DIRECTORY I. W. W. LOCAL UNION

The following is a directory of the Industrial Workers of the World Union in the United States and Canada. Members of the Industrial Workers of the World Union are the General Officers of the I. W. W. in this country. They are appointed by the National Congress and are the representatives of the I. W. W. in the United States and Canada. Some of them have been arrested or imprisoned for their work in the interest of the I. W. W. These officers are the only ones who can authorize any action by the I. W. W. in the United States and Canada.

SECRETARY: T. L. HARRIS, New York City.
Treasurer: W. W. SMITH, New York City.
Assistant Treasurer: H. E. WHITE, New York City.
Assistant Treasurer: J. W. HARRIS, San Francisco.

Employment Sharks Skin the Workers

There are plenty of workers who would welcome the opportunity to work for a living wage at a fair price. But how many of these workers are aware of the practices of some employers who knowingly exploit their employees to provide a profit to themselves? This is a common practice in many industries, where companies are willing to pay less than the minimum wage or keep workers on the job for hours that exceed the legal limit.

TO SUBSCRIBERS TO THE INDUSTRIAL UNION Advocate

The more understanding industrial relations, the more likely the solidarity of workers is to grow. This is especially true when workers are united in their desire for a fair wage and working conditions. The Industrial Union Advocate is dedicated to promoting solidarity among workers. Your subscription helps to support this important work.

"Solidarity"

A working-class movement that is guided by the Local Committee of the Industrial Union Advocate.

SPECIAL NOTICE

Gonna's the fact that presentation is being carried on in a high-handed and unscrupulous manner by those who hold under the direction of law and order, the Executive Committee of the I.W.W., in Spokane has made the Defense Fund headquaters to San Francisco, Idaho, which is in another State and close by.

none who are in a prominent and active worker in the I.W.W. is safe from under the trumped-up charge of "criminal syndicalism." This is a penalty imposed for the sake of the whole nation. The point is that when we consider the whole question of the power and influence of the Labor party it is clear that the best thing we can do is to organize, and stand by our solidarity.

Loggers are required to be at the meeting by 9:30 a.m. on the day of the meeting and to have their log or lumber list with them.

LABOR EXCHANGE NEWS ITEMS

SOCIALISM & INDUSTRIAL UNIONISM

Preliminary reports of the recent strike at the Union Pacific plant in Council Bluffs, Iowa, indicate that the company is facing difficult times. The strike began over issues of wages and working conditions, with the company attempting to reduce wages and improve working conditions. The union has been demanding better pay and safer working conditions. The conflict has escalated as both sides remain firm on their positions.

The strike has caused significant disruptions to the company's operations, with production at a standstill and thousands of workers affected. The company has attempted to negotiate a resolution, but so far, no agreement has been reached. The situation remains tense as both sides continue to deadlock in the bargaining process.

The strike has sparked wider discussions about labor rights and the role of unions in ensuring fair wages and safe working conditions. Many workers and union leaders are encouraged by the strike, seeing it as a step towards improving their working conditions and wages.

Several unions and labor organizations have rallied behind the striking workers, offering support and assistance. The presence of such solidarity suggests that the strike could have broader implications for labor rights and the power of unions.

The strike's duration is uncertain, with both sides yet to agree on a settlement. The outcome of the strike will not only affect the striking workers but also set a precedent for future labor negotiations.

Industrial News

The Portland Labor Exchange has reported that the number of strike actions has increased in recent months. This trend is attributed to growing discontent among workers over issues such as wages, benefits, and working conditions. The exchange advises employers to be prepared for potential disruptions and to engage in proactive measures to prevent conflicts.

It is crucial for employers to listen to workers' concerns and address them in a timely manner. This approach can help prevent small disputes from escalating into larger strikes. Employers are urged to maintain open communication channels and to be responsive to workers' grievances.

The exchange also reminds employers of their legal obligations to treat workers fairly and to respect their rights under labor laws. By遵循 these principles, employers can help maintain a stable working environment and prevent strikes from occurring.

The exchange encourages employers to take a proactive stance in labor relations. This includes investing in training programs for workers, implementing fair and transparent policies, and fostering a culture of mutual respect and trust. By adopting these strategies, employers can create a more harmonious workplace and reduce the likelihood of strikes.

The exchange’s primary goal is to promote peaceful resolution of labor disputes. It advises employers to consider mediation and arbitration as potential solutions to conflicts. These alternative dispute resolution methods can help parties reach a mutually agreeable outcome without resorting to strikes.

In summary, the Portland Labor Exchange underscores the importance of proactive measures in preventing strikes and maintaining a stable labor environment. Employers are urged to listen to workers’ concerns, address grievances promptly, and adopt fair labor practices to create a conducive working atmosphere.
