### ABERDEEN TRIES WATER CURE

5 I. W. W. MEMBERS IN JAIL IN ABER-DEEN-FIRE DEPARTMENT WAS BROUGHT INTO ACTION-LQTS OF "BULLS."

Aberdeen, Wash., Nov. 23, 1911. Great doings in this 2x4 city tonight. After having arrested 5 members for street speaking the police refused to "follow their hand."

Fellow Worker Fisher spoke for one hour outside of the sacred precinct prescribed by ordinance No. 1084.

Immense demonstration followed in which members and sympathizers took part. We marched to city hall to hold a meeting outside and Fellow Worker Train was pinched again.

The crowd protested loudly against his arrest and the fire department responded nobly with the hose amid loud jeers of the crowd.

The Fresno tactics used by the police came early in the game, but it will be a fine large boost for the ONE BIG UNION. Thousands of red free speech tags were sold on the streets during the excitement. Over 200 special police were sworn in and it is supposed will try some more Fresno tactics on the

Cut the hose next time.

Let every rebel be prepared to move on to this town.

While they have refused to arrest our mem bers for violating the ordinance it is regarded as only a blind to throw us off the track.

They have got to be licked and it might as

So just keep your ear to the ground and when you hear the noise just be on your way. Yours for free speech.

WILL FIGHT THE I. W. W. WITH CLUBS ALL STOOL PIGEONS AND LUM-BER TRUST AGENTS SWORN IN HALL MEETINGS ARE SUPPRESSED.

ABERDEEN, Wash., Nov. 24.-Five husdred men numbering the most prominent in this city, in all walks of life, stood in Elks' hall this afternoon, raised their right hands and were swonn in by Mayor J. W. Parks as special policemen to "maintain law and order" Aberdeen, and to resist to the utmost a threatened invasion of Industrial Workers of the World, who propose to attempt to force the repeal of an ordinance which prohibits street speaking except within certain specified limits.

Tonight the streets are under patrol, the white badges of the special police being every-where in evidence. Guards are stationed on all roads leading into the city, with orders to arrest every suspicious character and turn back all those who cannot give good accounts of themselves and satisfactory answers as to their presence.

The business men are determined to stop at the very outset the Industrial Workers proposed invasion, and by a resolution passed today they pledge their "services, morally, financially and physically."

All saloons were closed at 6:30 tonight by order of the mayor, and the order was crupulously obeyed.

#### Curiew Law Enforced.

Notices were sent out during the day by the city superintendent of schools, Arthur Wilson, to parents to keep all children under the age of 18 at home tonight, and every child on leaving his schoolroom for the day was given printed notice to that effect.

The special police were given orders when they assembled at police headquarters tonight to break up any assembly where me ngathered in large numbers and to arrest those who resisted, and to arrest every man who attempted to speak on the streets, whether within the prescribed limits or not. All men that are arrested are to be given a diet of bread and

water until they are shipped out of town.

Hoquiam, Montesano, Elma and other towns in Chehalis county will unite with Aberdeen and there will be no place of refuge in this county for Industrial Workers. The Industrials will be shipped out of the county in box car lots when sufficient have been accumulated.

"With the hacking of our citizens," said Mayor Parks today, "we have no doubt that we can maintain law and order. We shall win this fight before it gets started."

Banished from City.

At midnight the men arrested tonight were escorted out of the city and told not to return. These joined about 50 Industrial Workers who campell all evening at Junction City, just outside Aherdeen, not daring to come in until they should have received word from their companions. They never got the word, The Empire heater had been rented by the

Workers for a meeting, but it was decided to prevent the meeting. The theater was placed under guard and those who came in there wearing a red tag were placed under arrest. word went around that the Industrial Workers were assembling in another hall. This, too. was visited, but it was empty. Thorough search of the city was then made.

Red tags began to disappear suddenly an 9 o'clock no more could be found, the Workers having evidently gone into hiding to escape arrest. Tonight's trains have been searched by citizen police and every suspicious character taken to headquarters. The citizen police are armed with wagonspokes and hickory axhandles for use as clubs, weapons which have proven most effective.

