## FARMERS VS. **AGITATORS**

(From the Yakima Herald, July 12.) John W. Foss and Joseph Gordon, repre sentatives of the Industrial Workers of the World, were arrested yesterday evening for holding an open air meeting on Front street. Foss was fined \$40 in police court this morn ing and Gordon \$25.
"If they won't work, put a ball and chain

on them," said Police Judge Bounds.
"No chain gang for me," said Gordon. Gor-

don says he isn't afraid of the bread and water stunt, either.

Both Foss and Gordon contend that they are being, deprived of their rights as free American citizens to exercise the privilege of free speech.

#### Has Permit From May r.

Foss had a permit from the mayor to speak on the street. A policeman arrested him and took him to fuil.

"We'll keep the good work on," said Gordon, who was standing by, and he forthwith mounted the box. Whereupon a second policeman arrested both man and box and that was the end of the meeting.

Fors came to town Friday night from Scattle on the way to Spokane. The first thing he did, he says, was to get the permit from the mayor. Then he distributed copies of The Industrial Worker on the street. It is this peri-odical which he is traveling to represent. He was arrested Friday night but did not show his permit. He said he was afraid the police would take it away from him. He was fined \$5 and released Saturday night.

Last night when he was arrested he produced the permit from the mayor, but was thrown into jail anyway. Captain Kelly said the mayor confirmed the action of the police in making the arrest and ordered that the Industrial Workers should not be allowed to speak any situation in Agentine from reaching the out-more on the streets, but should be given an side world. In spite of all precautions taken opportunity to get out of town.

# WORKERS ON

Fellow Worker Fred Heslewood, upon spe cial invitation, addressed the District Convention of the United Mine Workery of America. held in Seattle Labor Temple on July 5th.

The plain exposition of Industrial Unionism given by Heslewood left a deep impression upon these sturdy miners. The sentiment amongst them is strong for ONE BIG UNION for all workers. If some think that the miners are an uninformed lot of diagons, they are greatly mistaken. Many of the mine workers know a thing or two. Industrial Unionism is as well understood by them as by our own members.

At the meeting quite a bunch of literature and Industrial Workers were disposed of. Fellow Worker Knust, always on the job, glomined 11 subs for The Industrial Worker.

A vote of thanks was extended to the I. W. W. speaker. There is a strong sentiment as well as understanding amongst the miners against the signing of contracts with the

The I. W. W. Local in Everett, Wash., is increasing its membership, which is composed mostly of machinists, now on strike for better conditions. When a union can hold more than its own in times of trouble with the boss the material is of A-1 timber.

The Shingle Weavers in Bellingham, Wash., have been given lessons in Industrial Unionism for some time in the past. Result is that some refuse to pay dues any longer into the old in-ternational union, arguing that to continue to do so would leave a mighty club (craft union-ism) in the hands of the boss.

Others again think that it is better to re main in the old union until such time that enough influence could be exerted by them to swing the whole union into the I. W. W.. the meantime they are supporting the I. W. W. in every way possible.

The Seattle Loggers' Union is forging ahead The Camp Delegate system carried into effect by the Camp Delegates on the job is bringing the results looked for.

Fellow Worker Earl Osbor, e is taking a much eeded rest at this time. As secretary of the Loggers' union he worked unceasingly. The satisfaction of knowing that his efforts have contributed much towards the present flourish-ing condition of the union will be all the comnsation desired by him.

Will they have beer under socialism? Sure! But much taller

You believe in organization. Do you believe in doing some organizing yourself.

Come, come, Jack, you don't work hard enough. Don't you know that your interest and that of the boss are identical. That is why you are a working mule and he is the boss.

The Chicago Arbeiter-Zeitung of July 6th has an item stating that in Fort Worth eight policemen gave up their jobs rather than protect strikebreakers. At times one would believe that cops are almost human.

The farmers are organized, the employment sharks are organized, likewise the lumber barons, the mine owners and even the cops-not to mention the legal sharks, sky-pilots, etc. But how about you, Jack Worker! ARE YOU ORGANIZED.

"We will feast on milk and honey in the glorious land to come," said the colored sky-pilot. "Slip me the ham and eggs, kid, that's what I want-and I want it now." Thus spake a hungry looking "bo" from the sidewalk. He was pinched. Why not? He was wise.

