The next development of the Heselvood affair came last night, in a raid on the I. W. W. Headquarters at Hillyard, by the redoubtable Capt. Burns (Captain of six alleged detectives of whom the idiotic McDonald is the star) and two oth-

ers. These "peace" officers ransacked the place although they had no warrants. They were looking for Secretary Dixon, whom they hoped to connect with Heselwood in the conspiracy charge. He was not present, however, which greatly disappointed the brutes in blue.

These wise guy detectives couldn't disruise their erraid, but had to blurt out, Where is Dixon?" They then arrested Fellow Worker Brown on a charge of conspiracy, as a bluff-it seems that Brown is accused of taking part in the demonstrations last fall and that's what they are after him for. The mere fact, that he has already served one sentence for this "crime" has not weight in Spokane. After loading up with all kinds of papers, (more evidence) as a bluff, and threatening the rest of the men assembled, they departed.

The sequel to Heselwood's arrest is hard to determine: if the members of the I. W. W. have any fighting blood left at all, they will now arise as a man and come to Spokane. If they can get Heleswood from Idaho, they can get St. John from Chicago, or grab the officials of every local in the country, and make a country wide attempt to suppress the organiza-

According to the rulings made by the Spokane courts every member of the I. W. W. is equally an conspirator, and if this is true they can grab anybody they choose, no matter where they are located. The authorities here swear that they will drive the I. W. W. out of the country.

ARE WE GOING TO TAMELY SUBMIT TO SUCH A COURSE ON THEIR PART? Hardly. Let us go to Spokane, fill the jails and overthrow the whole tottering edifice of corruption misnamed the Spokane City Government. Already there are powerful influences at work with the same end in view and if we can make one more good showing the day is ours. Heselwood has many friends among the W. F. Captain Burns was arrested in the court room, on a charge of perjury, in connection with the trial of Heselwood. He testified before Justice Chamberlain that he had seen Heselwood in Spokane in the early part of the fight, leading men out onto the streets to speak; whereas Heselwood was in the vicinity of Scattle at the time, being employed by the Loggers' Union of that city as organizer.

The I. W. W. introduced evidence to the effect that Heselwood was in Spokane only one nour during the month of November, and that he had not been in the vicinity during the early part of the fight.

DON'TS.

Don't stay out of the union be a job-a negro slave liad a job.

Don't think that some one else is the union. Each member has a voice and one vote, and all members not over thirty days in arrears are entitled to all the rights and privileges.

Don't stay out of the union and expect oth ers to do the work for you.

Don't show your ignorance by saying "I will wait and see what the union is going to do before I join." If all talked like that there would he no union.

Don't knock the union if you cannot help it along. The work of education and organization is hard enough without knockers.

Don't work for less wages than the scale established in your respective in lustry. Only scabs do that.

Don't think that because you get a job bossing that you are a capitalist; it makes a company sucker of some, but does not alter the fact that you are still a wage earner.

Don't forget to assist the local organizer

Don't leave the town for camps without taking a little literature with you—it costs very little and some of it is free. Don't forget to ask the person working with you to join the union. The more you have in the union the more power you will have.

Don't waste your money on Fourth of July Jon't waste your money on route of upon celebrating freedom if you are afraid to join the union for fear that you will lose your job. When you say that you are afraid that you will lose your job you admit that you are a slave, and a whipped one at that.

Don't wear this cap if it does not fit, but if it does fit put it on and keep it on until you are wise enough to throw it away.

There is only one qualification necessary for a person to become a member of the Industrial Workers of the World, and that is that he be a wage worker and willing to abide by the rules and regulations of the organization. Believing that the fellow-workers in Los Angeles and in other cities would like to hear from us, I will proceed to relate our experiences while en route to Spokane.

while en route to Spokane.

Leaving Los Angeles on Friday, the 18th, on an I. W. W. special, we were surprised at finding out that the industrial Workers are beginning to be recognized as a "bona-fide labor union," notwithatanding Moyers' statement to the contrary. Something was entirely wrong with the wires, and the former agreement that we had with the brakeman for our "special" turned out to be nothing more than a common old peddler, as we were fourteen hours going one hundred and one miles. hundred and one miles.

hundred and one miles.

