Another Victim of Police Brutality

Thirty-four years after the trials of ex-slave John Snow and ex-slave Henry Johnson, there was another trial today of a police officer for the murder of John J. Taylor.

The trial was held in the courtroom of the Court of Common Pleas in Philadelphia, Pennsylvania. The officer, James W. Taylor, was charged with the murder of John J. Taylor, a black man who was killed by a police officer in Philadelphia on July 25, 1918.

Taylor, a 29-year-old black man, was shot and killed by Officer Taylor, who was responding to a disturbance call. The officer was found guilty and sentenced to 10 years in prison.

The trial was the first time that a police officer had been tried for a murder committed in the line of duty.

The case was brought by the Taylor family, who had been trying to get justice for their relative for nearly two years.

The trial was a major victory for the Taylor family, who had been fighting for justice for their relative for nearly two years. They had been told by the police that the officer had acted in self-defense, but the family had always believed that he had acted in cold blood.

The trial was also a major victory for the black community, who had been fighting for police accountability and justice for centuries.

The trial was a major victory for the black community, who had been fighting for police accountability and justice for centuries. The black community had long been fighting for justice for their loved ones who had been killed by police officers.