Reinforcements From Vancouver. VANCOUVER, B. C., Nov. 24.—At the local headquarters of the I. W. W. it was declared tonight that 368 men are going from here to Aberdeen, Wash., to participate in the free speech fight there.—"Spokesman-Review."

#### BORING FROM WITHIN.

When the W. F. M. officials proposed to the membership of that organization the affiliation with the American Federation of Labor, one of the future hopes held out was that they would be in a position while in the A. F. of L. to work for Industrial Unionism. The first chance that the W. F. M. has had since the affiliation to "bore from within" was at the A. F. of L. convention which has recently adjourned at Atlanta, Ga. An attempt was made by the so-called radicals to oust from the Civic Federation, President Compers and fourteen other International officers who are also members of that "harmony of interests" body. After a day of stormy debate the resolution to tie the can to these fifteen labor misleaders was defeated by a vote of 11,849 to 4,559. John Mitchell scored the convention delegates that separated him from a \$6,000 job with the Civic Federation and claimed that he was ousted by a "packed" convention and that the "packing" was done by the mine owners. Afte. Mitchell has been the most prominent actor in the work of tying the miners up in state contracts which expire at different times and in view of the fact that he was drawing \$6,000 a year from the capitalist for the purpose of fostering agreements between labor and capital, it certainly comes with poor grace now for him to be accusing the capitalists of being behind a scheme to have him ousted from the very thing that all capitalists are clamoring for, which is to have the workers chloroformed with the "identity of interests" dope.

At the rate the "boring from within" is proceeding, there is no doubt but what we will have Industrial despotism where by the master will give us a bite to cat for making national automobile roads for him and parks to enjoy himself in, long before we get Industrial Unionism by the method of "boring from within" in the A. F. of Ix As Biscay says it is "boring" instead of building. Let us go ahead with the real building and see that the building is placed on a solid foundation whereby it will never neve to be torn down and the flimsy structure like the A. F. of L. propped up while a new foundation is in progress. The whole thing is certainly a bore to intelligent

#### THE HARRIMAN STRIKE.

The Harriman strike has settled down to a long drawn battle which may not be decisive one way of another for many months to come. At the opening of hostilities there was some hope that other crafts of railroad workers working for the Harriman system, might come to the rescue of the shopmen and refuse to move trains until the demands of the strikers had been conceded. All these hopes, however, have vanished as there is little hope of such an event at present. The following interview given out to the press by William Hannon, International organizer in the west for the International Association of Machinists, is worthy of reproduction as it clearly sets forth the position of the shopment on strike and the uselessness of craft organization. Hannon says:

"This, I believe, is about the worst strike the country has ever had, and we are not encouraging our union forces in the belief that it will be settled in short order, or without a long, hard fight. That is unnecessary and would likely be foolish. or every man who voted to strike did so after the matter had seen carefully considered and with the knowledge that the struggle would tast for an indefinite period-years perhaps.

'So far the Harriman roads have been inconvenienced by little else than running repairs to their equipment.

'Within another month or so under present conditions engines and equipment will begin breaking down in general. Disabled cars will congest vards and sidetracks all along the Harriman lines and many of the engines that so far seem little the worse for the lack of expert attention will begin to go out of commission. I don't believe the strike will continue long after

"The Interstate Commerce Commission is already investigating the condition of the Harriman equipment, and the roads involved in the strike can not possibly keep their cars and engines in safe running order with the small, inexperienced forces of shopmen now at work."

This admission that the railroads have been inconvenienced but little, after the strike has been on for several weeks, is the get the opportunity of gloming onto this "easy money."

admission that damns the craft union movement and is the best argument possible for Industrial Unionism. Engines will begin breaking down in a month or two, says Hannon. Wonderful! The way to break down an engine is to quit operating it, but as long as an engineer has been taught that he has nothing to do with any other craft in the transportation industry, there is little to expect in the way of victories. The I. W. W. says that craft unionism breeds selfishness. How true it is. The engineer has a schedule (contract) which gives him a certain tific periodicals are filled with information of wage for a certain length of time and he will live up to that contract regardless of who is the goat.

