TO THE TAXPAYERS OF FRESNO, CALIFORNIA.

ALL WE ASK FOR IS A FAIR FIGHT TO THE TAXPAYERS OF FRESNO.

The impression seems to have gained currency that we are inventing for another purpose than to make trouble when there is nothing to be gained on world necessity is like trying to keep back the floods with a broom. Any law of the State which is acknowledged to be such a law is an imposition, and we appeal to you to protect yourself and your constituents.

Free Speech has been recognised as a time immemorial as a social necessity. The fundamental law of our land (as expressed in the common law) guarantees freedom of speech, press and assembly, and the right to petition the government for a redress of grievances. This right is based on the principle that all men are equal before the law, and that no one shall be deprived of any rights guaranteed by the Constitution.

We, therefore, appeal to the taxpayers of Fresno to support us in our endeavor to secure the rights guaranteed by the Constitution and the laws of the State.

Sincerely yours,

I. W. W. RIDE IN SPECIAL

Among friends Industrial Workers Who Are Hanged for Treason in Boston, Oct. 20th, 1888.

The following notes were taken from a letter by I. W. W. that was published in the Boston Daily Herald on October 20, 1888. The letter was written by one of the I. W. W. members who was arrested for treason and was awaiting trial in Boston.

Dear Friends,

I am writing to you from the cell where I am confined, awaiting trial for treason. I am writing this letter to let you know that I am still alive and well.

I am in a cell with three other comrades, and we are all treated fairly well. The jailers are friendly and courteous, and they allow us to write letters and receive packages.

The court date is set for next Monday, and we are all preparing for the trial. We are confident that we will be found not guilty, and we are praying for your support and prayers.

I am in good health and spirits, and I am eagerly awaiting the outcome of the trial. I will keep you informed of any developments.

With love and regards,

ECONOMIC SECURITY

The Bankers’ Storm

It is not the purpose of this article to prove that all our actions and ideas are determined by our economic status. We are not attempting to point to the specific cause of the economic status of the working class. According to the arguments of the capitalist class, the working class is in the hands of the capitalist class. We are not attempting to prove that the working class is exploited by the capitalist class. We are not attempting to prove that the working class is denied all rights and all opportunities for self-determination. We are not attempting to prove that the working class is in the hands of the capitalist class.
