How about the Workers?

NEWS OF OUR FELLOWS IN FRANKFORT

By W. Z. Foster

Feb. 20, 1916

At the present time the notice of more than 400 workers in Frankfort who are

in the approaching convention of the C. G. T. which takes place in Frankfort during

the last week of March.

The convention is for the general railroad

brokers, as far as the organizers are concerned, but they have agreed that the

Brotherhood of Refrigerator Car Makers will be represented at the convention.

The questions are to be determined before hand by a referendum of the whole

C. G. T. next year in order to see if any of these questions are necessary and

whether the convention is to be held at all.

It has been promised that the

Brothers in Frankfort will be allowed to vote and will be considered as delegates.

The convention will be held in Frankfort.

The purpose of the convention will be to

see if any of these questions are necessary and whether the convention is to be held.

We note that in the country where the socialist political parties are most numerous the soldiers are rising up dozens by hundreds. Wonder why they don’t use their guns away up there.

The Times,” a week labor-loving sheet of Los Angeles, was revolutionizing the state. There is no need of seeing how the government can prevent the explosion of some of the unions that have been more or less quiet in the state. No government that is not socialist can stand the reaction of the French and the German anti-de Gaulle must stand, can stand the reaction of the French and the German anti-de Gaulle, and the other socialist unions, etc. The Indians, Austrians, etc., who formed their own bodies, will not be able to get out of it, and it will be pitifully clear in the country that the anti-socialists are going to continue. The Indians, Austrians, etc., will not be able to get out of it, and it will be pitifully clear in the country that the anti-socialists are going to continue.

STOP THE COMPETITION.

Workplace, did you ever stop to consider why workers for the jobs which brings the wages you enjoy are forced onto the job? What you do not know about the worker can roll up, and regiment him, as a soldier in the army. An army, a work force, is a group of individuals, except for the fact that they are all equal. Every exception does not prove the rule. The organized structure of the working class forces the worker to do his job.

But why is this a fact? We ask.

Let us consider the relationship of the work force with his fellow worker for the job he does. The work force is less solid, less able to fight back against the employer. Each worker is more essential to his employer, a necessary factor in the machinery of production. Each worker can be replaced by another. The employer can sell his product and make his profit. Thus, his work force is less solid, less able to fight back against the employer. Each worker is more essential to his employer, a necessary factor in the machinery of production. Each worker can be replaced by another. The employer can sell his product and make his profit. Thus, his work force is less solid, less able to fight back against the employer. Each worker is more essential to his employer, a necessary factor in the machinery of production. Each worker can be replaced by another. The employer can sell his product and make his profit. Thus, his work force is less solid, less able to fight back against the employer.

So, if you want to keep your job, do not support the employers. Join the workers together and you can fight against the employer. Together, you can fight for your rights and your dignity.

NOTE TO I. W. W. LOCALS.
The Industrial Worker urgently requests every electrician to come and pay his dues. If possible, better orders should be given to the I. W. W. locals or at least settled over the phone. A word to the wise is sufficient. Members are requested to bring this matter before their unions and see that the orders are filled.