If the Harriman strikers have to depend on engines break ing down in a few months from now, we may say that they are depending on a very flimsy line of action for a victory. Before the Harriman system will give in to a portion of their employees on account of such power as a broken engine in a few months, they will take steps to provide extra new engines to do the work. In the meantime recruits will be gained by the company as TIME WEAKENS EVERY STRIKE. The Interstate Commerce Commission is not the place to look for POWER it is in the ranks of the workers. The POWER is in concerted action in the industries and not in one or two crafts. creased some 38 per cent. This the lumber The strongest ergument ever used against craft unionism or even shop federation on a railroad system is to be found in the words given out by International Organizer Hannon. His statement alone should bring every striker to a full sense of which the people use, has risen. Again, today, his position and prove to him the weakness of craft unions or even two or three crafts banded together. No body of workers can fight a gignt combination of railroad interests and 80 per cent of the employees at the same time and expect to be victorious. If we have gained any experience and have profited by strikes of the past, no strike was ever lost. We may seem impatient as the issue looks so clear cut but it seems a hard matter for thousands of craft unionists to see the point. Craft autonomy has bred craft selfishness. We have sown the wind increased means of wealth production simply and must reap the whirlwind. With a false teaching and a fake doctrine we are split and torn asunder. Our ranks are divided and we are "easy pickings" for the enemy who has closed up his ranks and presents a solid front.

#### ASHAMED, EH?

We are reminded in the daily papers that the Reverend Joseph Lambert who married John Jacob Astor to some little girl in short dresses, has become so ashamed of his deed that he has resigned from the church. It is but a day or two ago that a preacher said he was offered \$20,000 by Astor if he would marry him and that he refused to do so. Wonder if Lambert did not get this amount or more and can well afford to be ashamed. It is our opinion that about 99 per cent of the preachers of America are dead sore because they did not Robnett, former bookkeeper and eleck in the who can railroad a working man to the pen

## Should Organize

(By Frank R. Schleis).

Swiftly, in recent years, has science been reducing the cost of production of commodities that have, generally make an extra charge. It to a minimum. Issue after issue of our sciennew labor saving devices which, if applied universally simultaneously, would throw whole armies of men out of employment. And yet in spite of all this vast increase in productiveness we find that the material conditions of the orkers have not been bettered. In fact, we are constantly receiving a lesser and lesser portion of the things we create.

Take the Loggers and Lumber workers for instance. Owing to the better means of handling logs and lumber, it does not cost as much today to manufacture logs and lumber as it did twenty years ago. At the same time the average price of lumber the country over has in barons themselves admit. Read the 1911 report of the National Lumber Manufacturers Association convention held at Chicago. Uniformly, also, the price of all the other things the wages paid in the lumber and logging industries are smaller than at any preceding time, with the possible exception of periods them away around the edges of his bunk or of panic. So here are the facts: Wages have gone down; the price which we pay for things which we use has gone up; the price of lumber also has gone up; while the conditions of arriving at camp they could be neatly put the workers have not been bettered, or the hours shortened. From these facts, if we were to draw a rule, it would be safe to say that mean poorer conditions for those who toil. In face of this what does all this much vaunted progress amount to? I repeat, what does it amount to if the condition of those who create it is not to be bettered? It amounts to noth ing, as far as the working class is concerned. But there is another way of looking at the matter. All this increased means of creating wealth should mean something for the workers. It has not for the simple reason that they have allowed the employers of labor to dictate

Robnett was sentenced yesterday by Judge Deitrich on five indictments for embezzlement, returned about three years ago by the federal grand jury in the Lewiston National bank cases, and he was given ten years in the federal prison at Leavenworth, Kas. This morning United States Marshal Hodgins received a telegraphic pardon for Robnett direct from the president.