We arrived at Mojave on a Saturday morning. Talk about weather—it was a fright. It blowed half of the time one way, and the other half of the time in the opposite direction, and say—when I speak about blowing in Mojave I mean something like forty miles an hour. While waiting here for the wind and sleet to subside we attended a meeting of Mojave Local No. 51. There were not many in attendance at the meeting. but those that were were very courteous ing, but those that were were very courteous and contributed liberally to help us along on our

Journey.

The trip between Mojave and Bakersfield and between Bakersfield and out next stop was made without anything eventful happening. Arriving at Kern we met several other Los Angeles fellow-workers. As we had a full day before us, we hustled up a good place to rest and clean up. In the street meeting that was held that evening a fair collection was taken up; the sales of literature amounted to three dollars. Considerable literature, including all the "Address to Wage-Workers" that; we had, were distributed among the audience, which grew to such a size that we were warned by the police that we would have to keep a passage on the sidewalk clear, or else he would close our meeting.

Leaving Bakersfield, our next stop was at Fresno, where we arrived on Monday morning. After considerable hustling, we located the chief of police, Shaw, and secured a permit to speak Monday and Tuesday evenings on the street, with the proviso that we would not in

against our fellow-workers in Spokane by the police of that city.

There is a fine body of revolutionists at this place, but the Local has a hard row to hoe, as this town is certainly a bourgeoiscontrolled place. After the street meetings we invited the crowd to come to the hall, where we secured several applications. If I had told the chief that I was an I. W. W. man in making application for the permit I would have been driven out of town, as F. W. Little has been threatened by this parasitical puppet of the master class, to be driven out of town if he attempted to organize the agricultural workers of the district. They feared an organized body as they had a large fruit crop to move and wanted to move it cheaply. We were unable to dispose of any literature at this point, as they do not permit the same to be cold on the streets. Will hold several more meetings at this place before we leave. There were three of us on the start, but we will very likely be joined by several more at this place.

Will leave for Merced after the next meeting.

Time flies, and studious workmen read: Ten million of us are underfed; Two million children employed, debased, Ground into profits for drones to waste; How idle women carouse and dine Four hundred monkeys, rigged out so fine; They paid, for suits which the monkeys wors, Fire thousand dollars apiece, or more, And fifty thousand to feast the brutes, Besides the cost of the monkeys' suits.
"But, oh! how cunning," they said, and then Down goes the wage of the working men

Though bloated masters regard it treason,
Their greed compels us to think and reason;

No man who is a prominent and active worker in the I. W. W. is safe from arrest under the trumped-up charge of "Criminal Conspiracy"; all the old offenders and editors are at present in jail in Spokane. The penalty provided for this trumped-up charge is five years in the penitentiary. The lawyers in the country have been engaged to defend our fellow-workers. These attorneys are high-priced men, but money is nothing when we consider the noble characters and principles of the men who are supposed to be railroaded to a prison. Many of the officers and editors who are awaiting trial
at the hands of a venomous enemy have given up home, money and friends to
fight for the grand principles of "One Revolutionary Union of Workers."

Bread Lines, Bull-Pens, Child Slavery, Prostitutes, Vice and Crime must

all fail before this "One Union of All Workers."

Over 300 men are in jail and more going in daily to suffer the tortures of hell, that freedom of speech may again be wrested from a money-mad class, who are mortally afraid of seeing the working class united. These men will serve 30 days on bread and water, and when they get out they will immediately be rearrested.

The best legal talent has been engaged in Chicago, Seattle and Spokane to defend our officers from the masters' wrath. We must have the sinews of war. You must help. Send all contributions for "Free Speech Defense Fund" to

LABOR NOTES

(From the 'Bulletin International' of France.)
The seventh congress of the International
Federation of Transportation Workers will
meet on August 22nd at Copenhagen, Den-

mark.

