HAYWOOD COMING TO SPOKANE

SPEAKS ON "INDUSTRIALISM THE COMING VICTORY OF LABOR"-IN-DUSTRIAL UNION WOULD EN-FRANCHISE ALL WORKERS **—VOTE IN THE UNION** HALL.

Wm. D. Haywood, ex-secretary of the Western Federation of Miners, and the man of all men wanted by the Mine Owners' Association kdnaped and held nearly two years without a trial on the charge of killing ex-Governor Stuenenberg of Idaho, spoke to a large and appreciative audience on Sunday evening, June 25th, in the Princess fink, Spokane.

The speaker showed how the class struggle existed in every country in the world and how men were being persecuted for their ideas This was true of even Japan, where recently Fellow Worker Kotoku, his wife and others were strangled to death on a trumped up charge of "conspiring against the life of the The murder of Professor Ferrer of mikado." the modern school of Barcelona and how the workers in Russia while appealing to the Great White Father in their most humble and supplicating manner, were shot down by the hundreds at the gates of the czar's palace. Showing up the class struggle with all its at tendant misery in the different countries which he had recently visited and bringing back to his hyarers' attention the terrible persecution. members of the I. W. W. had suffered in the bastilg? of Spokane. The speaker then dwelt on the foolishness and insanity of craft unionism and showed up in a clear light exactly what the A. F. of L. was, with its 117 crafts warring against each other. He stated that it was an unnatural father that belonged to a crit union and would deprive his own child union laws as "only one apprentice to ten journdymen is allowed to work in a shop," He said the A. F. of L. was made up of eleven national officers, seven of whom belonged to the Civic Federation and the other four to the militia of Christ. The seven were and no army can keep in good condition and busy in making agreements with the capitalist continuously remain in that territory without class so that we might be held in bondage, that slavery might be perpetuated and the other four were aligned with a lot of priests and other parasites for the purpose of trying to head off any progressive idea that might take root in the brain of the workers. The speaker said the W. F. M. pulled out of the V. F. of L once and no doubt would again before very long.

In dealing with the POWER of the workwas the greatest political act possible; that the Industrial Union would enfranchise every woman and every child that had to work, every black man and every casual worker that union men were to be tried, not because they ous rain of lead from machine guns and rifles they tried to put their man Schmidt in comwere members of a craft union, but because they were members of the great working class afternoon, when Stanley was killed and his and because they were heing persecuted on acwere members of a craft union, but because they were members of the great working class and because they were being persecuted on account of the existence of that class struggle which knew no boundary lines. The speaker closed a strong speech with a strong appeal to the workers to organize industrially and thus prepare to combat the organized power of the master class and to prepare for our emancipation.

CRAFTS STICK TOGETHER -- BOSSES GETTING BETTER ORGANIZED — WORKERS TALKING INDUS-TRIAL UNIONISM:

The strike situation in Vancouver, instead of ooking bad as some imagined it would, is looking better than ever since the opening. The different unions on strike have started a paper, 'The Vancouver Strike Bulletin," which is being circulated among the men on strike and the sympathizers. In the meantime the unions are holding meetings daily, enthusing the membership to stick and making plans for the continuance of the strike. It is understood among the strikers that the contractors have approached some unions with a view of getting hem back, thereby making use of them against the other unions. This dodge has failed to

Even the coronation parade did not have any effect on the strike. There was the usual long line of uniformed assassins marching, even the little beguiled children, boy scouts, marched. The sentiment of the workers showed a surprising indifference to all this machinery of violence. I even heard condemnation against educating little boys in the trade of murder. All this imposing array of gaudy ceremony did not cause the workers to forget that they were on the job. Some even mentioned instances when the gaudily dressed soldiers were used course of the conversation heard in the crowd.

some scabs were employed. No hint of trouble rly one thousand men advanced upon is evident from the stricle, yet it plainly states. They were well equipped and had that the officers shot at these men. No questions were asked, they were union men looking after their own business, yet as usual, the thugs such a force was for laying down arms and of the capitalist class try and start something crossing into the United States as refugees, in order to turn the blame and public sentiment against the strikers. There has been evidence of this fact on different occasions, There has been since the strike began. The workers have so far been able to keep out of the snares which the good hosses evidently laid with a view of using violence, or at least finding excuse for it. A loud howl is going up from the business men who claim they are losing \$640,000 a month while the strike lasts.