Robnett was turned over to Marshal Hodg-United States Marshal Beamer was preparing for the journey to Leavenworth with Robnett. Marshal Hodgins received the pardon and telephoned Sheriff Brown to release Robnett. About ten minutes later Robnett, a free man, appeared at the Hotel Moscow, paid his bills for entertainment of the day before and went back on the morning train to Spokane, whence he came yesterday.- "Spokesman-Review."

so small a cost that it is almost needless to dilate on this point, save to point out that most of the camps have them not, and those is time that the board bunk with a handful of straw or hay thrown in was giving way to a more civilized mode of sleeping place. Such a bunk is good enough for a dog or a horse to sleep in but for a civilized human being, never! Blankers, too, must be furnished. Times are changing, the present mode of packing one's bed on his back is about due for the discard.

The continual packing of blankets around

Now take clause the second: Five to six dollars is the usual charge for board. It is safe to say that usually nearly one-half of this is clear profit for the company, while the "kick" that the "grub is on the bum" is one of the most frequent heard. Individual clothes lockers can be constructed at the expense of a few pieces of lumber and a lock and key. Here the camp worker could place whatever clothes or other things he would have and know that they were in perfect safety. It would do away with the necessity of stowing using them as a pillow. Along with the elimination of blanket carrying the loggers would be able to carry clothes along with them. When away and when leaving taken out again. Thus he could keep in his possession neat apparel. which at the present time, for the large body of workers, is almost an impossibility as good clothes without any place to put them become crumpled and wrinkled until they have neither shape nor appearance.

Clause four and five speak for themselves. Now take the uniform wage scale. At the prescht time the boss is the sole judge of what wages he is to pay. Consequently he pays as little as he can, and still less if he finds that the atmy of unemployed is growing. He knows that the greater the number of men out of employment the keeper the competition for Men must work in order to live. If unable to secure high wages they must go to work for such wages as they can get, or starve to death. While work is plentiful the worker will hold back from accepting jobs that pay small wages. 500 SPECIAL POLICE TO FIGHT I. W. W. -FIRE DEPARTMENT TRIES TO WN FREE SPEECH—ALL TRAINS TO BE MET BY POLICE.

ABERDEEN, Wash., Nov. 23.-A riot following the arrest of members of the Industrial Workers of the World was barely averted here tonight by the timely arrival of the fire department, which drenched the would-be rioters and scattered them for the time being.

Serious results are expected from tonight's clash. The Industrial Workers of the World is merely a way to express an opinion; action have telegraphed to other cities in this state and in Oregon and British Columbia summoning aid, and it is said 250 recruits are on their way hither from Vancouver, B. C., alone. In anticipation of trouble a force of 500 special policemen was sworn in tonight.

Tonight, a crowd, carrying a red flag, per sisted in using streets they had been forbidden and defied arrest. No arrests were made. Then the mob was organized and marched toward the city hall to take from the cells men imprisoned yesterday for violating street speak ing ordinances who were awaiting trial. The council was in session in rooms above the jail at the time, and when members were notified by the police of the coming of the mob Mayor Parks immediately called the police and went into aciton.

In the nigantime the mob had arrived an speaker had just mounted a soap box. His arrest was ordered.

The I. W. W. began a demonstration and Chief Tamblyn of the fire department ordered the hose turned on the crowd.

The crowd was driven from one street to another, and finally gave over the battle. May Ask for Troops.

The entire town is wrought up over the oc currences tonight and it is the anticipation of Mayor Parks, Chief of Police Tamblyn and the 500 citizen police who have been sworn in to meet every train as it arrives here and turn ail Industrial Workers of the World back.

An effort will be made by the citizens to maintain control of the situation, but if they find this beyond their power Governor Hay will be asked to call out the militia.

Hoquiam, which adjoins Aberdeen, sent word tonight, through Mayor Harry Ferguson and the chief of police, that it would co-operate with the Aberdeen authorities to keen out workers from the Grays harbor countries.

Two months ago Mayor Parks received a telegram from the Industrial Workers of the World headquarters in Chicago, saying they intended to force the repeal of the street speaking law here or make "grass grow in the streets.

