ABERDEEN TRIES WATER CURE

I. W. W. MEMBERS IN JAIL, IN ABERDEEN—FIRE DEPARTMENT WAS Brought INTO ACTION—LAYS OUT “BULLA”

Abbotsford, Wash., Nov. 25.—Great damage is being done to the city tonight. After having received 5 members for street speaking the police officer refused to “follow their head.” Fellow Worker Fisher spoke for over an hour inside of the saloon, and was arrested by Ordinance 129.

The demonstration followed in which members and sympathizers took part. We believe that this city is better off and Fellow Worker Trimm was placed under the arrest warrant. The fire department was sent out to the street, and the fire department operated smoothly with the assistance of the local firemen.

The technique used by the police came early to the general action, and they were very active in the street speaking which was the basis for the ONE BIG UNION. Thousands of people turned out and the police were active in the street speaking, the entertainment, the 200 special weary were seized in the street, and so many were going up to the street speaking the trouble was very great.

The call that was made was “Get off the truck” and the police were ordered off the truck.

The masters try to move on to the next town.

They have been arrested for street speaking and are in jail now.

I. W. W. MEN HAVE OUT-TOO LATE

I. W. W. MEN ARRESTED FOR BEING OUT-TOO LATE—BAD ROOMS AT HOTEL—PROTESTED BY GOV.

ER.

Salem, Ore., Dec. 22, 1913.

We are on our way to a friend of yours, where we had a good time together, the "soul" of the I. W. W. men in Aberdeen.

When we go to the jail we found a man in the jail with his hands and feet tied up, and a young man was standing in front of the jail, talking to the men who were sleeping on the front of the jail.

The I. W. W. men were searched before the jail, and we saw them being driven out of the jail, and then they were driven out of the town.

How many more times do you think the "worker" will live? There is work for every man to do and if you do not work in the right way it will be a slow work. At every member of the I. W. W. men will have been found in America, and there will be the greatest criticism in any part of the country.
Loggers Should Organize

(Frank R. Schelch)

Solly in recent years has seen a number of the loggers in action as the strike becomes longer. The strike has reached a point where it is like a feeling of being driven. The loggers are all in a state of anxiety and want to know what the future holds for them. The strike is still going on, but the loggers are not satisfied with the results.

The strike is not only affecting the loggers, but also the communities where they live. The loggers are not the only ones suffering from the strike. The communities are also affected by the lack of work and the uncertainty of the future.

In summary, the strike is a major issue that affects both the loggers and the communities where they live. The loggers are determined to get a fair deal and are willing to continue the strike as long as necessary.

The strike has also raised questions about the role of the logging industry in the economy. The logging industry is an important part of the economy, and the strike has caused a disruption in the supply chain. The loggers are not the only ones affected by the strike, and the communities are also experiencing the consequences of the strike.

In conclusion, the strike is a complex issue that affects both the loggers and the communities where they live. The loggers are determined to get a fair deal and are willing to continue the strike as long as necessary. The strike has also raised questions about the role of the logging industry in the economy.

The strike has caused a disruption in the supply chain. The loggers are not the only ones affected by the strike, and the communities are also experiencing the consequences of the strike. The strike is a complex issue that requires a solution that is fair for both the loggers and the communities.