INDUSTRIAL UNIONISM means shorter hours. INDUSTRIAL UNIONISM means more wages. INDUSTRIAL UNIONISM means better living conditions INDUSTRIAL UNIONISM means a better and a longer life. INDUSTRIAL UNIONISM means more of what you produce

This is what YOU want. Are you on?

From a clipping we learn that the proprietors of several cotton mills in North Carolina recently gave a barbecue to their slaves, who numbered 15,000. The exchange states that a spirit of good fellowship was in evidence between capital and labor. Sure! Labor pot a square meal for once and the capitalist was assured of a bunch of willing slaves for the succeeding year. It's remarkable how much can be bought for one square meal.

W occasionally receive a protest from dainty people to the conditions of which we speak, are not "nice" either. When the workers are living in an ideal state, when there is nothing "not nice" in the living conditions of the slaves, then we will take up the proposition and strive to make the paper "nice." Would advise no one to hold their breath, however, until this all comes to be.

## EMPLOYMENT SHARKS ARE BAWLING

C. O. Rainey, of the All Nations Employment (1) Office, J. J. Macho, of the Macho Employment Sharks, and the notorious Red Cross representative, R. A. Freeze, are wailing because the suckers are not biting as strong as they would like. Good! Let us congratulate the workers on getting wise to the bunch of greasy pirates—these procurers of male slaves. Beware of the fat employment hog, worker, and especially of this trio of bloodauckern.

## I. W. W. MEN GET BUSY

Workers, this paper is your paper. It is your subs and support that will keep it going. We are figuring on doing many things that would improve the paper to a great extent, and all that prevents is a lack of finances. If you could see the vast work that is being done by the press of the Industrial Union you would certainly scratch gravel to help keep things moving. There are several ways in which this may be done. One, and the most important one, is to get subs from your fellow workers on the job. It is subs that we want; it is subs that keeps the financial end up and enlarges the scope of the paper. Also, keep us posted on the labor conditions in your vicinity. It is live news of the MAN ON THE JOB that is of interest to the of LABOR overpower any opposition. And it will be because workers the country over. Advertise your paper wherever you of CONSTRUCTIVE endeavor, not the butting of wooden head go and boost for Industrial Unionism.

#### FOR SWEET CHARITY'S SAKE

The Spokane "Morning Liar" recently devoted a whole page to the "charities" (1) of the female members of the "400" of this labor-hating city. They can afford to be "charitable." They are supported entirely by the sweat and blood of the very people whom they make the objects of their "charity." Workers should "beware of the Greeks when they bear gifts," and this applies equally well to the "400." The function of charity is to make the worker contented with his lot, to hynotize him into the belief that he is being given something by the generous boss, while, as a matter of fact, the boss is only trying to hide the truth—that the worker is giving so much to the boss that he has not enough left to supply himself with the hecessaries of life.

When the ruling class make a pretense of caring for those who have lost life, limb or health in the industrial mill, they do so only to cover their own dirt and filth: to further enslave and debase the workers who are such easy marks as to be grateful for such a contemptible thing as "charity."

WE WANT NO CHARITY. WE WANT ONLY WHAT WE CAN TAKE BY OUR MIGHT. And we are mighty enough to take ALL of what we produce and keep it. Organized industrially we will be the ones to dole out charity if there is to be such a thing. And the members of the "400" will surely need it, unless they go to work and cease to be of the "400."

WE WANT NO CHARITY. WE WANT THE EARTH.

#### SCIENCE AND THE WORKER

The famous (or infamous) opponents of the working class revolution, the capitalist-minded upholders of the doctrine of individualism, contend that science, and especially biological science, proves that the workers are doomed to remain slaves BECAUSE of the law of the "survival of the fittest." They hold that the fittest are those that are on top, and therefore those that are on top are the ones that Nature has selected to be supreme. Well and good. And we may admit-yes, assertthe truth of this argument, with a qualification. The qualification is this: When the conditions of the struggle change, the qualities necessary to survival are different, and therefore the survivors will be of a different kind than before.