Since that time Mayor Parks and his officials have been preparing for the present trouble."Spokesman-Review."

#### MORE JUSTICE?

That Salem is a very bad place to live is the oninion of W. E. Clarke, the I. W. W. organizer, who was tried before Judge Webster yesterday for disturbing the Salvation Army street meeting and was given 25 days in the county jail or a fine of \$50. Clarke acted as his own attorney. He stated that he arrived in the city a couple of weeks ago about 10:10 p. m. and that he was arrested for being out after hours at 10:30. He was only released from the city jail Sunday and had but a few hours of freedom before he was re-arrested.

In his own behalf Clarke stated that it was not his intention to disturb the meeting of the Salvationists, but that his meeting had been widely advertised and that he waited for the army people to get through with their meet-They seemed reductant to leave, however and so after their regular time to close, Clarke started his meeting across the street. Clarke admitted that he said some things about the Salvation Army people but maintained that were correct. difference with the jury who found him guilty on the proved fact that he did disturb a gathertogether for religio poses.

The jury was composed of F. W. Durbin, F. J. Chapman, Joe Adolph and J. A. Mills. Clarke entered strong objections for cause to some of these who admitted their prejudice. but these were overruled by Justice Webster.

The circuit court room was crowded to overflowing with interested spectators and on several occasions there was boisterous an plause as Clarke maintained the principles of free speech on the streets for himself as well as the Salvation Army.-News Item.

#### GURLY FLYNN IN DETROIT.

Elizabeth Gurley Flynn, who calls he self America's youngest working girl orator and LOOKS IT, spoke at Morreuws hall, Mack and McClellan avenues, last night. The room was cold, and benches were without backs and very hard, but the carnestness and power of this slip of a girl held the audience throughout her address.

She spoke on the labor movement as it affects women; at least that was the subject the term fellow worker without regard to sex. crisis." The country is on the verge of pauperism, fred Murphy, Detroit, Mich.

LUMBER TRUST for the working class is starving," she said. "Some of you in this-room did not have the honor of being free born, and you care to this country. When you saw the statue of liberty in New York harbor, you thought you had come to a land without kings, where every man has a chance, but you find you are just as far from being rich and prosperous in this country as you were at home."

Before the lecture, Gurley Flynn, as she is called, spoke to a representative of the Free Press of conditions in the northwest whence she is recently returned.

"It is a great country out there, rich in pos sibilities," she said, "But there is the direst poverty, too. I was in Spokane in the interests of the fight for free speech and of course I heard much of the women's campaign for suffrage.

"Suffrage is all right and I would not out an obstacle in its way, but after all the ballot alone can bring about results, and the surest way to secure effective action is through

Gurley Flynn will be in Detroit for the remainder of the week and will address meetings of union men every night during her stay. She goes to New York City next Monday .- Detroit "Free Press."

FROM ELEPHANT BUTTE, N. M. November 10, 1911.

Well, I have come to the dam that so much as been written about. Have been here one As you know it is government work Here are the full details:

We have good food, good quarters in building at \$4.50 per month or a tent with four men with stove, no bunk or blankets, at \$2.00 per month (4 men 50c each).

Board 25c per meal. Eight hours work per day, laborers \$1.50 Now you have it; \$1.50 per day and 90 cents per day to live on. No Sunday work. So that the end of a week you have \$2.70 clear per week. But yau have to pay \$1.00 for the doctor whether you work one day or more in the month. At these wages you see it would a man over a month to get himself a pair of shoes which you will certainly wear out inside of a month. There are nearly as many bosses as there are men.

They stand over you all day long. Worse than contractor work. There are a few white laborers here but most are Mexicans.

The brass collars are very well up. They have separate quarters for them on a hill, that change. Yours for the One Big Union. while the stiffs are contented with the banks of the Rio Grande. They have a commissary store here and the prices are higher than in any department store.

Would not advise any one to come here to work, regardless of what the trust papers say. Enclosed herewith you will please find copy of statement dated September 2, which came from the office to the night walker.