The "Vancouver Employers' Association" has been very busy since the beginning of the strike, trying to perfect their organization by captured by Madero's troops they would all getting every slave driver into it. Among the have been tortured and then butchered in cold articles agreed to among themselves, to be

"The adoption of a uniform system whereby members may ascertain who is and who is not worthy of employment."

That is plain enough. The worthy ones are the scabs, traitors to the working class. The fighting members will be black-listed through this "uniform system of blackmail. This cir-cular of the bosses has been reprinted in the "Strike Bulletin" in order to show the workers the necessity of winning. Another covert article in the employers' circulars is aimed at the union directly, with a view of making this an open town for capitalistic exploitation, that

The wording seems to be nothing new, eh? We have seen the like before, as well as the efforts to break up the working class organized to struggle for better conditions and emancipation. One thing is becoming plainer, the workers in the crafts are beginning to talk over sentiment exists in the union ranks for a closer solidarity, this is spreakling. Once the idea of industrial unionism spicads far enough to get a good toe hold in some local industry, such circulars printed by the employees will become a stale joke. That time is nearer than many think.

In the meantime the strikers are going to stick and plan to make as short work as pos-sible in winning. There is no back-up. We have to win,

BIXTH ANNUAL CONVENTION.

The sixth annual convention of the I. W. W. will be held, beginning September 18, in the city of Chicago. It is imperative that a large convention be held owing to the growing interest being taken at the present time by great numbers of workers not only in America, but throughout the entire so-called civilized world. From different countries comes the report of the growing I. W. W. The significance of our organization is that it is world wide, knows no boundary lines and recognizes no flag that has been used to divide the workers on state lines. Our enemy is the capitalist system and any and all means that will hasten the overthrow of the cursed system should be employed. Recognizing that labor is a "commodity" and is bartered for on the market like any other commodity that is not organized, it therefore devolves on us to get organized where we are robbed and thus prepare the necessary FORCE to overthrow another FORCE, which is the organized band of parasites that live and fatten from the toil and misery of producers. Rally to the convention and make such arrangements that will redound to the best interest of every wage, slave in the world. Leave all petty bickerings at home and work for the emancipation of our class. No man is as great as the union. The greatest man in the labor movement is not as great as two slaves banded together for a common purpose. Don't forget the date, September 18.

A LONG STRIKE

The macninists on the Pacific coast, members of the International Association of Machinists, have been on strike now over one year and in that long time they cannot boast of closing of it are not in the militia of Christ are members of the Civic down one shop. Would it be fair to say that every other craft affiliated with the A. F. of L. has been scabbing on the machinists during this long year of fighting for some better conditions? Is it the truth that the boiler makers, blacksmiths, moulders, pattern makers and the host of other crafts that go to make up the 117 brands of the A. F. of L., have really been guilty of SCABBING? Which is the greatest scab; the man that belongs to a union and remains at work with a sacred contract in his pocket with the boss, or the unorganized workman that is yet ignorant of the aims and objects or organized labor! of the right to discuss the evil which afflicts them, then we will This may be answered easier after taking into consideration that the masters are organized into Industrial organizations slave class, as we know that history will repeat itself and when under such departments as "Merchants' and Manufacturers' men cannot fight their common enemy in the open, they will Association." tors' Association" and a few others all handed together to class. The fact Hitchcock or any other cock. We will battle along and we will parts of the country in an organized campaign of ours. I am going to join the I. W. INSANITY.

The city council of Wheeling, W. Va., has just passed an ordinance which imposes a fine upon any person who, in a public address, should use vile or vulgar language. The councilman who introduced the ordinance, says the purpose of the ordinance is to "curb the vocabulary of "Billy" Sunday, the evangalist, who has been engaged to carry on revival services in Wheeling."