At the present time the quality necessary to getting enough of this world's goods is low cunning. It is essential that one be enough of a hog and likewise part fox to be able to steal from others a considerable share of the material good things of life. Of course, we may live on hope and enthusiasm, but some of the readers may have observed that these two attributes are never found very far removed from a full stomach and physical comfort. The workers are deficient in the low cunning, the grasping, thieving nature necessary to survival in the present day. The worker is essentially equitable—he is, or tries to be, "square." He is not fitted to deceive. He is a producer, not a robber. Therefore, he loses out in a game that is run on the principle of "Ileads I win, tails you lose."

But the worker is fast learning that there is another way to get the good things of life, to keep those that he produces. It is not by trickery nor yet by eajolery. Still less by ballots or 308bullets. As he can't win in this kind of a game, he is going to play another kind of a game, and the others will have to play it whether they like it or not. The worker is going to play the game of Industrial Organization—and in this game he holds the best hand. Here he is the master, the one best fitted for survival. He is the necessary factor in this game and his control of this factor gives him the dominant power. And POWER is

## WOODEN HEADS AND STONE WALLS

There arrived recently a letter addressed to THE WORKER from a friend of ours in Chicago who calls himself an ANAR-CHIST. There are as many different brands of anarchists as there are of socialists, sky-pilots, etc. This letter, however, is worth while as a sample of the delusions under which perhaps most of the so-called anarchists labor. It is rich in bourgeois thinking and is in thorough accord with the psychology of the capitalist. The party is merely a capitalist who has no capital, and is therefore considerably put out. The letter is as follows, in part:

"As government is supported by the two pillars-Taxation and Militarism-in addition to exterminating the soldiery, as effect that THE WORKER is not "nice." True, too true. We per above, I would recommend that you cease payment of taxneed only to remark that the conditions of the workers, the ation. With two supports demolished the inevitable result would be the end of government. With the end of government comes the end of capitalism and its twin, wage slavery."

Here is a perfect example of the anarchial delusion in regard to government. To such thinkers (1) the government is an entity in itself, a thing that must be destroyed, a thing that is the cause of all our suffering. The anarchist, or at least this species, is unable to see that government is only the reflection zard. So it is with the workingman. His of the real power of the rulers, and that their real power lies masters owns the factory; he figures that if it suckers who bought jobs. not in armics and navies, but in the control of the labor-power were not for his masters there would be no of the workers. It is this labor-power that supports every institution, it is on this that all also departs of the workers.

It is this labor-power that supports every institution, it is on this that all also departs. stitution; it is on this that all else depends. Government is the shadow, control of labor-power the reality. Get possession of the factory was built with the unpaid labor of take not only possession of the goods, but also the latter and the government of the other fellow falls from the working class, with something that the to become powerful enough to hold them lack of substance.

And we are advised to "cease payment of taxes." How much did you pay in taxes on that bundle of blankets, Jack! Are you feeling the burden of taxation imposed on all your extensive properties? When you are taxed on your landed estate and said so long ago. The capitalist owns the facbuzz-wagon it will be time to howl against taxation. You, Mr. Author of the Letter, how much are you taxed? The last time ve saw you, you were sleeping on some chairs in a hall, and there was no evidence of any tax collectors around the diggings. No, capitalistic-minded reformers or destroyers, the workers are working out their own salvation. They are neither reforming nor destroying. They are CONSTRUCTING an industrial system "in the shell of the old." And when it is completed, or at least strong enough to crack the shell, the latter will crack and distintegrate. Not without effort being put forth to maintain its solidity. But as surely as the forces of economic law are in working order, just so sure will the might against the stone wall of fanatical mesconceptions.

That will depend entirely upon the strength of your organization and the solidarity displayed by the membership as well as the unorganized workers. This is no pipe dream. This has become a reality in France and in other countries across the pond. The workers there have their own Labor Temples, Labor Exchanges to which the boss has to go and apply for help. C. H. McCARTY,

ANENT OUR FELLOW WORKERS, PRES TON AND SMITH.

The Industrial Worker has written for information regarding our fellof workers, Preston and Smith, who are serving a long term of imprisonment in the Carson City penitentiary for having taken a prominent part in the big I .W. W. strike in Goldfield, Nev., several years ago.

Steps must be taken to gain their freedom. We soon will be in a position to let the workers of the land know how matters stand and what must be done. Remember this. Any member of the working class, whether he holds an official position in the union or not, is entitled to all possible support when in trouble on account of his activity for the union.