This will show you the cost per cubic yard for the flume work. How it could cost so much with the wages paid is a surprise. Wish could get copy of the quarry where I have been working and see what the cost of open ing that quarry will be. There is a waste of manual labor on all this work. I have been working at this kind of work for contractors all my life and I know that a contractor would do this work for one-third the cost. Where the money goes to I cannot tell. But I do know the laborer is not getting it. Am writing this for the benefit of all laboring men to prevent them from coming here to labor hard for nothing. It is worse than working for any contractor I ever knew. The boss stands over you all day long and even drives the poor Mexicans. I am sure that the white men here will all say that they have moved more dirt since they have been here than they ever

Hope you will let the fellow workers know exactly how conditions are on the "big Elephant Butte dam" in New Mexico, 100 miles from nowhere.

#### FROM SACRAMENTO, CAL

Sacramento, Cal., Nov. 18, 1911. Allow me to congratulate you on J. W. Bisay's article in this week's "Worker." I think he has said what a great many of us think you can get more of this stuff there is no reason why the "Worker" should not be the greatest educational paper in the country.

The members need education along these very lines if the I. W. W. is to be the revolutionary movement. We must learn that the job is the only place that we can make any real forward move. Street meetings were all right in the past and possibly we can do some effective work there at the present in the line of agitation, but the only place you can or ganize the workers is the only place they need an organization, ON THE JOB, where they fight the masters.

As to the A. F. of L. the most effective method of "boring" is to "build" and this must be done in the same place. We have had very good success with this kind of "boring." Every A. F. of L. man on one job here carries an I. W. W. card also.

You can't lead a horse by striking him over the nose, and you can't convince an A. F. of L. man that Industrial Unionism is correct by calling him a scab. Let us practice what we preach for a while, change our tactics, and try some constructive work and not so much destructive. Then if we need a change either in regard to our methods or our form of or ganization I am certain the membership of the I. W. W. is intelligent enough to make H. C. ADAMS.

## To Help Us Grow PORTLAND I.W.W. MEN ARRESTED

MEN ROBBED IN PORTLAND BY EM-PLOYMENT HOG-WORKERS AR-RESTED FOR TRYING TO GET MONEY BACK.

This morning Judge Tazwell found three men spoken of in the letter below, "guilty," exactly what of is not known, probably of bothering a grafting employment shark. He bothering a grafting employment shark. He other towns as have undertaken to surpress was kind enough to send them out under a the I. W. W. Well, "his nibs" backed down suspended sentence, which means that if any of them again espouse the cause of a robbed worker, to the rock pile they go.

The letter below indicates that the district attorney's office is pursuing the same old policy of standing by the dirtiest graft in town the employment thieves, and that the chief misfortune in Portland is to be without work and seeking a chance to make a living by some less popular means than politics, or public contracts.

Editor The News: Last week an employment agency hog sold four jobs to four men at a dollar a head.

The fare to the alleged jobs was \$5 for each round trip ticket, that's \$24 for the four. There was no job, so the men tried to get their money back, but were refused.

The district attorney was appealed to, and refused to do anything.

As a last resort these men appealed to u for help. A committee called on the hog. He tried to bluff us out, called the police for "protection," and when the police came, admitted there was no trouble.

We stayed with the hog and started a meeting in front of his office as the last chance to get redress.

Then the police started arresting us, but after five were arrested, including myself, they stopped and moved the meeting around the corner. They might just as well moved us to

All six of us were turned loose to appear at 9 o'clock tomorrow (Tuesday) morning. Whether they will try to send us to the rock-pile and steal 30 days of our labor remains to

I want to say, speaking for myself, that they can't steal any of my labor on their grafting rockoile. They can murder me, and they can lock me up, but I won't scab on free labor.

I would like to know why the city sells a license to employment hogs to rob workers, and then why the police court and the police protect the robbers as against the workers?

Very respectfully,

CHARLES R. DIXON,

801/2 N. Third Street.
--Portland "Daily News."