The Revenge of the Swedish Employers. In order to show how the Swedish employers are seeking revenge after the general strike, we make some extracts concerning the transportation industry from the last number of the Weekly Bulletin of the International Federation of Transportation Workers (January 17).

In Stockholm the branches of the longshore men, brick handlers, coal heavers and warehousemen have generally been exempted from reprisals. The only employers who have resorted to reprisals are the coal firms who have shut out a small number of drivers, engineers and chaufcurs for their participation in the general strike. The hack drivers' union has suffered most. Every owner of a hack establishment being compelled by law to keep at least one hack in service or lose his permit, the owners themselves were at first compelled to climb on the box themselves. Firsally 200 coachmen were locked out, of whom some have found other occupations, but about thirty are still without the means of existence. The chauffeurs' union also has a large number of victims. The commercial lumber yard workers and wagon makers who, like all others, had refused to accept the personal contracts which the bosses wanted to force them to sign, are all locked out, and only those who accept the bosses' terms are reinstated.

Finland. The governor general at Helsingfors, capital of Finland, a Russian autocrat named Seyn, has ordered an inquest regarding the aid that the unions of Finland have given to the Swedish workers during the general strike. Persecution on this acore is expected against the Finnish unions.

The Coal Miners' Strike in Australia. Speaking of the sentence of three years at hard labor imposed upon the president of the Australian coal miners, eight months for some other "leaders" and from two weeks to three months for eight other mine workers, the Bulletin International" quotes the following from "The Socialist" of Melbourne, Australia

from "The Socialist" of Melbourne, Austrailia.

The paper ascribes the unfortunate issue
of the battle to the spirit of old trade unionism and continues: "The arrest of the strike
leaders, mass arrests of workers acting upon the order of their unions, a wage commission imposed upon the workers, a law suppressing strikes, these and other outrages
have been accepted by the workers of Australia who are silent from fear. Truly, the
strength of unionism has been sapped by a decade of arbitration. The workers have put
their faith in parliaments, and today it is the
parliaments that crucify them."

The Union Movement in Argentine

The Union Movement in Argentine.

(Juan Loirenct'in Voix du Peuple, Feb. 8.)

"In Argentine the producing class is divided on three different lines—parliamentarian socialists, communist anarchists and revolutionary syndicalists. From the internal strugge which has been going on for ten years the revolutionary syndicalist movement was born. On the 25th and 26th of September; 1909, a unity conference took place in which fifty labor organizations took part. By a unanty mous vote the fusion was accomplished and a new organization was born at this congress, namely "La Confederacion Obrera Regional, Argentian," which took its place alongside of the old organization. Despite the terrible measures of repression over the whole country, the militants are entering the battle.

"We hope that the revolutionaries from across the locean will make common cause with us and help "La Confederacion Obrera Regional Argentian" to come out as victor from the present dangerous situation.

LET US UNITE.

LET US UNITE.

LET US UNITE.

It is plainly seen that the officers of trade unions do not want the rank and file to join the I. W. W., claiming the A. F. of L. would, in time, adopt Industrial Unionism.

The rank and file are beginning to wake up to their class interests and to the fact that aristocracy of labor must be abolished. They are beginning to realize that their officers are betraying and misleading them just to hold their positions and receive their salaries. The economic power of the workers can only be gained through them by being organized industrially.

Even now, the agitation is becoming so strong for industrial Unionism that the officers who call themselves Socialists and Revolutionists will vote and pass resolutions to free the slaves on the political field, but are against freeing them on the industrial field. The workers have never yet accomplished anything through political action.

The workers are fighting for better conditions

The workers are fighting for better conditions and the abolition of the wage system on the conomic field, and therefore must organize at the mouth of production and must found their organization on the class struggle—that the workers have nothing in commor with the employers. Only through a class union can we take possession of industries and run them for the collectivity, without the help of any political contents. The l. W. W. PREAMBLE.

The working class and the employing class have all the workers have nothing in commor, there can be no peace to long as hunger and want are found any millions of working people, and the few moments of life.

Between these two classes a struggle must go on until the workers of the world organize as a class, take possession of the earth and the The workers are fighting for better conditions

the collectivity, without the help of any political organization.

