The POOL COMMITTEE has decided that the only satisfactory way to handle the problem of the unemployed is to establish a "safety net" for them. The committee has decided that this can be done by setting up a fund of $5,000,000, which will be used to provide unemployment insurance for all workers in the state.

In addition, the committee plans to establish a public work program that will provide jobs for those who are unemployed. The program will be funded by the sale of bonds, which will be sold to the public. The bonds will be guaranteed by the state and will mature in ten years.

The committee also plans to establish a rehabilitation program for those who are unable to work due to disabilities. The program will provide training and job placement services for these individuals.

The POOL COMMITTEE is working closely with the state government to ensure that these programs are implemented effectively. They are also working with local organizations to ensure that the needs of the unemployed are met.

The committee is confident that these programs will help to alleviate the problem of unemployment in the state. They are working hard to ensure that these programs are successful and will continue to monitor their progress.

Our Fellow Workers, Preston and Smith, Are Still in Prison

The POOL COMMITTEE has been working diligently to secure the release of our fellow workers, Preston and Smith, who are still in prison. We are pleased to report that they have been granted a hearing before the parole board and that the hearing is scheduled for next week.

We are confident that the parole board will grant the release of Preston and Smith. They have served their time and have demonstrated that they are law-abiding citizens.

We urge all members to support the parole board's decision to grant the release of Preston and Smith. We are confident that they will be productive members of society and will contribute to the community.

L. W. W. Directory; A List of Fighters

The following is a directory of the L. W. W. fighters who are currently serving in the war. This list includes all the fighters who have been approved by the committee.

[The list is not included in the text.]

The POOL COMMITTEE is working hard to ensure that all fighters are treated fairly and that they have the resources they need to succeed.

THE POCUNDA CLUB

PITTSBURGH STRIKE

STANDARD MFG. CO.

There are three factions in the United States: the organization of labor, water companies, and the oil companies. To organize labor is the most important of these three, but it is not the only one. The oil companies are also important, but they are not as important as the water companies. The water companies are more important because they have more members, and they also have more money. The oil companies are not as important because they have fewer members, and they also have less money. The water companies are more important because they have more influence, and they also have more power. The oil companies are not as important because they have less influence, and they also have less power.

First Round.

The right to work. It is a right that belongs to all people. It is a right that cannot be taken away. It is a right that must be protected. It is a right that should be respected. It is a right that must be fought for. The right to work is a basic human right. It is a right that all people should have. It is a right that all people should fight for. It is a right that all people should respect.

Andrew Waring Up.

The right to work can be fought for in many ways. It can be fought for by organizing. It can be fought for by striking. It can be fought for by going on strike. It can be fought for by going on strike. It can be fought for by going on strike. It can be fought for by going on strike. It can be fought for by going on strike.

SHOE WORKERS UNIONS WORK OF J. J. ETTOR

(Continued from October 19)

The battle is on to save a shoe factory. This is why J. J. Ettor, president of Local 294 of the United Shoe Workers Union, is in the thick of the fight. He is leading the workers in the struggle to save the factory from closing down. The workers are determined not to be forced out of their jobs and they are fighting to keep the factory open.

The workers are working together to save the factory. They are organizing and mobilizing to keep the factory open. They are determined to fight for their jobs and to protect their rights.

The company is trying to force the workers out of their jobs. They want to close down the factory and take over the building. The workers are not going to let that happen. They are determined to fight for their jobs and to protect their rights.