The preacher, the lawyer and the politician do not live directly upon the workers. These lickspittle lackeys of the plutocracy are fed my the Weeping" satisfactorities from the wealth that has already been extracted from the wage slaves. The capitalists are the fleas that infest the workers and the above named prostitutes are but little lice on the backs of the fleas. The employing class pay the pulpit pounders to teach the workers to be meek, humble and satisfied, and to extol the virtues of the masters: they keep the lawyers in order to outwit the workers as well as to adjust their private quarrels, and they reward the politicians for the work of dividing and misleading the workers by allowing them to take charge of such affairs as are too trifling to merit the attention of the "captains of Beware of all threethree-preacher, W. C. SMITH. lawyer, politician.

HOW LIKE THE AMERICAN FEDERATION OF LABOR.

The trade union movement of Britain is at present almost entirely reformed or very moderate in object and methods. The executive bodies of all the larger and wealthier unions are unduly concerned to maintain peace between capitalists and workers, and when a disbreaks out their chief concern is to narrow it to the smallest dimensions.

However, there is a growing minority of the class-conscious workers who are working vigorously to properly co-ordinate the unions on the lines of industrial unionism, and to openly declare that the object of the unions must be the securing to the workers of the full reward of their labor, and they are wishful to use the unionsm for genuine fighting purposes on "Direct Action" methods.

I have during the fortnight since I returned from Paris addressed large meetings in the provinces at Avonmouth, Newport, Barry, Cardiff, Swanses, Tianelly and Aberdare in South Wales. At all these meetings I have explained the methods of the C. G. T. of France and this has met with hearty approval.

MISSOULA APPROVES PROTEST. Missoula, Mont., July 5, 1910.

Editor Industrial Worker: At the last regular business meeting of Local 40. Missoula, I was instructed by said local to notify Seattle Loggers, Local 432, The Industrial Worker and Solidarity that we, the membership of Local No. 40, Missoula, Mont. heartily approve the protest made by Loggers Local 432 in regard to the election of our Gen-eral Executive Board. And, further, that we will join hands with the loggers in taking action through General Headquarters as to a referendum in nominating and electing a new Executive Board for the coming year. Also in our convention reports, we see the names of Frank Bohn, J. P. Thompson and William Trautmann for General Organizer. On the ballot appears only one name, that of William Trautmann. We have seen no notice of the declination of Bohn and Thompson. If these last named fellow workers wish to decline, it should be their duty to do so in writing and through our official organs, The Industrial as he had to carry on the business of the boss Worker and Solidarity. W. I. Fisher and Fred while the latter was enjoying the show. Heslewood should, in case of the other two declining, appear on the ballot. Should these fellow workers decline, it should be up to the rank and file to nominate some one to go or the ballot.

Fellow workers, it is up to you to do some thing. Don't leave too much in the hands of the few, and then kick when it is too late. Yours for the I. W. W.

Samuel Compers, president of the A. F. of L. has hit upor a new plan. He wants the whole horde of sky pilots to preach simultaneously on certain day the gospel of trades unionism. On June 5 this matter was brought up before the Chicago Federation of Labor for action.

The Sunday preceding Labor day sermons should be preached from every pulpit for the benefit of the organized workers. (How about the unorganized? Are they to be left to roast in the hell holes of the steel mills, etc.?

In the event the heavenly boosters are ur abel or unwilling to preach themselves on this theme, labor leaders will mount the pulpit and explain to the flock the purpose of the only and

holy Church of Trades Unionism.

Delegate Mace offered a motion that two sermons should be preached from every pulpit, one showing. Johnson also surprised them like the by a pulpiteer, the other by an Onion man. This boss gets surprised when he finds out he has motion met with considerable opposition on the one of those I. W. W. agitators talking to his grounds that two speeches will put the sheep to sleep, also that the heavenly bunko steerers fries down three times and put him out twice might.uot be able to handle the gospel of "Sam:-

In the end the holy biz was turned over to a committee with instructions to submit a plan to the next A. F. of L. convention for adoption.

