FARMERS VS. AGITATORS IN PRISON

Workers! The Grain Is Ripe. Organize in the Harvest.

We Want the Goods.
We Want the Earth.

FARMS FOR THE PEOPLE

From the Tekkeh Herald, July 15:

The United Farm Workers of America, representatives of the Industrial Workers of the World, yesterday presented a document outlining their demand for a just settlement of the strike. They ended their three-month occupation of the Farm by handing a petition to Mr. Fink, the manager of the farm. The petition is as follows:

"If they work, you pay a tax and charge on them until you are satisfied. If they don't work, you charge on them for that. They have no chance. They are the working class and they are made to be the working class."

The document outlines the conditions under which the workers will work, and the demands for a fair settlement of the strike. The workers demand a minimum wage of $2.50 per day, a 40-hour workweek, and the abolition of child labor. They also demand the right to form unions and the right to strike for a just settlement of the strike.

FARMERS VS. AGITATORS IN PRISON

The United Farm Workers of America are calling for a nationwide strike to support the workers at the Farm. They demand the immediate release of all the prisoners who have been arrested during the strike. They also demand the right to strike, the right to form unions, and the right to organize.

Will they have been under socialism? Sure! But much taller ones.

You believe in organization. Do you believe in doing some organization, or do you believe in doing some other kind of work? Come, Jack, you don't work hard enough. Don't you know what your interests and that of the men are identified? That is why you are a working man and he is the boss.

The Chicago Arbitration-Settlement of July 8th has an item stating the injunction to be imposed on the Chicago Arbitration Commission under which the opposed pickets are to be prohibited. The opponents are to be protected at all times. At one time we believed that cops were almost human beings.

The farmers are organized, the employment sharks are organized, the workers are organized, the labor bosses have the unions and the cops—not to mention the legal sharks, sky-jackets, etc. But when it comes to the bosses, the tables are turned.

We will find much and honey in the glorious land of cattle. We will find the silver and eggs, and we will live in it now. This makes hungry-looking "be" from the sidewalk. He was puncher. Why was he? He was a telegrapher.

INDUSTRIAL UNIONISM means shorter hours.

INDUSTRIAL UNIONISM means better living conditions.

INDUSTRIAL UNIONISM means a better and a longer life.

INDUSTRIAL UNIONISM means more of what you produce. This is what you want. Are you ready?

From a clipping we learn that the proprietors of several railroad lines in North Carolina recently gave a barnyard to their employees, a slave, who numbered 15,000. The exchange states that a negro has been invited to the barnyard to demonstrate the advantage of the negro. The negro put a square meal for once and the ex- pected result was that the horses were thirsty for several years. It's remarkable how much can be bought for one square meal.

Occasionally receive a clip from a distant city in the effort that THE WORKER is not "air." True, too true. We need only remark that the conditions of the workers, the conditions of which we speak, are not "air." Neither. When the workers are living in an ideal state, when there is nothing "out of the living conditions of the slave," then will we take up the proposition and arrange to make the paper "nice." Would advise no one to hold their breath, however, until this all comes to be.

EMPLOYMENT SHARKS ARE BAWLING

C. C. Remey, of the All-Religion Employment (1 Office) J. D. Harles, of the Marx Employment Sharks, and the notorious order of the Horatio Lumber Sharks, are the notable men of the employment sharks. The employment sharks are not so strong as they would like. Good luck to the employers and gettong on to work in the business of getting respect from persons—persons of mass clue—persons of mass clue. There is the form of the employment shark, and especially of this tribe of bloodsuckers.

I. W. W. MEN GET BUSY

Workers, this paper is your paper. It is the workers' shop and support that will keep it going. We are figuring on doing many things. To some of our contributors, all this seems a little too much, and all this seems to be a lack of finances. If you could see the vast way we could do this work, you would feel that there is a great deal that we could do. The work that we have done is not what may be done, and the most important one, is to get话 to your fellow workers on the subject of the employment sharks. It is a shame that the financial end up and entangles the hopes of the paper. It is a shame that the labor conditions in your vicinity. It is the news of the day that is important. Advertise your paper wherever you go and be good for Industrial Unionism.

NO WAY FROM THE STRIKERS

A REPORT FROM ROE.

We, the House and Restaurant Workers of Roe, wish to express our gratitude to Roe's management for attempting to give a little better wages and working conditions to the strikers.

Our main contention is for one more day's rest work to work (we are only given one day off every week, and particularly on Sundays which is not enough for us). Besides, we also want a little more money for each of us.

We hope that management will cooperate with us in this matter.

WICKAYN, WASH.

Pine Warber 2 J. Hintz, who is working in the fruit packing plant here, was hospitalized in Spokane, Wash, requiring wages to be $100 per month, or he fears for his life. He is being treated in the hospital. The hospital has informed his employer that he will have to be transferred to a more secure place.

NATIONAL WAGES.

Bakers, March 11, 1919.

We, the Women of the Bakers' Union, are here to demand better wages and working conditions.

We work long hours, often for eight or ten hours a day, without any relief. We also have to work on Sundays. We are not given enough money to live on.

We demand that our wages be increased and that we be given a day off every week.

NATIONAL WAGEN.

A REPORT FROM MCCAUL.
