VILEVANCOUR'S CIVIC SHAME

THIRTY MEN NOW UNDER ARREST IN VILEVAUCOUR CASE:
MEETING DISPERSED BY BRUTAL POLICE

C. A. D. OF OP. OF JR.

The unexpected situation in Vilevancouver is assuming a more serious aspect and the Vilevancouver Association, though rarely to take the initiative, has been
parley to put down all labor actions with an attitude of unnecessary force. It cannot prevent the labor movements.

Its name, however, is now more widely used than ever, and it is no longer fashionable to question the right of the workers to have their rights. The Workers’ Federation, under the leadership of
inexperienced organizers, is gaining ground among the workers, who are beginning to realize that the organization of labor is a necessity for the improvement of their lives.

The Workers’ Federation has already begun to take steps to prevent the spread of the Workers’ movement, and to make it more effective. It has already succeeded in organizing a number of local unions, which are now beginning to appear in various parts of the city. These local unions are doing good work, and are gaining the confidence of the workers.

The Workers’ movement is gaining strength, and will continue to grow. It will be necessary for the employers to take steps to prevent the spread of the Workers’ movement, and to make it more effective. It will be necessary for the employers to take steps to prevent the spread of the Workers’ movement, and to make it more effective.

THE FACTORY BELL

The factory bell, 1158 W. Wabash Ave., is an old and familiar landmark in the city of Chicago. The factory bell is a large, old, heavy, and ornate bell, which has been in service for many years. It is used to signal the beginning and end of the workday, and it is also used as an emergency siren in case of fire or other emergency.