"Billy" Sunday has just cleaned the souls (whatever that is) as well as the pockets of the mental imbeciles of Newcastle, Newcastle, Pa., which reads as follows:-

"If the Sunday meetings had cost Newcastle \$2,286,000 the

useful services of these converts would pay 6 per cent dividends on the investment."

This means and is explained very nicely in the News that these supposed outcasts are now useful members in society, will be soher and submissive, and will form a part of the present system of exploitation, even though they will be found on the slave end of the game.

Prof. David Starr Jordan of Stanford University says:

Religious revivalism is a social bane; it is more dangerous to the life of society than drunkenness. As a sot a man falls below the brute; as a revivalist, he sinks lower than the sot."

The late Professor James, the leading American psychologist of Harvard University, speaks of the religious humbug as follows

"Hell-fire, brimstone and forked tail devil philosophy fills the unthinking human mind with terror, inspiring sickening fear, and leads to a form of insanity, religious dementia."

It is a known thing that wherever "Billy" Sunday or any of his yelping ilk has "cleansed the souls" and pockets of the slaves, that it is impossible to organize them. This thing of "carrying your troubles to Jesus," "laying them at the cross," etc., strips a man of every vestige of manhood and leaves him as spineless as a fishworm and as cowardly as any mongrel cur that ever sought shelter with its tail between its legs, from the snapping of a rat terrier. This "religious dementia" which s a recognized evil by every professor of psychology in America, as dragging a man a step lower than drunkenness, has got to be combatted and the sooner we take it up from a scientific standpoint and fight it, the better it will be for our class. This curse of "religious insanity" leaves the dupe the PREACHES AGAINST THE SPLITTING easy pickings" for the boss and stamps the sign of humility and contentedness on the face which speaks plainer than words that the dupe will "take his troubles to Jesus."

CREAT DOPE.

In a letter as long as your arm the state secretary of the Sorialist party in California has written to all HIS locals "warn. ing" them against having anything to do with engaging Wm. D. Haywood or Wm. Thurston Brown, "because of their pronounced opposition to political action," etc. We hope that all the politicians will hurry up and fight each other so like the Killkenny cats that were thrown over a clothes line, there will be nothing left but a small bunch of hair. It may be possible then to teach the workers that they are robbed in the workshop and that the place to organize and fight is where they are robbed. A fight between a lot of middle class politicians and a few muddleheaded workers is a glorious fight and one that | will and can only redound to the best interests of the slaves. Keep on fighting.

A PEW PAKIRS.

In a debate a few days ago in New York between Joe Ettor of the I. W. W. and a couple of labor skates of the A. F. of L. Ettor was contradicted by these precious labor leaders when he said that some of the national officers of the A. F. of L. were members of the militia of Christ. The militia of Christ was or ganized for the purpose of combatting the revolutionary movement in America. It is composed of priests and labor leaders and a few of that mysterious thing known as the "public" which closely defined are not workers or shirkers, not producrs or capitalists. The following bunch of upholders of the present system with all the misery that goes with it, are the officers of the militia of Christ. See how many A. F. of L. officers you can pick out. We know a few of them: President, trust. The merchants o fthis city are wonder-Peter McArdle of Pittsburg, the vice-president is John S. Whalen: Peter E. Collins of Springfield. Ohio, second vicepresident; the recording secretary is Thomas J. Duffy of East Liverpool, and the board of directors are: John Mitchell, James O'Connell, Denis A. Hayes, John R. Alphine, David A. Carey, Rhodey Khenahan, M. J. Hallinan, James Creamer, John Moffit, T. V. O'Conner, John Golden and Frank Duffy.

The secretary of this aggregation is one Father Peter E. Dietz, and who is also a sort of a "field commander." A. F. of L. is the organization that is going to TURN out to be a revolutionary Industrial Union (like hell). What officers Federation. Gee! But she's traveling fast.

FREEDOM OF SPEECH GONE?

