taken up the question of the work among the miners in New England. The committee has been working for Organizers Thompson and Perry for some weeks, and is making considerable headway. The work among the miners in New England is very important, and the committee is making every effort to see that the miners are organized and that they are provided with a better standard of living.

MINE OWNERS VIOLATE LAWS AND CONSTITUTION

At a recent meeting of Local Union No. 15 of the W.W.T. held in San Francisco, Calif., December 7th, 1907, the following resolutions were passed: "The mine owners andoperators are violating the laws and constitutions of the W.W.T. as well as the laws of the state. They are making no provisions for the safety of the miners and are engaged in a strike. The miners are entitled to a just wage and they should be organized."

UTILITY OF MIXED LOCALS QUESTIONED

BY ED. M. CONOVER

Mixed locals were, I believe, created to meet the conditions of the times. They were created for the purpose of bringing together the different trades and bringing them to the same level. They were created to meet the conditions of the times, and to bring together the different trades and bring them to the same level. They were created for the purpose of meeting the conditions of the times, and to bring together the different trades and bring them to the same level.

OLIVE PICKING IN CALIFORNIA

Having been in California for the past three months, I have had the opportunity of witnessing the conditions of the olive pickers. The pickers are working under very difficult conditions. The weather is hot, and the work is very hard. The pickers are working from dawn to dusk, and are paid very little for their work.

Central Committee Meeting

The Central Committee of the W.W.T. held its meeting at 10 a.m., December 1st, 1907, in the rooms of the W.W.T. in Chicago, Ill. A good attendance was present. The committee discussed the question of the work among the miners in New England, and the necessity for organizing the miners in that section.

Workers Striking at Starling

A few days after Labor Day, the workers at the Starling Mill, located in the town of Starling, in the state of New York, went on strike. The workers were demanding a raise in their wages, and they were also demanding better working conditions.

WERE-WOLVES HUNTING DOWN WORKERS

The W.W.T. is organizing in New England, and the committee is making every effort to see that the miners are organized and that they are provided with a better standard of living. The committee is making every effort to see that the miners are organized and that they are provided with a better standard of living.
PROOF OF MINERS' CHECK-OFF

Since it is only once a year that the check-off is run, we have gone upon a somewhat large scale in the matter of the whole thing. We have not been able to count the number of persons who came in to the stores to get their checks, but there were quite a few hundred. The total amount of money paid out was over $250,000. The average amount per check was about $10. The check-off is to be repeated in the fall of the year, when the coal companies have their regular check-off.

Check Number:

Date of Check:

Amount:

District:

Note:

Of course, the check-off is not in all respects a success. There are several complaints about the delay in getting the checks, and some of the miners say that they do not get as much as they should. But the whole thing is a step in the right direction, and we are confident that it will be improved in the future.

The check-off is a necessary part of the movement to organize the miners. It is a means of raising money for the benefit of the miners, and it is also a way of showing the coal companies that the miners are serious in their demands. The check-off is a powerful weapon in the hands of the miners, and we hope that it will prove a success.

CHAPTER VIII
"FUNDAMENTALISM"

BY ARTHUR KEPP

"Having the last conviction of the I. W. W. at Headquarters," the Wobblies went on, "you can imagine the excitement in the building. It was a landmark for the working class, and it was a moment to remember."

"And so it was," replied the speaker, "that the I. W. W. began."

"Well, the I. W. W. was the beginning of the working class."

"It was a time of great change for the working class."

"The I. W. W. was the beginning of the working class."

"It was a time of great change for the working class."

"The I. W. W. was the beginning of the working class."

"It was a time of great change for the working class."

―INDUSTRIAL UNION BULLETIN SATURDAY, JANUARY 11, 1908
PREAMBLE OF THE I.W.W.

The working class and the employing class have nothing in common. There can be no peace so long as want reigns side by side with need. The toilers of the world will not be satisfied until all workers have enough and as good conditions as the workman who makes a million dollars a year. The working class and the employing class have nothing in common. There can be no peace so long as want reigns side by side with need. The toilers of the world will not be satisfied until all workers have enough and as good conditions as the workman who makes a million dollars a year.
