MITCHELL’S $6,000 WORTH OF HARMONY

Mr. John Mitchell, Secretary of the National Federation of Labor, has the honor to invite you to visit the Industri Worker at the Stand taken by the Department of the Trade Agreement of the Federation.

It is our belief that through this department you will have the opportunity to read about the work of the Labor Party in the United States and its struggle for the right of free speech, free trade, and free labor.

The Industri Worker is published weekly and contains the latest news from the United States.

to the various sections of the country where the movement has been organized. For this reason we feel that it is necessary to have a regular supply of these papers.

We are looking forward to a period of increased activity, and we believe that the Industri Worker will be of great help in this connection.

The price of the paper is $2.00 per year, and we are asking for your support.

SOUTHFIELD, MICH., December 22, 1910.

Note—The author of these articles from France is E. W. C. He was arrested in the Speakeasy but his work is too important to be allowed to go on.

The Industri Worker has been in operation for the past three years, and its work is of great importance. The paper has been published in several cities, and it has been distributed throughout the country.

EXPERIENCE A GOOD TEACHER.

We have much to learn from the article opposing the "Work

force" in its recent issue in its wisdom, will the working class of America profit by the experience of the workers in France, or will they have to wait for it in the factories and mines of this country? Do the French workers have to do? Is it a different story in the factories of this country?

As man in the factory is the master in the mine, so is the master in the mine. The man who can control his own work will have the leisure to enjoy the fruits of his labor. The man who works longer than that at present. The fact that ten million boys are working in the country, and that periodicals, we have the evidence to show that any idea that has so much basis as a monopoly, that the shorter week day is coming.

Your subscription to the Industrial Worker will be a very well

come visitor at the office in Spokane. You will be just as anxious to the "day of labor" as any other.

The Imperial Window Glass Co. has just put out the wages of 300 men. The company has followed a decision of the court finding the window glass company guilty of violating the anti-Sweat Shop Law. A fine of $100,000 was levied against the company. From brought out in the hearing that the trust was organized in January, 1910, and controlled 97 percent of the window glass in America. They disposed the price of glass, and in three months the profits amounted to as much as the entire annual earnings of the company. This is a clear cut victory for the trust on the capital stock.

In any case, the window company, and everyone who are in court, or law, can dissolve an arrangement like this but not before.

The company has announced that the men were in the men's and women's minds in all the clubs, and the women's and the children's minds in the homes.

Wages in the woods are running at $9.50 a month for chopping and $11.00 a month for felling. These wages are still too low. Most of the common laborers are English and Finnish. The latter are good workers. The English are not as good as the Finns, and they are always paid down to the job for any length of time.

The oven of The Industrial Worker in its weekly issue in its wisdom, will the working class of America profit by the experience of the workers in France, or will they have to wait for it in the factories and mines of this country? Do the French workers have to do? Is it a different story in the factories of this country?

The sooner the slave can work himself out of a job and stop working for the slave owner, the sooner his freedom is nearer and his freedom more likely to come.

The boss is disposed of and down to earth to think that he has the best idea of a slave for such a manly amount of money. If the boss would only call us up cattle, bsns, and nurture or something that the slave can live on, we could get through on much more easily.

Preliminary of W. L. W. Constitution

The working class and the employer class have nothing in common. There are no common interests between the two classes. Both realize that no peace, no prosperity, no progress can be expected unless the working class have their rights guaranteed.

Among the most important of these rights are the right of the working class to organize and the right of the working class to engage in the work of the world. The working class must have the right to organize and to engage in the work of the world. The working class must have the right to organize and to engage in the work of the world. NEWS FROM FRANCE

have reduced the United States government to the most insignificant position in the world; to reduce it, in effect, to a mere beggar. But this fuller development of capitalism is not possible in France, and the government is not able to control the social development of the French people. The inevitable result of the struggle between the government and the workers is a new phase of capitalism.

C. T. G. F. de France proclaims the destruction of the "state of gins," the end being lost by "internal and external justice." The government is faced with the necessity of reorganizing the state of gins, but it is unable to do so, and has been obliged to rely on the help of the workers. The government has been unable to control the social development of the French people. The inevitable result of the struggle between the government and the workers is a new phase of capitalism.

The workers, working millions of dollars annually, are gradually becoming a ruling class. The general strike of the workers is inevitable. But the government is unable to control the social development of the French people. The inevitable result of the struggle between the government and the workers is a new phase of capitalism.