If the order issued by Hitchcock, postmaster general, goe into effect there will be no paper allowed on American soil that voices the protests of the great army of slaves against the present iniquitous and cursed system of exploitation, degradation and damnation. Whenever the workers are deprived not be responsible for any action taken by any member of the "United Metal Association," "National Erre- resort to other means to carry on the war against the capitalist carry the news to every slave in the land regardless of the orders of Hitchcock or any person clse. How well the tools in a federal prison or pay a fine of \$1,000, or of the master class would like to throttle free speech so that both.- "Spokesman-Review." avowed purpose of destroying Industrial Unionism) may have they could go ahead with their dastardly work of kidnaping a soothing effect on the craft unionist that can answer the and slaughter. Don't do it Hitchcock and tell the rest of your cowardly clique that the revolutionary movement has progressed too far to now throttle it with an order from your office. If it is "indecent" to expose the cowards who trample all legal rights into the ground so that they can carry out their murderous designs then we are proud to be classed with the "indecent." We still remember the words "undesirable citizen" as coming from the mouth of another despot at a time when men were waiting to go on trial for their lives. Let one man stop Freedom of Speech and hell breaks forth.

The I. W. W. may be a crude organization; I am glad it is Pa. To prove what a strong ally "Billy" is to the capitalist not respectable. It may inspire fear in the mind of the capitalsystem, we will copy from a capitalist paper (The News) of ists, it may make missteps, but where are the countless thousands of growing youths going to find life but through the proposition as laid down by the I. SPIFIT. William D. Haywood, former secretary of he Western Federation of Miners, in his leclarge audience, sought to convince his hearers that the present system of trades unionism is undesirable as against the plan of having cause. one great industrial organization, where craft

lines are wiped out and all classes of labor stand together for the general good. He declared that trades unions were standing in the way of industrial freedom, first by the high fees charged for permission to work in that line, and, second, by the restrictions placed on the apprentice system, by which new ones are prevented from learning the different trades. He spoke of the high charges made for initiations or admissions to some of the trades unions, running from \$50 up to as high s \$500, because there were enough men in that trade and no more were needed.

"The trades unions do not want to organize the working classes," he said. "They raise the initiation fee until it proves an impassable the organization of labor in Italy and declarbarrier. Or they are turned down at the examination. Men who would enter into such a combination against their own sons are unnatural parents. The jails and the peniten-tiaries of this country are filled with boys who have not been allowed to learn a trade, and the army and navy are filted with boys who have been denied that opportunity. The trades unions want closed shops-closed against the working classes. The way to get closed shops it to open the doors of the trades unions and give all a chance to join. Men even enter into agreements with capitalists to form a 'iob' ing what is going to be the joke on April 1 next, when the agreement which was entered into between the mining companies and the Butte Miners' union, expires (which violated he constitution of the Western Federation of Miners). Record of Federation

The lecturer declared that nothing had been done for the working classes by the American Federation of Labor. He said it was a federation that sought to amalgamate the interests of the men who were robbed with the interests of the men who did the robbing. The organization, He said, had never won a strike. It was divided into 117 different trade branches, with 27,000 different unions with agreements expiring at 27,000 different minutes in the year. It had 2,000,000 members; each paid at least ture at the Family theater last night before \$2 a month. Against Military Spirit.

Mr. Haywood spoke against the military spirit, declaring that a militiaman or a deputy sheriff was justias much a murderer as any other man behint a gun.

"The trades unionist," he said, "is behind the men behind the gun."

He said there was no occasion for a union man to go to the sixth floor. When capital wanted to talk to labor the proper place was on the floor of the union hall. He referred to ed it was away better than anything in this country, because it was one universal affair. He gave an instance of how organized labor saved the life of a man in France, condemned to death, for being active in the general strike "If you want to improve conditions in the mines," he added "you must do so in the union hall, not by sending men to Helena."

