INDUSTRIAL WAR

IN PENNSYLVANIA

TO ALL SOCIALIST AND PROGRESSIVE WORKERS, Miners, Farmers, Tradesmen in Reading and Berks.

A movement is going on to arrest the growth of the present situation and to reduce the workers of the American Iron and Steel Corporation to the condition of mere wage slaves. The workmen of the American Iron and Steel Corporation are fed up with the employment of the system. The workmen on the Pennsylvania Railroad are sick of the extension of the system. The workmen on the Pennsylvania Railroad are sick of the extension of the system. The workmen on the Pennsylvania Railroad are sick of the extension of the system. The workmen on the Pennsylvania Railroad are sick of the extension of the system.

IMPORTANT

Notice has been sent by the General Secretary-Treasurer to all Industrial Unions of the L. W. W. that the referendum vote was due to be held at the annual convention in May 1910. The referendum has also called for the election of general officers of the L. W. W. by referendum, and the entire membership of the organization. Last Industrial Unions are notified by the General Secretary-Treasurer to nominate candidates for the following offices: General Secretary-Treasurer, General Organizer, Five Members of the General Executive Board and an Auditing Committee of Three Members. Nominations by Industrial Unions must be in the hands of the General Secretary, Vincent St. John, 310 Bank Temple, Chicago, Illinois, not later than September 15, 1909. After the nominations have been made, the conditional time will be allowed for the members of the L. W. W. to vote by referendum, and to elect members to the above offices.

FROM THE HILL WORKERS

Notes from the Hill Workers are published weekly in this issue.

(Continued on Page Two)
SUFFER TO SOME PURPOSE

A thoughtful man once said, "I am not satisfied in what some call 'progress' as it is, but I am not satisfied in what some call 'stagnation' as it is." This sentiment is echoed by many who feel that the current social and economic climate is insufficient and that there is a need for change. In such a context, the concept of suffering to achieve progress becomes relevant. It suggests that individuals and societies may need to endure difficulties or challenges in order to move towards a better state of affairs. The idea is that through adversity, lessons are learned, and the path towards improvement is paved. This perspective encourages a proactive approach to change, where individuals and groups take responsibility for their circumstances and work towards transformation.

EXAMPLE OF JAPANESE WORKERS

The Japanese workforce is renowned for its dedication and discipline. In many industries, especially in manufacturing, they exhibit a level of commitment that is often unparalleled. The concept of '加班' (ganhin), which translates to 'overtime work', is integral to the Japanese work culture. It refers to the practice of employees working beyond their regular hours, often to meet tight deadlines or to fulfill production targets. This culture of hard work and dedication has contributed significantly to Japan's economic success.

The social and cultural expectations placed on individuals in Japan, where collective achievement is highly valued, can also be seen as a form of suffering to achieve progress. This is evident in the strict adherence to punctuality, the emphasis on politeness and respect, and the pressure to excel in one's career. The result is a highly motivated and productive workforce, which, in turn, has propelled Japan to global leadership in many sectors.

In conclusion, while the concept of suffering to achieve progress may seem counterintuitive, it highlights the importance of perseverance and dedication in the pursuit of betterment. It encourages individuals to embrace challenges as opportunities for growth and development, ultimately fostering a society that is constantly evolving and improving.
