ON TO FRESNO, FRESNO OR BUST

FRESNO MOR.  

Fifty men are in prison at Fresno, Cal.  Forty of them have received sentences of from 30 to 90 days on charges of violating laws in connection with the strike in that city.  

Out of the 50 the San Joaquin county jail, with its 300 inmates, is too crowded to accommodate them.  

There are 121 men in prison at Madera, and 222 in the county jail.  

The strike has been going on since August 2 and the strike is still not over.  

The strike was called to protest against the closing of the Folsom and Lorz mines in the Placer district.  

The miners were informed that they would be laid off and that the mine would be closed unless they accepted the new terms of employment.  

The miners refused to accept the new terms and went on strike.  

The strike has continued ever since and the miners have been in prison ever since.  

The strike has been going on for about six weeks.  

PORTLAND L.W. WORK DOWN TO WORK

SALT LAKE CITY, July 27 — The effects of the eight-hour day resolution in the Northwest and the Northwest are now being felt in the Northwest.  

The resolution, adopted by the National Union of Workers, has been adopted by the Northwest Labor Union, and it is now being enforced in the Northwest.  

The resolution states that the eight-hour day is the natural working day of all workers, and that it is the right of every worker to work eight hours.  

The resolution also states that the workers have the right to work at their own pace, and that they shall not be required to work beyond the eight-hour day.  

The resolution was adopted by the Northwest Labor Union on June 27, 1913, and it was adopted by the National Union of Workers on July 27, 1913.  

The resolution was drafted by J. H. S. Fredrickson, who is the secretary of the Northwest Labor Union, and it was adopted by the National Union of Workers on July 27, 1913.

FREEDOM OF PRESS

There is no such thing as America. Those who harcourage to stay under a torch any time that the editor of the press commits a souscring and a moral coward; he dares not say that he would injure the economic power of the United States, to advertise their wares. The editor on no account guarantees an ation that what crime he committed. The capitalist who pays for an advertising in a daily paper must edit the news just as much as the man who edits a magazine. A man is not only our own, but he has more subservient to him than to any other. The man who pays is the boss. The man who is editor of a political paper that has to work on the workers for the Senate will advocate all old that has been done by the Senate and the House of Representatives. He will advocate all that will not conflict with the personal interests of the man who works there. The man who gets into a strong political position and makes the mob of the people into a tool of his, is following the dictates of a hungry stomach, surely this is a man who has to have real power in the community. It will never be until we have workers who are enough to prevent the political corruption and economic power. May the times come soon when we can see this as a political power, a menace to society, and a band of passionate who wish to forever vanish from the face of others.

RESULT OF CRAFT, ROBBERY, UNIONISM

The wages of section men on the Southern Pacific lines have been cut from $1.60 to $1.25 per day. The section men are now working 112 hours per week. The minority among the strikers makes a horrible sacrifice, to avoid hunger and cold, sick children, and women with babies who are only partially fed. We have been forced to pay, and the railroad companies don’t intend to be the losers. Should the strikers force us to pay wages higher than those that will enable them to offer other crafts if they strike, as long as we pay what we offer. This means that the more hours a craft person works, the lower is the number of workers who can offer their services in the face of others.

MORE PROTECTION

The City Council of Spokane, at the request of the Chamber of Commerce and other interests, has increased the police force of the city by 23 men. The force is to be divided between the regular and special police and fire departments.

An ordinance of $440 for damages granted to pay for damages and annoyance for the police department during the W. W. T. strike.

The bill of $440.30 for physicians and hospital fees was presented.

Joe Gary was allowed.

It’s a year since the subscriptions were ordered, and the bill in question is now presented: $145.50 for subscriptions to show down PHYSIC PERSPECTIVES, if it should be necessary. We are not workmen to keep him for wanting to tell the truth on a public street and have the same privilege as a religious Journal. The newspapers are not organized and can not be held responsible for all acts resulting from such condition; all the followers of the law, the others not understanding on the part of the Báo presses, who are often held as more or less a news是以 a newspaper. This is the reason of the multiple surrounding arrangements. They operate in the legal sense of the condition of the W. W. T. camp, and cannot be held as journalists. This is the reason that they have one man that they call a mad dog.

The next bill allowed was $490.10 for medical attention for another man with a serious illness, and $800.85 paid to the hospital and surgeon. Joe Gary was allowed.

The ordinance of $144 for damages granted to pay for damage and annoyance for the police department during the W. W. T. strike.

The bill of $440.30 for physicians and hospital fees was presented.

Joe Gary was allowed.

NEWS FROM THE MAN ON THE JOB

FROM BOVILL, IDA.

Ross Evins, Jan. 6, 1911.

Old Ross is back home in the pay of the Pacific Lumber Trust wind-up. He is a 6-year veteran of the company, and his old-time friends say he is a great help in the Forestry Department.

I asked him about his experience in the company and he told me that he had been with the company since he was 18 years old. He was a very reliable employee, and the company was proud to have him on the payroll.

The company has a policy of paying their employees fairly and giving them a safe and healthy working environment. Ross Evins was a valued member of the team and his presence will be missed.

A Bunch of Isms at Large

WHEN WE HAVE ENOUGH FORCE WE NEED NO GADGETS

This seems to be the thought about the union slogan and political lairism that has been spread throughout the labor movement. People are starting to realize that the gadgets are not the answer to their problems. When we have enough force, we don't need any gadgets.

NATIVI KAMER

NOTICE TO ALL LOCALS.

To full effect in all industries, the following notice is hereby issued:

This notice is intended for all local labor federations and branches of the union. It is to be distributed among all members of the union.

AN OBJECTIVE

In the Industrial Worker of December 1, appears an article entitled "Special Agitation." While I agree to some points, I am opposed to the general idea of the movement, as it is necessary to have a complete and general movement of the labor movement. I also have the confidence that the movement of the labor movement cannot be carried out without the cooperation of all the local labor federations.

Whether or not the local labor federations want to abandon anti-political action, anti-military and anti-enforcement agitation. These measures are necessary for the complete success of the movement. I believe that the local labor federations should cooperate in the movement.
