**PORTLAND “REDS” CAN NOW TALK AGAIN**

The I. W. W. in Portland was temporarily gagged against the employment talks and in the injunction of the late negotiator our organizer was killed before the business men gave the change of heart that the Portland capitalists were making before the strike. Now, however, the I. W. W. finds itself well organized and is rapidly making the city a strong one. We are not going to let them stop us now, and our members are going to make the city a red spot.

**ALL GRAFTERS LOOK THE SAME TO US**

It is hardly worth filling space to write about such a subject, but it is a fact that there will be no chance in Spokanie now to get the same kind of grafters into the city that we have been used to seeing. The other night we had a meeting of the Spokanie labor union and a lot of grafters showed up. We think that the grafters have learned a lesson.

**FELLOWS WORKERS**

Your interests are not the interests of those who live for wages alone. If you wish better conditions, you will have to join us in getting them. Don’t be a slave to your employer. Prices are going up every day and wages are going down. Organize right! Organize to win.

Some old-timers in the trade declare that the heavens are going to fall, and the earth is going to be thrown into the air, and we are all going to be thrown off into space. They say that this is the way the world is going to end. But I believe in the teachings of Jesus Christ, who said, "Let not your heart be troubled, neither let your faith fail."

The Social Evil.

Workmen, and especially the transient laborer, need to be educated in the spirit of labor and the virtues of industry. They need to be taught the value of work and the principles of justice. They need to be taught the necessity of cooperation and the importance of mutual aid. They need to be taught the meaning of labor and the dignity of work. They need to be taught the value of patience and the virtues of thrift.