AUGUST WALQUIST, Sec. Pro Tem., Local No. 40, Missoula, Mont. BIG PRIZE FIGHT

Editor Industrial Worker:

With your permission I will submit a few lines to the readers of The Industrial Worker concerning the big prize fight here on July 4 from an industrial union viewpoint. I arrived here July 1 and found the cockroach business men talking about the best way to take all the money the strangers brought in with them giving them as little as possible in return. And they double-cross the visitors right, in a Christian business way, while the poor, deluded slaves were only concerned about the nigger getting licked by the white man, passing up a great chance to get the goods from the boss, which they could have easily done had they been organized. But the boss got his be cause the wage slaves of this town would not take advantage of him, notwithstanding they could see the boss tripling the prices on the visitors while he had the chance. The slave found out he had nothing in common with the boss so far as seeing the fight was concerned for the admission price was out of sight of the working stiff that did not have a steady job and the slave with the steady job had no time

I heard one young scissorbill say that he came to see the fight and could not get cheap "It's a wonder they wouldn't keep the price down so a working boy could see fight," he said. I told him there was not enough room for the bosses, so what charce did a working stiff have of taking the place of the

The boss took advantage of the big crowd to plaster the town with fake ads about cheap lands, good hotels for the bosses, punko cigars, etc., and I also stuck up a few I. W. W. stickers to let the master know there was a dangerous slave or two around here. Saw the "Smith Dope" special from Spokane here. They don't believe in free speech for the I. W. W. there but they were full of dope here, and going down the street singing about the Inland Bumpire and the Big Red Apples. That kind of free speech is all right for them-just so they catch a sucker or two.

I was present at the ringside. I used a little "direct action" in getting over the fence and around the hoosier bulls, and had the pleasure of occupying a \$15, \$30 and \$50 seat, in turn, free of charge. Jeffries always was a rank scissorbill that boasted of doing two men's work. He once took a scab job in the Union Iron Works at Frisco, I am told, but all the slaves thought if he would show the American (so-called) white stiff was the best man for boss, and the foreigner and negro were no good, it would be the stuff. But Jeffries did not have a look-in, and surprised the people by his poor good slaves on the job. Johnson knocked Jefand poor old Jeff's head looked like some of the free speech fighters' heads did last winter after Shannon got through clubbing them. Johnson only stopped two blows that were at all effective.

The masters had a large bunch of intellec tual prostitutes from all over the world as reporters, so it will not read so bad to the slaves, but the bunch was sore at coming so far to be stung by the modern gladiators putting up such bum amusement.

The fight was started by a political faker talking about "liberty," "the flag," and saying that Nevada had more freedom than other part of the country-he did not say for whom. The only thing they lacked in the preliminaries was a Bible Pounder, but he was busy saving the souls of the strange nickels up town. The Starvation Army and the Comic Valentines of America also reaped a harvest from the mutts who put up their good money to come to Nevada to see the fight, and were busy going from one saloon to another and shoving their tambourines under the noses of the "sports." Some other bunch of religious or charity fakers "tag day" on the day of the fight. All the fakers, in fact, were busy trying to get in on the graft, but the working stiff was too occupied working-or dodging the "get out of town" orders if he was a masterless stiff.

There is some work here of all kinds, but lots of men to do it. Yours for Industrial Unionism. T. J. O'BRIEN,

Gen. Del., Reno, Nevala.

FROM A WORKER. Editor Industrial Worker:

I was in Tacoma yesterday and found the boys all rooting for the L. W. W. Things look fine there, but work is not very brisk at the present writing. There is a chance for men at the Tacoma smelter. Wages from \$2.25 to \$3 is unmolested and only the I. W. W. is bothper day. Also a chance in the logging camps on the Tacoma Eastern railway. They are still hollering for berry pickers around Sumner, but when you get there they want married men with families, so they can do just as they want to with them, and they have a cinch on them if ever anybody did have one. There is a logging camp at Thomas, Wash., or the P. S. E. 13, which was held last night, although there railway, 18 miles from Scattle, where they pay were not very many present, the communication fair wages and the board is a little better than from the General Headquarters regarding the the average. A man can get on if they are forming of organizers' circuits was read and short handed. Things are rotten ripe for the the general opinion was that it was a great big I. W. W. all south of Seattle. We have been step toward a strong organization. Several holding meetings every night for the last members were enthusiastic about it and it was month and rounding up the plugs for the har-decided to communicate at once with the vest. John M. Foss, the traveling representative of The Worker reports on the following job: sit around the headquarters all day would be Street work at Yakima pays \$2.25 per day; pay the best thing we could get. We want an orday once a week; board \$5, poor; sleep in Ranizer here to organize a Mexican union, a lodging house; no tax of any kind; patrouizes laundry workers' union, etc., to take in the felemployment shark; bad conditions generally. Many slaves out of work.

