AGITATE-EDUCATE-ORGANIZE-FIGHT FOR THE EIGHT HOUR DAY

ORGANIZE IN THE I. W. W.

CONSTRUCTION WORKERS W. C. R. E. ORGANIZE IN THE I. W. W.-BIG!

On the Canadian Northern R. R. in British Columbia an eight hour day was obtained two and one-half years ago, when the construction workers there went on strike. Since that time the eight hour day has been extended to the entire continent, beginning with the Southern Pacific in the southern United States. There is now no location where the construction workers are not fighting for an eight hour day, in those places where they are not yet obtaining it, the workers are fighting for a ten hour day.

Some few stations have tried their best at the offices of the local owners. In the case of the construction workers the manager of the station was shown the door, and in the case of the express house men the boss was thrown out.

While waiting for the work to open up the workers are doing as much as possible in the meantime, gaining as so to get better conditions when work comes in. As a result more and more men are joining the I. W. W. in Vancouver. I was sent up today to see if I could help out in any way.

From the very start the organization worked on a sound basis. Each man went to his own class. From there we went to Spencer Bridge, Babbitt and Pine Hill in Kamloops. Personally I sent out a signed application campaign. I went from door to door and engaged over 50 men and women in three days.

Local headquarters have been established at Lytton, where the men held the organization work and business with admirable results.

By the time the other half of the district in Trego is reached it is expected we shall have about 100 members in that area as well. As soon as work opens up we will have our organization in first shape in the entire district.

The contractors who applied early were not in the same position as the late arrivals, for they did not have time to organize and prepare their men to work as a unit. Even though some of them had a large number of men under their pay roll, they were too busy to organize.

One man who has been very successful with his men is Mr. Smith, who has organized a number of men under his pay roll.

The organizing work is going on in full swing, and the future will show a large number of local organizations established throughout the district.

In conclusion, it can be said that the I. W. W. is making rapid strides in the construction field, and will continue to make rapid progress until the eight hour day is obtained throughout the entire district.

L. C. King, Organizer.

Independent Worker, July 25, 1893.

The I. W. W. has made great strides in the construction field, and will continue to make rapid progress until the eight hour day is obtained throughout the entire district.

**ADVERTISERS' NOTICE:**

Advertisements must be received by the 20th of each month, for publication the following month. No insertions accepted after the 21st of the month. Surcharges will be charged for late insertions.

**SUBSCRIPTION RATES:**

1 Copy per month, $1.00; 2 to 5 copies, $2.00; 6 to 10 copies, $2.50; 11 or more copies, $2.00 each. Sent free of charge to all labor unions, trade unions, local councils of the labor movement, and to all clubs where free literature is sent.

**TRANSLATED NEWS AN EVERY DAY ARGUMENT**

AFRAID BOSS WOULD STOP WORK IF UNION ASKED SAVINGS Plan the workers MUST HIRE WORKERS TO MAKE MONEY

I was asking for a $5, eight hours, and reasonable conditions which a worker drives eight miles for $2.50 a week at the 7.5 C. W. L. W. and increases their wages and hours of work.

"Well, your idea is fine, but if you get a union, your boss will simply increase your wages.

This is a mistake, however, in which the boss is being engaged in the attorney's office at the worker's expense. The boss has a valuable property in the workers and does not want to lose it. He says he is going to increase his wages, but the worker is not going to accept it.

Suppose you are young, strong and active and are going to take the same work as the man you are working for, and want to get something for yourself?

I am going to show you how to do it. I will write you a letter and you can see how to do it. I will write you a letter and you can see how to do it.

**HOW TO GET THE DOUGH**

PARIS, Aug. 11.—The banquet at the Bandeau on the occasion of the 20th anniversary of the International, which was attended by representatives of 150 nations, was held last night. The banquet was attended by representatives of 150 nations. The French government and the International were represented by the Minister of Labor, M. Enfantier, and the Secretary General, Mr. E. Lipperts.

THAT SACRED AGREEMENT

STILL STRIKE IN MARCH—WAGES STOOD STILL WHILE RECEIVING THOSE AT CONTINUED
March, 1973—The national strike of the American Telephone & Telegraph Company continues.
The company has announced that it will continue to strike for higher wages and other
forms of protection. The strike began in March and has continued until now.

During that period, the company has stated that many of its workers have been
forced to work for less than minimum wage rates. The company has also
claimed that the increased cost of living has caused it to reduce wages.

The strike has reached a critical point as the company faces the threat of losing
many of its workers.

THE MINERS AND THE INDIAN

WHO WILL SAVE THE LIFE?

Lamont A. A. and the Indian people are facing a critical time in their history. They are in
danger of being retained to meet the demands of the white miners. As a result, many of the
miners have found it necessary to join the strike in order to save their lives.

We have asked thousand of them and they have all agreed. They have decided to join
the union in order to save their lives. They have been joined by many miners from other
areas as well. We are united and we will continue to fight until the end.

THE ONE THOUSAND

ONE WANTS AN "EXPRESSION" OF THE FOLLOWING UNION VOTE: NATIONAL VOTERS UNION

To the Daily and Weekly People—It has come to my attention that the United Mine Workers
of America is going to hold a vote on whether to strike again.

The union leadership is currently divided on the issue, with some members favoring
continuing the strike and others advocating for a settlement.

I am writing to express my concern about this situation. The union has a
duty to protect the rights of its members. However, if the union continues
the strike, it will only hurt the miners and their families.

I urge all members of the United Mine Workers of America to vote against
the strike and to support the union leadership in finding a peaceful
solution to the current crisis.

I. W. W. WINS VICTORY IN FRISCO

By David T. Murphy. I. W. W. Industrial Workers of the World conquered the
champion of the class in the recent election. The union has
been victorious and the miners are now ready to
accept the terms of settlement.

I. W. W. at the election was able to carry the city of Frisco
and it is expected that the miners will continue
their success in other parts of the country.

The victory was a result of hard work and dedication by
the I. W. W. members. They have made many sacrifices
and their efforts have paid off.

The miners are now ready to
accept the terms of settlement and continue their work.