The speaker said he had given it out that

when the Westenn Federation of Miners went into the American Federation of Labor he would wear crept, and he did. He talked for the consolidation of the Western Federation of Miners and the United Mine workers. Every miner, he said, knew that if the coal mines were properly ventilated there would be no accumulation of koal gas and no explosions It was due to the greed of the corporations. Most of the lives lost in other mines came through falling rock. "Give us timber and we will take care of that," he said. "Men are

READY FOR WAR. Laton, Cal., June 23.

Editor: I have ben working for the railroad company. I worked one week and we were all laid off last Saturday and were told to come to Hardwick and get out money. We came and waited all day and then were to come back Friday, which is today. Well I am camped on the ground and have been all week. Now it is inearly night and no money I am going thto Hardford tomorrow and yet. see if there is a way for me to collect my money. As soon as I collect my money I am going to send you a dollar for ostal authorities that the "firebrand" A worker gave me a copy a few days since. I have been bucking about the way a working soon as I can get the money. I am ready for war.

Messrs I., Frankfeldt & Sons. Norwalk, Conn.

Gentlemen:-Yours of the 24th inst, at hand and contents of the same carefully noted.

In reply will state that this organization does not make any terms with employers in organizing work. We are not organizing the workers to furnish a market for labels and do not organize any workers unless they are in accord with the principles and program of our organization and desire to be organized of their own free will without any arrangement made with their employer.

We are organizing for the sole purpose of fighting for better conditions for the workers and not with any idea of boosting the trade

of any employer.

James J. Stark, organizer for the Industrial Workers of the World, apparently believes in the militant methods of the English suffrato take him in hand last night after he tried to impress one of his hearers with the force of his arguments by hammering them in with his fist.

Stark was orating at the corner of Tower avenue and Fifth street when the fracas occurred. He had told his auditors of the wrongs inflicted upon the "wage slaves" by the "master class" with more or less effect. The only remedy was the world wide union of all the vorkers, he contended.

"Over in Duluth," said he. "the carpenters are on the strike. Down in Minneapolis they are on the strike. And what are the bricklayers doing to help them. Anything? No! They are working directly against the interests

You're a liar." "I am, eh?" shouted Stark leaping from the chair from which he was addressing the crowd. He made direct for the speaker and placed his

WOULD BUY BATH TUB FOR SLAVES BUT NO PIANO FOR BOSS—PAY 25c TO KEEP STRONG.

Fellow Worker: I have been working a Coquitlam, where the B. C. Electric Co. is constructing a dam. There are two gangs working, Cameron's gang and McQueens' gang. The latter gang is working on the dam. I arrived there about six weeks ago and started work as faller at 25 cents a day (10 hours). We had to cut the timber low down; this was Cameron's gang. I worked on McQueen's gang. McQueen was donkey foreman for about two weeks. To hold a job on that gang long, a slave, has to be a sucker, a member of the family, or a friend of the family. One day shortly before my departure from there. Me-Queen with three or four other slave drivers, asked me for two dollars. I naturally asked 'what for" and he said it was to buy the walking boss of the job a piano. I told them that if it was a bath house I might put in a dollar, but nothing doing in the way of buying the bos I got fired soon after.

At the dam camp (McQueen's camp) the company have a gymnasium for the slaves to develop a strong back and last fall the company cut the wages twenty-five cents a day for the privilege of using the gymnasium. Of the other employes rushed down the stairs course it does not matter whether you make only to find him picking himself unharmed ou use of it or not, for the company have not of the rubbish.

WHAT WE BELIEVE.

The working class and the employing class have nothing in common. There can be no peace so long as hunger and want are found among the millions of working people and the few, who make up the employing class, have all the good things of life.

Between these two classes a struggle must go on until the workers of the world organize as a class, take possession of the earth and the machinery of production, and abolish the wage

We find that the centering of the management of industries into fewer and fewer hands makes the trades unions unable to cope with the ever-growing power of the employing class. The trade unions foster a state of affairs which allows one set of workers to be pitted against another set of workers in the same industry, thereby helping defeat one another in wage wars. Moreover, the trade unions aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers.