F. H. L., HOBO AGITATOR.

SOMETHING DOING IN THE FURNITURE Fellow Worker Stirton, former editor of the Wage Slave" and "Solidarity," will speak in Grand Rapids, Mich., on Industrial Unionism. The boys 'round there are wise, you bet. They could have organized a mixed local of the I. W. W. last year, but they thought it better to agitate among the slaves of the furniture factories until they got enough men to form a substantial shop organization among them. Stirton will finish the job and the bosses in that burg will not sleep so easy in their mansions on Wealthy avenue after this. There is nothing that beats an organization of men the Job. News comes also that the Socialist party of Detroit, Mich., wants to stop Stirton from addressing Socialist party locals in Michigan. They have written to all locals and also to national headquarters in Chicago.

Wonder if by giving this information we knock the Socialist party? Here you have a supposed workingmen's (?) party trying to prevent speakers for industrial Unionism from talking to its members. Prevent them from organizing in the shop into a union which might not vote for its candidates. Fine doings,

Of all workers, we believe we stand in need of a little rest each week, a little of the free air of heaven, and a chance to go out to the parks the same as all other craftsmen.

The Restaurant Keepers' Association say we are not entitled to these blessings. They say we should work every day in the week, month in and month out-all the time. Not only that but they say we should work 11 and 12 hours per day—the "split shift," that keeps the worker at his master's place of business from 6 and 7 o'clock in the morning until 7, 8 and even 9 o'clock at night, with a little time "off" in the afternoon when his services are not needed. Most of his time "off" in the afternoon must be spent in getting his meals and changing his clothes to street apparel and vice versa when he gets back again to finish out the latter part of the long day.

What do you think of this matter, Mr. Good Citizen? If you do not care to hazard an opinion until you have investigated for yourself, then go some time into any one of the restaurants in your city, and get first-hand information. Note when the workers go on shift in the morning and when they got away at night. Watch the little girl who stands at your elbow when you give your order during the rush hour. Ask her what wages she gets, job is so extraordinarily rotten, even for a what hours she works. A REPORT FROM ROE. Edmonton, Alta., July 7. Editor Fellow Worker: .

Just a few lines to let you know that I am still alive and on the job. I arrived here on the 5th and yesterday made the rounds of the different railroads looking for a job telegraphing, but there don't seem to be anything doing at present. Last night I met a bunch of slaves who had just got back from the front on the Grand Trunk Pacific railway. Following are

their experiences on the job: Shipped out by Logan & Co., employment sharks, Edmonton, Alta.; fee \$1. The com pany's agent is a plug by the name of Kruekle. Took the train 120 miles to Wolf Creek, fare of one cent a mile being advanced. Had to wait in Wolf Creek two days for baggage, and had to pay 50 cents a meal, the meal consisting of bacon, bread and 16 to 1 coffee. Camps are numbered 1 to 86-one camp to the mile. They were billed for Camp 86 and so had to walk 86 miles. The baggage is haulted in a wagon, but the slaves all have to walk and pay 50 cents a meal and find their own place to sleep, which means on the bare ground unless you are prosperous enough to own a pair of crumby blankets. Contractors are Foley, Welsh and Stewart, Wages, 22 -2 cents per hour, with all the overtime you want at time and a half, but you are rushed so hard all day that the regular 10 hours is enough for the most of the slaves. Must work seven days a week or get fired. Go to work and back to camp on your own time. Sleep in tents and the grub is rotten. Board \$5.50 per week; hospital \$1. Charged 75 cents a month for mail whether you get any or not A regular three-gang job-always short of men No one can go to work unless he has got a shark's ticket. When you quit you have to pay your fare or walk. The gang of men who told me this worked for a week and still owed the company money
