It is all very well for men in comfortable arm chairs to write about the world, but those who have nothing but labor in their lives have no business for the dignity of letters.—Prof. Reussenhoven.

**SOME PRINTING**

There has been some printing done in the last 20 years that is deserving of more public attention by all who are interested in the labor movement. That this wonderful combination will increase in the next few years there is no doubt. This is the thought of the day and it will be a new chapter in the history of the labor movement. Masters and slaves cannot understand with infinite patience, however. The year and the last 15 years stand for written. Organize and TAKE your own.

**A NEW POWER**

T. P. O'Conor, the Irish Land League, has just written some very interesting articles on the subject of labor. One of them was on the subject of labor and the Irish revolution. In the article, the author says that the Irish people are the most backward in the world and that they are unable to understand labor and society. The author also says that the Irish people are not interested in the problems of labor and society, and that they are not interested in the problems of the working class.

**DEAD, BROAD**

A mug by the name of Shatlin spoke a few days ago in the House of Commons, and said, "I am now in the constituency of the City of London." And this is the first time in the whole history of the labor movement that a man has ever used the word "labor." He was speaking to a crowd of working men, and they all seemed to be listening. The man then added, "I am also a member of the International Workingmen's Association." And so it was. The man had just spoken, and the crowd had broken up. But the message had been spread.

**WANT CHEAPER LABOR**

We have always contended that the man who goes about the country telling the workers that they have an interest in capital, that their class is good and capital is evil, etc., is a bigger enemy to labor by far than the man that says nothing to them. The skill that comes into being in the supply and demand of labor is a CO-OPITY, and when there is a little of it on the market they should have the benefit of the COMPETITION, the same as in every other country.

**SLUGGERS HOLD DISCAY**

MURDERHELL, PLAQUE AND DISCAY SHACKEL STILL IN JAIL—PROBITY COURT CHARGED WITH CARRYING FIRE—DREADFUL CASE—CHARGES AGAINST ILLINOIS UNION—WAR COMMISSION TO KEEP HIM CONFINED.

"Murdered,arged from his bed, rushed out of his room, and was shot down on the public square by a man who had been discharged from the factory. But the factory constructed works at B. C. has been closed down for three months, and the mayor, after the shooting had been carried on and the factory was closed down, has said that he will not allow the city to have any more of the factory's waste products. The mayor's statement is a clear indication that the factory is not being operated in a moral way and that the city will not allow any more of its waste products to be used in the factory.

"The city is reported by recent investigations that carrying a gun in a store is not a good thing. A man was recently tried in Spokane where such a gun was carried was acquiesced, but was acquitted when it was proved that the man really owed it to his life. It is believed that the city will not allow the factory to have any more of its waste products. The mayor's statement is a clear indication that the factory is not being operated in a moral way and that the city will not allow any more of its waste products to be used in the factory.

**L. W. W. STARTS GOOD MOVE**

**WHAT IS YOUR JOB?**

CAMP DELEGATE.

L. W. W. INVITES THE FORMATION OF THE INTERNATIONAL WORKERS' UNION ALLIANCE—WORKERS' UNION WILL BE SO PROPOSED TO POLITICAL GROUPS.

In the proposition of taking the initiative in organizing an International Association of Workers, the Industrial Workers of the World, of the United States, is the only one who has the power to start the movement. The proposition is based on the idea of forming a federation of trade unions in the United States, and that, in order to be successful, it must have the backing of all the working men in the country. The proposition is designed to bring about the consolidation of all the labor unions in the country, and to form a single body to represent the interests of all the working men in the country.

"This is the time for the working man to stand up and be counted. The working man must be the master of his own work and not the slave of his employer. The working man must have the right to choose his own leader and not be forced to follow the dictates of his employer. The working man must have the right to an education and to a fair share of the wealth of the country. The working man must have the right to organize his own trades and industries and to control the destiny of his own country. The working man must have the right to vote and to have a voice in the government of his country. The working man must have the right to be equal with all other men in the land. This is the time for the working man to stand up and be counted.
