In 1902, during the midst of the great French Revolution, the peasants in the small town of Mossville, France, were faced with an uprising of the proletariat. The uprising was met with repression by the authorities and threatened by an armed assault, massed upon their homes, was paralyzed and bewildered by the threat of their better-informed relatives to mix oil and water; to make a Constitution that would reconcile the general population of the provinces; to the bourgeois representative from Marseille to the National Assembly, in realizing the gravity of the situation, and the necessity for radical action issued a call that has written itself into history:

"LIBERTY, CAN MAN RESIGN THEE, ONCE HAVING FELT THY GENEROUS FLAME"

The first round of the fight is now over and we are awaiting the sound of the gun on March 19th to commence the second round. Already we have made a great impression on the organized ranks of our enemy. But our struggle has just begun. It is getting stronger and it will not stop. We have taken their toughest fight and we will not stop. We will not give up until we have won. Our struggle is not just for us. It is for all the people in the world. We are fighting for our freedom. We are fighting for our future. We will not be stopped. We will not be defeated. We will not be silenced.

The Capitol classorates July 6th as a great day in the history of Free Speech, Free Press, Free Assembly, and the working class with a distinct stick is also a day to be remembered in "the short and simple annals of the labor" as one of their earliest and greatest victories.

In spite of the overwhelming power of the Industrialists and the rich men of the world, the working class will not be defeated. We will not be silenced. We will not be stopped. We will be heard. We will be seen. We will be remembered. We will be victorious. We will be free.

EXPOSURE OF SUPERIOR COURT JUDGE WEBSTER

Since J. Stanley Webster, Superior Court Judge of Spokane, has been on the bench, the city of Spokane has changed its face. The growth of the Industrial Workers of the World, the progress of the individual, and the quality of life as a whole, have contributed to this transformation.
