I. W. W. IN THE NORTH-WEST

Since revising is Sunbonnet Sue's problem on the third day of the month, the new committee of the Northern Council has published a new edition of its monthly bulletin, which contains the latest news and information of interest to the members of the union in the North-West.

The bulletin reports that the strike in the North-West is now in its fourth week, and that the members of the union are continuing their struggle for higher wages and better working conditions.

The bulletin also reports that the members of the union are planning to hold a meeting in the city of Winnipeg on the 20th of the month to discuss the current situation and to plan for the future.

The bulletin concludes by saying that the members of the union are continuing to fight for their rights, and that they will not be satisfied until they have won a better deal for themselves and their families.

CONDITIONS IN BRITISH COLUMBIA

In the city of Vancouver, the members of the union are currently engaged in a struggle for higher wages and better working conditions. The bulletin reports that the members of the union are continuing to fight for their rights, and that they will not be satisfied until they have won a better deal for themselves and their families.

The bulletin concludes by saying that the members of the union are continuing to fight for their rights, and that they will not be satisfied until they have won a better deal for themselves and their families.

The bulletin reports that the members of the union are continuing to fight for their rights, and that they will not be satisfied until they have won a better deal for themselves and their families.

The bulletin concludes by saying that the members of the union are continuing to fight for their rights, and that they will not be satisfied until they have won a better deal for themselves and their families.

CHICAGO, JULY 25, 1908.

The bulletin concludes by saying that the members of the union are continuing to fight for their rights, and that they will not be satisfied until they have won a better deal for themselves and their families.
MILITANTS, TO THE FORE—NOW OR NEVER!

Once before did the Industrial Workers of the World pass through the ranks of the small shop employees, the shopmen who are the life-blood of the industrial movement. The I.W.W. is now faced with the task of assembling this vast army of the toilers, who have associated together for the purpose of overthrowing the state, and on the backs of which the world's industry must be built. The I.W.W. is now faced with the task of organizing a million men and women.

The I.W.W. is the only organization that can make the workers fully realize the power that is in them. The I.W.W. is the only organization that can make the workers understand that they are the masters of the nation, that the owners of the factories and the mines are their fellow workers, that they are the builders of the machinery that makes the world go round.

The I.W.W. is the only organization that can make the workers understand that they are the masters of the nation, that the owners of the factories and the mines are their fellow workers, that they are the builders of the machinery that makes the world go round.

The I.W.W. is the only organization that can make the workers understand that they are the masters of the nation, that the owners of the factories and the mines are their fellow workers, that they are the builders of the machinery that makes the world go round.

The I.W.W. is the only organization that can make the workers understand that they are the masters of the nation, that the owners of the factories and the mines are their fellow workers, that they are the builders of the machinery that makes the world go round.
PREAMBLE OF THE I.W.W.

The working class and the employing class have nothing in common. Their interests are fundamentally in opposition. The employing class can never be satisfied, but constantly craves cheaper labor. As a result, wages sink downward. The working class can never be satisfied, but constantly craves more wages and lower prices for necessities of life. As a result, the price level goes upward.

The two classes are thus brought face to face by the very laws of production, by the very necessities of the case. The employing class can never be satisfied with anything but the working class andthat class of the working class which has not yet learned to think. The working class can never be satisfied with anything but the employing class and that class of the employing class which has not yet learned to think.
