Our Fellow Workers, Preston and Smith, Are Still In Jail!

The machinists involved in the strike at Portland in June have now been on strike for five months. The strike was called by the International Association of Machinists and has been supported by the International Brotherhood of Teamsters, Chauffeurs, Warehousemen, and Helpers of America. The strike has been called in response to the unfair labor practices of the employers, who have been refusing to bargain in good faith with the union.

The strikers have been supported by a large amount of public sentiment, and have received much aid from the International Brotherhood of Teamsters, Chauffeurs, Warehousemen, and Helpers of America. The strike has been carried on with great determination, and the strikers have been willing to sacrifices much for the cause they believe in.