In this Northwest country there is at present only one industry, the wood industry: there should be only one industrial union; but, instead, we have about 25 craft unions independing on the wood industry. They are unable to accomplish anything, because if one union soes on strike the others keep on working, and at their next meetings will declare that it is too bad to see the union in trouble, and on the instigation of the industrial union, and their officers will tote and pass a resolution of sympathy to the strikers, but cannot help them any further, because it is against their constitution, and their officers would not let them. And the strike is lost.

It is up to us all, workingmen, to organize in such a way that we can tic up an industry in case of strike. Let us get together in one Industrial Union and let us not be misled by those who tell us that one workingman is better than another. Let us unite and not divide.

those who tell us that one workingman is bet ter than another. Let us unite and not divide.

those who tell us that one workingman is better than another. Let us unite and not divide.

Yours for Industrial Freedom.

The Seattle Locals, No. 178 and 382, have moved to new headquarters, and are now located at 1524 Fifth Avenue, between Pike and Pine. All members from outside points will find us at this addross and are requested to pay us a visit should they come to this city. The hall is larger and better than we have had hitherto. An active campaign will be carried on to recruit new members and spread the propaganda of Industrial Unionism.

EVENTS OF THE WEEK.

(Continued from Page One.)

Thompson meeting will be tried (?) today by Judge Mann. It is given out by the authorities that these young fellows were arrested because the literature they

first, but changed their minds later and granted the increase. Immediately all the contractors, real estate sharks, etc.. began to make a kick at this unheard-of action of the council. Some threatened vengeance on such unworthy puppets, while others came out and proved (?) the increased wages would be a detriment to the laborer, as all city improvement must cease owing to the increased cost of this work (pretty slick, this). influenced by the latter or the former argument it is hard to say, but at any rate the council reversed itself and cut down the wage scale again. The unions are sore and disgusted at this, and declare they will march on the city hall in a body, 10,000 strong, and demand the increase. Chief Sullivan says of this demonstration, that if "any of them attempt to speak on the street, either on wage scale, matrons for the jail, church affairs, city market, or for the jail, church affairs, city market, or other tepics of the day, he will place them under arrest, on the interpretation placed upon the disorderly conduct ordinance by the police during the I. W. W. cases, This statement is a sinister one; already they are using the I. W. W. affair as a precedent by which to gag others. If they cedent by which to gag others. If they can stop us from talking on the street, they can stop the A. F. of L., or any one else, from marching upon the street. haps the slumbering A. F. of L. will awaken to this fact some day.

In making a talk before the city council recently in an endeavor to get them to appoint three matrons for the icty jail, Mrs. Stalford, a prominent member of the Women's Club, accused the police of perpe trating outrages against women in the city jail. The chief demanded proof of this, and thinking her unable to produce them he has instituted suit for libel against her. She has the goods and in a few days there will be sprung one of the greatest sensa-

tions Spokane has ever known

In this affair the council did much the same as in the case of the unions. First they appointed the matrons, and the next day they rescinded their action. This has made the Woman's Club sore and from all indications they will also take part in the demonstration. The German Turner the demonstration. Society has also declared its intention of joining the demonstration on the proposition of the matrons. It looks as though the Spokane city government is in for a hot time on March 9th, when the demon-stration will take place. It will be very queer if the I. W. W. can't also make free speech one of the issues also. The men are beginning to reach Spokane, but not as fast as was expected, owing to the blockaded condition of the roads. kane is the Mecca to which all men who are worthy of the name of revolutionist must come this week. The issue has long since ceased to be merely a matter of free speech upon the streets. It is now whether or not our organization shall be outlawed and driven from the cities of the contry, even as it has from Spokane. If you have any regard for the future

the I. W. W. and have any fighting blood in you, come to Spokane. If not, sit around your stoves and criticize and watch the only working class organization in the country go down to defeat.
On to Spokane!

THE I. W. W. PREAMBLE.

WAR ON STEEL TRUST. WAR ON STEEL TRUST.

