I AM A REVOLUTIONIST

The room was dark and the curtains low, but there was a sense of quietness and stillness in the air. The walls were bare, except for a few pictures that adorned them. A small table, cluttered with books and papers, stood against the far wall. The room was filled with a sense of history and tradition.

I looked around, taking in the quiet atmosphere. The room was filled with the sounds of the city outside. People were walking past the window, going about their day. The window was open, letting in a cool breeze.

I sat down on the couch, feeling the weight of the world on my shoulders. I closed my eyes, taking a deep breath and listening to the silence.

I thought about what it meant to be a revolutionist. It meant standing up for what you believe in, even when the odds were against you. It meant fighting for your ideals, even when it seemed impossible.

I opened my eyes, feeling renewed. The world was waiting for me, and I was ready to face it.

The Editors are deeply grieved to announce the death of two of our local comrades, John Preston and Harry Smith, in the Home for Old and Infirm Workers. They had been members of the union for many years and were well known to all. They passed away peacefully in their sleep, after a prolonged illness. Their lives were marked by dedication to the cause of industrial organization, and they will be sorely missed by all who knew them.

INDUSTRIAL UNIONISM SPELS EMANIPATION

By GEORGE H. MILLER

INDUSTRIAL UNIONISM is a system by which the industrial worker is enabled to control and determine his own wages and working conditions. It is based on the principle that the worker is the best judge of his own needs and desires, and that he should be given the power to determine what constitutes a fair wage and what constitutes a good working condition. This principle is in direct opposition to the system of capitalism, which is based on the principle that the employer is the best judge of the worker's needs and desires, and that he should be given the power to determine what constitutes a fair wage and what constitutes a good working condition.

INDUSTRIAL UNIONISM IN AUSTRALIA

J. P. Boland

Melbourne, Jan. 8, 1916.

To the Very Hon. and Right Honourable Sir John McLean M.P., President of the Industrial Union, Melbourne.

My dear Sir,

I have the honour to submit the enclosed list of names of the members of the Industrial Union of Australia, who are in sympathy with your views and who are prepared to support you in any movement you may consider necessary for the establishment of a United Labor Federation in Australia.

Yours truly,

J. P. Boland

Free Speech in Spokane.

We shall not stop nor take from you the last word in our defence of the open shop, the free trade union system, and the right of the working class to determine their own economic destiny. We shall continue to fight for those things which are most essential to the welfare of the working class. We shall continue to stand up for what we believe in, and we shall never stop working to make the world a better place for all workers everywhere.

The Solidarity of Industrial Unionists

To the very Honorable Sir John McLean M.P., President of the Industrial Union, Melbourne.

I write to express my appreciation of the work you are doing in the interest of the working class. I wholeheartedly support your efforts to establish a United Labor Federation in Australia. I believe that such a federation would be of immense benefit to all workers in this country.

Yours sincerely,

THE SHAPE OF SPOKANE

March 15 will mark one year from the time that the strike was called on the waterfront by the International Longshoremen's Union. During this time the union has been fighting for the rights of its members, and it has made a great deal of progress. The union has been able to get a new contract with the employers, and it has been able to improve the conditions of its members. The union has also been able to organize new local unions in various parts of the city.

INDUSTRIAL MUSCULOUS SPELLS EXSEURSION

(Written from Page Ten)

RIVER CITIES TO HOLD BIG EXHIBITION

A new page in the history of the I. W. W. was written in the month of November with the announcement that a convention of farmers and labor leaders from the southern states was to meet in St. Louis for a purpose that had awakened the interest of the workers of the entire nation.

The movement for labor is a national one, and the I. W. W. has been in existence for many years. It is a union of the working classes, and its purpose is to help the workers in getting better wages, better working conditions, and better working hours.

The I. W. W. has always been in favor of the right to organize, and it is now in favor of the right to strike. The strike is a means of getting better wages and better working conditions.

The I. W. W. has always been in favor of the right to organize, and it is now in favor of the right to strike. The strike is a means of getting better wages and better working conditions.

We are all agreed that the strike is a means of getting better wages and better working conditions. The strike is a means of getting better wages and better working conditions.