These conditions can be changed and the interest of the working class upheld only by an organization formed in such a way that all its members in any one industry, or in all industries if necessary, cease work whenever a strike or lockout is on in any department thereof, thus making an injury to one an injury to all.

Instead of the conservative motto, "A fair day's wages for a fair day's work," we must inscribe on our banner the revolutionary watchword, "Abolition of the wage system."

It is the historic mission of the working class to do away with capitalism. The army of production must be organized, not only for the every-day struggle with capitalists, but also to carry on production when capitalism shall have been overthrown. By organizing industrially we are forming the structure of the new society within the shell of the old.

Knowing, therefore, that such an organization is absolutely necessary for our emancipation we unite under the following constitution.

W. W. and we are doing a lot of propaganda work among the Frenchmen. The Italians here had a branch of the Socialist party, but lately they withdrew from it and started a union on the lines of the I. W. W. with the I. W. W. preamble. As soon as they get enough members they will send for a char ter to I. W. W. headquarters.

I would suggest that we make a closer ac quaintance with the revolutionary organizacome to this country they will not be led asray but will come to the I. W. W. where they helong. DENVER I. W. W. VERY BUSY.

Local No. 26 reports taking in five new members last week and one charter member with only one stamp on book paid for 22 stamps. The interest taken in our meetings is keener than ever. We have no open headquarters, but we hold street meetings every night. On Monday, Thursday and Saturday we hold forth at Eighteenth and Larimer and the other nights of the week at Seventeenth the year around, with sunshine nearly every and Champa. We are at present breaking in two new speakers and they are going to be to have such expensive buildings or accomfine. The literature sales are good but we need new namphlets, however.

The Socialist , party and anti-Injunction league gave a picnic Sunday, June 25th(and a large crowd was in attendance. We were verbally enjoined from selling literature or disand \$9.00 worth anyhow and distributed 1,000 bers in all parts of the country and Political Action.

PLAN FERRER SCHOOL AT SAN DIEGO

SAN DIEGO, Cal., June 26.-A movement

It was planned to erect a large building at Encanto, a suburb of this city, where an acre of ground can be purchased very cheap. This could be diverted into class rooms by means of folding doors. The ground floor could be occupied with the

Auditorium, Class rooms and kitchen. The second floor could be divided into rooms for the students who would wish to live there. Such a building could be erected at a cost

of \$2,000 or less and an acre of land would cost \$800, according to the estimates.

Ideal Location. San Diego is an ideal location for such an

enterprise as there is a warm dry climate all day and therefore it would not be necessary modations as in cold climates, and the cost of living is not so high.

University of Revolution.

Such a school, if started, would be a University of Revolution, where the modern sciences could be taught and radical thought tributing leaflets, but we sold between \$8.00 disseminated. It would be supported by mem-"Appeal to Wage Workers." All the or adult students would be taught free of "Workers" sold like hot cakes and we charge. The best teachers in the revolutionsecured one sub. Emma Goldman debates to- ary movement could be secured and a real night with Dr. Wood (S. P.) on Direct vs. modern school inaugurated. CURSE

IS NOT A GENERAL STRIKE-CON-TRACTS STAND IN WAY—CRAFT STRIKES A FARCE.

In Vancouver is a strike of craft unions which it is a mistake to dignify with the name of a general strike. About 500 skilled workare involved, but business has not been as effectively tied up as was at first deemed it surely would be. The old question of trade agreements prevent other lines of labor which could advance their forces to the assistance of their fellows from making any move in the matter. Complications with the international union are feared were such a stand taken, and that's all.

In other words the workers are tied down hand and foot by such contracts which simply are drawn up to the advantage of the employer. All the contracts in the world do not prevent the employers of labor from closing or reducing their forces when trade conditions require it; and when it is to their benefit so to do. The idea that a man must stay at work on account of a contract should, to be mutually binding, compel the employer to give him work when he stands in need there-The idea would be laughed at, and yet here are men who fear to violate an agreement that works only one way and that way, of course, in the favor of the boss.

