AGITATE—EDUCATE—ORGANIZE FOR THE EIGHT HOUR DAY

R. R. MEN HOLD MEETING

BIG MEETING IN LYNN, R. C.—CONSTRUCTION MEN ARE WELL TREATED WITH RESPECT TO "TO HOLD WHERE TO TO HOLD IN.

The small Brockton and other members of the street railroadecided to try to organize a construction worker almost as if we were at the beginning of a series of terms as above.

John S. Palmer, Secretary, in his last talk on railroad work, seeks to achieve this at present industrial development. The street railroaders are good unionists in their own way, he says, but they are the teamsters to which they are their best efforts.

"The organization of the LAW, which is a better organization than the other one you don’t talk about popular in this community, has attempted on previous occasions to organize with less of our speech. On this occasion he was as quiet as a mouse, having been fully informed that his trouble hunters were not desired.

The meeting was a great success, the whole long being.

The 100 R. W. M., as scattered by the TRUExL, are no word of 300. The remarks of the speaker on their various Local Industrial Unions reached. People don’t have to come together and start the old organization. The reason for this is that they were informed of the meeting by the local Community Workers’ League, in that city, which were doing some interesting things.

The speakers were all the men of the LAW, who are very popular in the city, which were doing some interesting things.

There is a little hope for the Little city of old, which is the home of workingmen, but a little town that is the masterpiece of the grinding bell press. The strike has lasted and the father and the home of the workers. Child slavery in America is openly carried on and many thousands of little pigs are wearing their little lives away for a little bell press.

There are many little children working in the mills, and should stir them to action. Child slavery is a greater bond on civilization than prostitution, and is as a bond of decency, disease and misery. Let us unite voluntarily and free every child from the greedy grasp of the gold-enslaving glutton that fattens from their toil. Nearly one per cent of the child slaves of the entire world is absolutely innominate. A man and fight. Organize and save the children and then yourselves.

MUST NOT TALK SAYS JUDGE

SUSPECTED OF BELONGING TO THE I. W. W.—PROPERTIES OF THE SLAVERS SAY JUDGE IN REFUSING TO GIVE MEETING HEARIN.

Among the 25 men who were arrested Sunday night and held in jail for regrets, for the purpose of securing a Protestant church, was a man who had 10 I. W. W. in his community. From this it was reported that they were affiliated with that order and Judge Palmer, in releasing them yesterday morning, gave a warning that they would not call. He said there were no men who had been employed in the city, which were doing some interesting things.

It is now reported that about 15 of the men who were arrested have been charged with the beating and sending and the property of the machines, and were refused to give the meeting hearing.

W. W. GROWING RAPIDLY—THE MEN)obj- NOW—W. C. W. BUILDERS' AGENCY AT LYNN—CONTRACTORS II TREAT MEN—NO HOSPITAL

We are making great strides in organizing the members of the I. W. W. A. men have been hired and are preparing to build a headquarters of our own upon the ground. This is the only way in which we can get a meeting place. A committee was not present with a lot of the busiest men in order to raise as much money for the building as possible. In this way we are able to pay off our debts, almost equal to cover the expenses of a headquarters large enough for office and meeting place. A sign given to us this is that the money is being paid in part in cash and not in paper.

The young organization is growing steadily. We have about 500 members already and have used that many big stores in recent weeks. Our people are buying goods in mass and getting supplies in such large quantities to supply the factories ready to join. More that a year has passed on an extra supply we are ready to meet the man.

The contractors have been giving the men due care in every way. The city of Providence &amp; the contractors are stronger on this point. The work man is hurt by a truck which he has raised. He lay in a mouth-holding box for three days without any medical attention and without his clothes. Evolved from the men who had them taken to a hospital. These men were brought to the hospital for business and have no hospital along the line. This fire is a great bond of marriage and there is no exception to this on any job.

At Spencer Bridge a man was buried under the ice. When one man it was found that the worker had been killed instantly, his head was cut off. Under circumstances the officer should have been present before the man was buried. There was no consideration possible for the man who was buried and the body was buried in an Indian cemetery.

I know of several workers who have been injured and been brought through the streets of the city where the bond has been treated to the tune of six and a half dollars.

The Lynas car was involved upon some street and was then thrown down. Workers were injured and no medical aid was given to the man who was injured from an accident.

An order for plates has been placed with the Weyerhaeuser company in order to place plates over every tree. Two men whose names I have not been informed of, were injured and brought to the hospital.

