AGITATE EDUCATE—ORGANIZE—FIGHT FOR THE EIGHT HOUR DAY

SENTIMENT IS GROWING

THE OUTLOOK IN CALIFORNIA—THE FUTURE IS BRIGHT FOR THE... (By Gen. Spreck).

The publication of a new book in California, which indicates the growing influence of the Labor movement, is "The Future is Bright for the Eight Hour Day," by Gen. Spreck. This book is the result of the labor movement's efforts to organize the state of California and to make it a leader in the fight for better conditions for workers. The book is divided into two parts: the first part deals with the history of the labor movement in California, and the second part further outlines the strategies and plans to organize the state.

The book begins with an introduction to the labor movement in California, emphasizing the need for change and progress. The author, General Spreck, explains the importance of the labor movement in the state and how it has been able to achieve some successes. He also discusses the challenges that the movement faces and how it can continue to grow.

In the second part of the book, the author outlines a series of strategies and plans to organize the state. He emphasizes the need for unity and cooperation among the workers, and he advocates for the formation of a state-wide organization that can work towards common goals.

The book is a valuable resource for those interested in the labor movement in California, providing a comprehensive overview of the history and strategies of the movement. It is a call to action for workers to continue their efforts to organize and to create a brighter future for all Californians.
FREE SPEECH FIGHT IS NOW ON

ON TELEROT.

Chicago, July 12, 1912.

Industrial Worker, Box 219, Spokane, Washington.

We fight free speech in every state. We fight strong as in British Columbia. We shall be strong as in British Columbia.

VINCENT ST. JOHN.

PARADING IS DANGEROUS

The parade idea is dangerous to the freemasonry of our organization. It is a form of money making that is not good for America. It is a form of money making that is not good for America.

ORGANIZATION IS THE THING

Spokane worker asks some questions of a Fable of Fox and Goose.

"What is the fable of Fox and Goose?" asked a worker.

"It is a story of animal banditry," replied the worker.

"But what is the lesson of the fable?" asked the worker.

"The lesson is that he who is strong is safe in the wilderness. He who is strong is safe in the wilderness.

The worker was then asked if he could point out any faults in the story.

"Yes," he replied, "I believe the fable is a bit too harsh on the goose. But it is a good story, and it teaches us an important lesson."
PATRIOTISM IS DEATH

MURDER AND FIREWORKS GO HAND IN HAND—THE ROGUE LIKE PAUL REYNOLDS

SHREVE, Ark., June 26—Assassins of the Ku Klux Klan murdered a Negro last night in Shreve, killing a lawyer and former Postmaster它是 in the employ of the Shreve Post. The affair is the latest snare of the Ku Klux Klan. The murder follows a series of other killings which have been carried out by the Klan in the county and vicinity.

Among those slain in the Shreve murder was George Washington Bostick, a lawyer and former Postmaster of Shreve. He was shot and killed while in the employ of the Shreve Post. The affair is the latest snare of the Ku Klux Klan. The murder follows a series of other killings which have been carried out by the Klan in the county and vicinity.

MURDER AND FIREWORKS GO HAND IN HAND—THE ROGUE LIKE PAUL REYNOLDS

The Klan is a secret society that was formed in the United States in the late 1860s to oppose Reconstruction and to maintain white supremacy. The organization was responsible for a series of murders, lynchings, and other acts of violence against African Americans and their supporters.

The Ku Klux Klan was formed in 1865 in Pulaski, Tennessee, by a group of veterans of the Confederate Army. The group initially included both black and white members, but by the late 1860s, it had become predominantly white and was dedicated to destroying the newly freed black people.

The Klan's activities included terrorizing blacks, burning crosses, and engaging in other forms of violence. The group's tactics included assassinations, bombings, and other acts of violence. The Klan's power peaked in the 1870s and 1880s, but it continued to operate in various parts of the United States until the early 20th century.

The murder of George Washington Bostick is likely to spark further violence and repression against African Americans and their supporters in the region. It is a sad reminder of the ongoing struggle for justice and equality in the United States.

Wages too High Says Boss

COMPETE, YOU SLAVES, SAYS CAPITALISM, WITH COW, HIDE, AND LUMBER.

The result of the operation of the arbitrary wage scale is that wages and prices are in conflict. The wage scale prevents the working of the economic law of supply and demand. Formerly, a property owner would set his wages and prices according to the market demand and supply. Now, he can set his wages and prices as he pleases. This is an arbitrary scale.

The chicanery of the wage scale is set up as the arbiter of wages and prices. It is the one factor that holds the worker in subservience. It is the one factor that holds the worker in subservience. It is the one factor that holds the worker in subservience.

"We are being hoodwinked by the "wage scale,"" cries Mr. Wood, "the wage scale is the arbiter of wages and prices."

"On the strength of this wage scale," continues Mr. Wood, "we are being hoodwinked."

We must demand that the wage scale be abolished and that wages and prices be determined by the market demand and supply.

FOR HUMANS IN BLOOD

A THREATENED IN GHENT

ADAM CAN PARLIAMENT

Today I witnessed the annual review by the troops stationed in Belgium. It was a magnificent display of military dexterity. The troops were drawn up in two lines along a broad street, and the audience was a large and enthusiastic one of public and private citizens. After the review, the troops marched in a procession to the central barracks, where they were entertained with a banquet.

I arrived on the scene at 7 a.m. and as the troops filed into the review area, I was struck by the precision of their movements. They moved in perfect unison, their every step and gesture perfectly timed. It was a sight to behold, and I was impressed by the discipline and dedication of these soldiers.

For several weeks, I had been following the political situation in Belgium. It was clear that the government was facing a serious threat, and I was determined to document the events as they unfolded. Today, I was able to witness the annual review, and I was struck by the professionalism and dedication of these soldiers.