Politicians and their satilites may shout all they have a mind to, there is only one salvation for the workers and that is industralism which is founded upon the principles that an injury to one is an injury to all.

The very absurdity of this craft unionism, tied hand and foot by sacred contracts makes comic opera look like thirty cents for farcicality. Divided into a hundred and one sections so that each can be taken at a time, and that time is always well chosen, so that they can be anihilated the more easily; that is the old, old story. And to add to the complication of the farce plot we have those absurd jurisdictional squabbles wherein the most trivial circumstance is chosen as a subject for quarrels between the workers, as if there was any other than the one quarrel, the war between the classes. It will go on to the end of the chapter until the workers themselves weary of the comedy, and find that what they had not taken seriously where it was serious, ends all the time all too tragically for them to be made light of

The strikers may win in Vancouver. It is rather a doubtful matter now that so many who apparently are in sympathy with them failed to walk out. This sympathy racket, however, is well nigh played out, and like fine words "hutters no parsnips." If we have to borrow the pregnant phrase of the I. W. W., direct action counts, and direct action only.-Nome "Industrial Worker."

MASTERS NO FOOLS

DON'T WISH TO SCATTER EFFORTS-THE HUNGRY MOB MUST BE FED. FOOLISH COMPETITION MUST BE ELIMINATED.

The above extract, taken from a speech delivered by a member of the Aberdeen Chamber of Commerce, should interest all workers. It shows that the capitalists are organizing Industrially all along the line to do WITH SENSELESS AND FOOLISH COM-PETITION. This part of his speech shows that the master class is extending its organization and they are not dividing their forces with useless crafts or separate contracts with anyone. This fellow is answering the ques-tion, "HOW CAN WE HELP EACH OTHthe country today. This question of doing the real question of the day with all intelli-gent workingmen and women. There is nothing left for us to do but to eliminate competition The boss does not want us to organize, but wuld have us competing against each other in the labor market, scabbing on each other, cutting each other's throat and carrying on an ignorant warfare, so that our factional fighting may redound to his best interest. Those workers who do not believe in labor organ ization, should study well the statement made by Mack at this meeting of parasites and his reference to the hungry mob. The necessity of ONE BIG UNION of the workers is made as plain as the nose on a man's face. "He who runs may read." There is no use in us that cannot see the necessity of it ere this, must be either too ignorant to ever understand it or must be a traitor to his class. Those who are in favor and see the necessity NOW for this great ONE CLASS UNION should get in and help to build the organization to a stage where it cannot be broken by the insidious schemes of the boss or his hired

NECESSITY ONE UNION

IN THE INDUSTRIAL UNION-MUST HAVE ONE UNION.

There was a time when the craft union was powerful weapon in the hands of the artisan. That was during the age of hand production

Had living under proper conditions. all these crafts been amalgamated into one building industrial union with no craft division, there would be no disagreement. The one building union would either decide to walk out or stay at work. One union can agree on what to do, while a score can never all agree on one plan of action. Hence, the necessity of industrial organization. All the workers in any industry should be in one union. All these industrial unions should be incorporated into great industrial departments comprising different industries closely allied. All these departments should be amalgamated into a trust When that point is reached and we are able to act locally, nationally or internationally, in yourself to take notice, you will observe that

navy, etc. Suppose the transportation workers refused to haul the assassins to the scene of carnage, the food department refused them anything to eat and another department denied them shelter; how far would the army get? Suppose the same was done with the navy: it would become as harmless as the humming of a dispeptic mosquito. Our power is at the source of production and distribution. Organize there industrially and the world is JOS. S. BISCAY.

There are hundreds upon thousands of wage-workers who realize that it is necessary for them to do something. They also realize that they will never accomplish anything, either for selves or for others, by standing around listening to some Jesus screamer or white-washed political fakir, but that they must take and lay hold of the plan of action laid down by the exponent of Industrial Unionism. To make an answer short and sweet they have quit trying to make a silk shirt out of a suit

Conclusion.

It is needless to state that Jack is now a member of the only working class organization of the world today.