A dispatch from Washington says the American Federation of Labor has opened war on the steel trust. But whether the official gun announcing hostilities was fired direct from Washington or from the Civic Federation banquet, recently held in New York, where Gompers, Mitchell, Morrison, O'Connell and other alleged labor leadors who are to carry on the

were arrested because the literature they were distributing is of such a nature as to "come under the ban," although the tickets simply announced the meeting. A poor excuse is better than none. We realize in Spokane that anything the Law. W. W. does is criminal in its nature and must come under the ban.

A few weeks ago the A. F. of L. unions of city laborers presented a petition to the city council asking that the wage scale be increased from \$2.75 to \$3.00 per day. These weather vanes refused to do so at first, but changed their minds later and

of thousands of their brothers who were discharged for having the temerity to hold membership in a labor union.

The grust is owned and convoised by John P. Morgan and his associates in the Civic Fediration, who pay John Mitchell, "the greatest labor leader in the world," the princely salary of \$6,000.00 per year for administering anesthetics to the working class, that they may be kept in darkness and ignorance and submit, without resistance, to robbery and degradation by their economic masters.

without resistance, to robbery and degradation by their economic masters.

The fight is on. It is a life and death struggle. If the leaders of the American Federation of Labor assault the steel trust as feroclously as they do the champagne and feeds which Morgan and his dignitaries set before them, the steel trust will resemble the remains of a black cat after emerging from a puddling furnace.—Ex.

ployment agents could not get men enough ion the job, so the boas had to come through with ten dollars to keep the shark hiring men. They shark got busy and hired twenty men. They were told it was an eight-hour job, and so it proved to be—twice a day. They worked one day and eight men quit. They found out they had 40 cents coming, the rest quit next day and got 65 cents.

The writer interviewed one of them, who received 65 cents, and when the man got to town he found out that 25 cents of that was counterfect. The way they do the job of skinning slaves on "OUR" reservoir is by soaking them first for hospital fees, then one dollar a day for board and room, and when they have enough coming to buy another job, tie a can to them.

Portland is thoroughly up-to-date in this respect. We possess a "desirable citizen" here the streets of gold on earth. As long as the Salvation Army and the other Bible pounders don't both the name of Langley, who is a contractor. At the prognit time Mr. Langley is constructing a reservoir for the city at Mount Tabor, a subtrb of Portland.

The job is advertised as a good place to work of the employment sharks; wages \$2.25 per week. Well, perhaps board is \$5.25 per week. Well, perhaps board and the hole of to board.

The place became so well known that the emitted the hole for board.

The place became so well known that the emitted that worken or a man killed. As long as the Salvation Army and the other Bible pounders don't bother the streets of gold on earth, the book will never object. Talk about peace on earth, but don't shut the cruel valve on the four-inch steam pipe that is fast sapping all vitailty from the men, until they fall a deadened mass. The police are being eulogized by the big capitalist dailies, for the very humane way in which they handled the Free Speech prisoners. The Spokesman-Review especially lauds these human beasts, and says great honor is due to them, because not a blow was struck, a window broken, or a man killed. Then the editor of this capitalist spew forgets himself and in his anxiety to give the news, prints the report of Dr. O'Shea, who treated the prisoners. The following clipping is taken from the Spokesman-Review of January 3rd:

Workers of the world, unite; you have nothing to lose but your bed on your back. You have a world to gain. Labor produces all wealth, and those who produce it are tramps and hoboes. This gets to him. 'A new life for him. He will go through hell for such a union with such principles. He has gone through hell in Spokane, and has given his last cent. He is soon coming back, and then again and again if necessary, until the truth can be told on the streets. Five thousand joined in one year in Spokane. They tied up the drives in 1907, in Montana, and let the loss go to blazes, until the bosses got on their knees and begged them to go to work. They did go to work. They saved what logs did not get past the saw mills. They forced \$10 a month more wages from the Amalgamated Copper Co. They forced the hours of labor down to nine hours per day. They left fifteen million feet of logs high and dry in the Flathead Vailey in Montana last spring. The bosses would not come through with the money, and the shorter hours of labor. The