A mighty wail has gone up in the doughnut city from the capitalist class. The reason is that the workingmen of Portland are organiz-ing and organizing right in the ONE/BIG UNION, the I. W. W. That means \$3.00 per day for 8 hours the first of May, 1912. The working class has at last discovered the solution of the problem. The same conditions exist in Aberdeen, hence the war on the workers. The lumber workers are organizing rgiht Me for Aberdeen tonight. Yours for voctory. CHAS. R. DIXON, No. 92.

## BRAWLEY I. W. W. WINS FIGHT

ANOTHER VICTORY FOR THE I. W. W. -TOO MANY TO GO TO JAIL TO SUIT THE "BULL"-BRAWLEY IS "LICKED."

Another town on the I. W. W. map. Braw ley, Cal., has been put on the man-to stay. Brawley has taken a back seat along with Missoula, Spokane, Fresno and other "enterprising" cities.

During the last three years the little local n Brawley has recruited many active members for the I. W. W. Until very recently we have not had any street meetings, but a few weeks ago we undertook to do a little education by the soap box route.

Of course out "leading citizens" objected to this mode of procedure as it was educating the workers a little too fast for the "nublic wel-

Since we started the street meetings we have heard many threats of "chain gangs," vigilance committees," "law and order," and all the usual ravings of an "enraged populace." Last night matters reached a climax.

Fellow Worker E. F. Lefferts opened the meeting with a powerful arraignment of petty authority, the U. S. Army and existing society in general. His address was received with great applause by the homeless workers pres- of the Aberdeen local were already in fail for ent, but oh, my! how it did stir up our "leading citizens."

At the close of his eloquent discourse he introduced Fellow Worker John B. Bond.

Fellow Worker Bond took the box and proceeded to hand out the "ONE BIG UNION" to the slaves. After a while he turned his remarks to the

on grip on Bond's coatsleeve and started toward the "can."

However, he did not get very far with him

about three steps to be exact.
"Arrest me!" "Take me!" "Me too!" "Likewise mel" "And mel" rang from a hundred throats, throats of members, non-members "ho

bos" and even a few bourgois. Our brave upholder of "Justice" turned pale and green at one and the same time.

Our secretary, Fellow Worker Dodsom jerked the soap box out of the "Bull's" hand, and proceeded to lay down the law (I. W. W. law) to them. With a voice like a for-horn he defied the "Bull" to jail Bond.

In straightforward, defiant language he told the fast growing audience the history of such and loosed his hold on Bond.

"Business" did not like it, but the large

group of slaves present DID like it-liked it so well that several came at once to the hall and joined.

Now if Brawley thinks she is not "licked" let her disturb our next street meeting.

We are growing-growing fast here. The two good old diseases-"Jobltis" and "Scissos Billium" are being eradicated by that wonderful treatment-Industrial Unionism. Yours for One Big Unuion and attendant results.

WILL FIGHT FOR, FREE SPEECH IN ABERDEEN-MEN GETTING READY IN JAIL

The Spokane local of the Industrial Workers of the World is to rush 100 of its members to Aberdeen, Wash., to fill the jails of that town. They will help in a street speaking agitation now being waged there.

A telegram from Aberdeen Wednesday to the local secretary, W. A. Douglass, stated the fight was on and urged that all available men in Spokane start immediately. The communication stated the organizer and secretary street speaking.

Reports from Portland, Ore., tell of an outbreak of "soap box orators" in that city In conference Wednesday the chief of police and Commissioner Coffey decided to jail all speakers creating street demonstrations. The Spokane local says men will be rushed to the Rose immediately, if necessary.-Spokane "Chronicie."

## oggers Will Get Together

(By J. S. Biscay).