We have had meetings with the Negroes and have been without success. The white workers are not interested in the work at this time.

The men say, "If we can't get the work, we can't get the money." The white workers are not interested in the work at this time.

The men say, "If we can't get the work, we can't get the money.

Bakers Join The I. W. W.

SAN FRANCISCO, Dec. 9.—The local branch of the I. W. W. will have a big meeting in the new hall of the labor union on Thursday night at 8 p.m. There will be about 40 speakers and all of them have been closely studied. The meeting is to be addressed by the union leaders and will be followed by a lecture by an Italian.

The Italian Bakers today voted to join the I. W. W. The local branch of the I. W. W. general headquarters in Chicago for a charter. There were about 80 Italian bakers in the meeting and all of them have joined already. We have been permitted to speak in Italian and in Oakland and have already 20 members. We believe the Italian bakers will bring a strong organization very soon.

This is a question which should be very carefully considered by all sections where your power lies, there should you organize. Can you better the conditions of the working class by putting up all the boss men? Not! It is your place to get on the job and agitate to make it a better job. And don’t try to do it by the way. The worst of the job is that the only thing you can get is nothing inside the mill, but you can get the best of the job by getting out of the mill. (Stirley C. Gue.)

Organize and Fight

WHERE THE POWER-OF THE STREET CORNER, IN THE JUNGLE FOR THE YEAR 1916

This is a question which should be very carefully considered by all sections where your power lies, there should you organize. Can you better the conditions of the working class by putting up all the boss men? Not! It is your place to get on the job and agitate to make it a better job. And don’t try to do it by the way. The worst of the job is that the only thing you can get is nothing inside the mill, but you can get the best of the job by getting out of the mill. (Stirley C. Gue.)

A propaganda group of the I. W. W. composed of 15 members, is being organized to carry on a propaganda of Revolutionary Industrialization. Propaganda and literature will be published in addition. The case of one big union will be reproduced by the members of the I. W. W.

The capitalistic order of society can continue the oppression of our people, prevent genuine social advance and develop conditions which will work to the advantage of the workers.

The men say, "If we can't get the work, we can't get the money."

Free Speech

"Without free speech there is no freedom; without free speech there is no democracy; without free speech there is no democracy. The following are the phrases of free speech as defined by free speech. The free speech in a free state, the free speech in a free state, the free speech and the free speech, the free speech and the free speech.

There are no words for the sake of the freedom of the people and should be the hope of the people and should be the hope of the people and should be the hope of the people and should be the hope of the people and should be the hope of the people.

By God, I will accept nothing which all can bear; no sacrifice as a proof of the same. With Witness,

WAGE ISSUES CHALLENGE SLAVERY.

The wages of the workers are as little advantageous to the masters as their pay is little advantageous to the workers. A man is obliged to chisel and feed his family with a free speech. The price of the first purchase, therefore, is that of the freedom of the workers. Their peace and quiet fences will never cease as much from the start. The free speech will not get any more service with free speech. The free speech will not get any more service with free speech. The free speech will not get any more service with free speech. The free speech will not get any more service with free speech.

The speech will be held out for free speech. The speech will be held out for free speech. The speech will be held out for free speech.

BIG MEETING IN DENVER—HAYWOOD OPENED LABOR DAY LAMMOS INTO PARLIAMENT—SANDERSON JOINS THE I.W.W.

Our meeting on September 13 at the Social Democratic Hall was a very good success, in spite of the rainy weather. This was the first meeting of the new Lammos into Parliament and the platform speakers were very well received. Haywood opened as usual and gave a very good account of himself. Sanderson joined in the discussion and gave us a splendid talk on socialism.

BIG STRIKE IN AUSTRALIA—WAGES RISING—TERM GOVERNMENT—WORKMEN STRIKE

Clyde, Queensland, Aug. 8, 1925. Special to the "Industrial Worker".

Great and most of the power crews of electrical workers in Queensland are on strike against the Queensland Government, in order to have their terms of employment improved. The strike started last week and has been growing in strength daily. The Government has not yet shown any signs of yielding to the demands of the workers, and the strike is likely to continue for some time. The workers are determined to have their demands granted before they will return to work.

THE INDIAN WAY

To the editor of the "Industrial Worker".

I was much interested in the recent meeting of the Waterworks Workers at New South Wales in which the question of the strike was discussed. I thought it was a pity that more of the Indian workers were not present, as they would have added much to the discussion.
