FREE SPEECH FIGHT IN FRESNO.

The latest news from Fresno gives 113 men in jail, with convictions for violating anti-speech laws. The city officials and other authorities are now fighting over the matter of WHO IS GOING TO PAY THE BILL.

This looks good to us, and we intend to make the HILL, make the HILL, keep trying longer and in greater strength as the Fresno shops are being the object of great interest in the surrounding districts. When Fresno gets through with the I. W. W. it will be found that the movement is larger than that of the last few years.

FRESCO ROCK PILE.

Press-City established the rock-pile system of getting rid of their wild men. This is a new system taken from the French-speaking, as it is more healthy and good in exercise than the old system of having the rocks weighed and loaded on the workmen. May 20th is noted for breaking rock in Sparks. Four men pounded on a rock for four days and voluntarily broke it. The Sparks rock pile was abolished by the authorities as it cost more for ball and chains, tools, and extra guards and shot guns than the work accomplished amounted to. The City of Sparks only lately finished paying for the shot guns needed to guard the I. W. W. prisoner a year ago. Sparks fell down badly on the rock pile stunt and had to abolish it, now seems to be seen as if Fresno can make a paying proposition out of their rock pile (with I. W. W. members on the end of the pile).

FRESNO BLOW OUT.

State Labor Commissioner of Colorado, who has investigated the cause of the Rodney explosion, where more than 70 persons were killed, has concluded that the explosion was due to more loss of life in the real mines of Colorado than in the coal mines. The Colorado mines are more dangerous than the tin mines, according to the report, and the report states that the I. W. W. is responsible for the loss of life in the mine accidents.

HUMAN LIFE IS CHEAP.

Several local men of the I. W. W. have already taken up the cause of the Rodney explosion, and the Idaho farmers are now considering the possibility of forming a new union for the purpose of producing more food and farmers' co-operative. It is the only union that can do the work, and it is the only union that can do the job.