The time is now at hand when even the much derided "lumber jack" is beginning to get up on his ear and to demand the right to live Not only is he about to demand the "right" but he is even prepared to make an effort to enforce better living conditions for himself. Of course the bourgeois do not like this at all. They have looked upon the toiler in the forests as only a beast of burden, useful in other place, time and again this was done. getting the timber ready for the market and from whom great profit could be derived. This same beast of burden who felled trees and lived in filthy bunk houses upon rotten grub begins at first to complain and then to or-ganize for something better. That this "stiff" should be actually preparing to demand something better is awful in the eves of the hose Why, all any boss wanted to do was to work him to death and skin him alive, force him to furnish his own bedding and lug it to the camp with the livestock, under pay him and overcharge him as much as possible, turn his stomach into a garbage receptacle and force him to fight vicious lice and elephantine bed-bugs at night. "Some of these stiffs would kick if a tree fell on them," thinks the boss. The idea of kicking for something better

nd then forcing it to come is the very soul of progress. It is the progressive beings who oring the world around to something better. Were it not for the long line of kickers and fighters, the human race would still be chattering among the tree tops.

Not only must the progressive element kick world is indebted for its progress.

Labor has been striving for ages and ages and just about the time when it seemed to have the upper hand of the momentary masters, another economic change came to give the bosses a firmer grip on the throats of the

But today the last stages of mastership is being rapidly marked. The ever accelerating of the toilers forces them to think or to perish. In this struggle for life itself, the workers exert themselves in order to win.
There is nothing to lose, so they MUST WIN. Even the floating element is awakening to

consciousness of power in solidarity. Next comes the effort at concerted action which the boss so much fears. So long as he can keep the workers divided and unorganized, or divided into crafts, religion or politics, the boss is safe. But just as soon as the workers decide to act on the job, the foundation of the structure of exploitation begins to crumble.

The employers will use any methods to down the working class. Such ideas as "just-ice," "square deal," "fair play," "harmony," are drilled into the minds of the workers so as to make them lose in the struggle. The employers on their side will use jails, clubs, bull pens, injunctions, bayonets and machine

organize, but they should remember that there is only one way. That is to consolidate into any pessimistic cuss from asking: "Is the I. "I great labor trust. When that has even been been cated as chairman and Fellow Worker Speciale although not a member of the I. W. W. but that all the property which the bosses hold belongs to those who create it, then the worker will use any methods which will bring the boss to his knees. The property claimed low Worker in Italy who distinguished himself by the boss is only loot. In a struggle for the possession of this loot, the workers might ship of the mammoth social machine of even destroy some of it. That would be only duction. Keep on with the ONE BIG UN destroying their own property of which they were robbed. But the boss will sooner give in than see all his loot wasted away. If the

workers did that, they would be using sabotage. of where it has been done at different times within the last two years. I have known shingle holts spiked so that they could not be used in But whether on the scaffold high, the mill, during a strike. The boss lost all Or in the battle's van, the shingle bolts, the workers did not lose The fittest place where man can die anything. They cut the bolts, the boss did Is where he dies for man. not. Another instance, where the measuring

Several million feet of lumber was thus wasted in one camp before the boss caught on even then it took some time to find out where the short logs were coming from. know of other places where the workers de-liberately caused accidents to happen which spoiled work and caused a great loss to the boss. Machinery was put out of order at an-The boss always lost.

When the workers begin to use their intelligence and aim their attack at the pocket book of the master, they have him whipped. But so long as they persist in starving while the boss is enjoying himself, during the strike, they will lose.

All the wealth created by labor belongs to those who labor. No matter what they do to it, it is right because they are the creators.

Now then all you lumber jacks who have been used like a bunch of suckers by the bosses, GET TOGETHER. You could enjoy a spring bed and mattress the same as the boss does. You coudl enjoy more leisure, the boss never works. Better grub would not hurt you much. More pay in the meantime would make it harder to get rid of the money. Whatever you want to have in the way of better living conditions, is up to you. No one else can do anything for you, but yourselves. Until you get upon your feet and stick for something better, you will have the dirty end of it all the time. If you wish to be treated like a human being, then you must get busy and ACT LIKE MEN. That means that you must Not only must the progressive element hand and strive to convince, but it must arm itself not let any bunch of parasites crowd you to the teeth and FORCE the better things into down. Be fighters to the last rather than

Stand together so firm and strong that you will make the world tremble. Therefore, cut out talking about what you are going to do. Any one can blow his horn, but it takes A MAN TO ACT.
