Again we have been taught another lesson in LAW AND ORDER. On Dec. 7, F. W. Loomis was killed in Fresno when he was having his automobile repaired at Mr. F. W. Squares’ garage, located on the east side of the city. Loomis and Squares are members of the LINCOLN METAL WORKERS UNION, which represents the interests of the automobile repairmen in California. The automobile repairmen have been following the principles of their organization and have been working for the improvement of the automobile repairmen’s wages and working conditions.

The victory was due to the discovery of the entire payroll of the auto repairmen by the automobile repairmen’s organization to the city council, which demanded an investigation of the wages and working conditions in the automobile repairmen’s industry.

The automobile repairmen’s organization has been successful in obtaining a wage increase of 25 cents per hour for the automobile repairmen.

The automobile repairmen’s organization has also been successful in obtaining a 10-hour working day for the automobile repairmen.

**NEWS FROM THE MAN ON THE JOB**

**MEN OF THE WOODS**

Talking with a man from the West: what does it bring you, news of the *INDUSTRIAL WORKER*? What do you think of my position? Shall I allow our conditions to grow worse, won't we all be in trouble? Our power and skill can only be wasted.

You: We don't drink too much. The newspapers tell us that your doctor prescribes. John B. Rockefeller is taken to be a hank of the能力 every morning. This he does because he feels tired after playing golf. He would do the same if he played golf. This means he is a man of great power and skill. Is there any other way we can maintain our position?

I: There are many ways to maintain our position. We can build and sell our own cars, or we can build and sell our own tools.
