SILLY SAN DIEGO FIGHTS L.W.W.

NINETY MEN AND WOMEN ARE IN JAIL—CHARGE OF CRIMINAL CONSPIRACY

BY-THE-DAY—THE DRAMATIC TRIAL FROM WHICH THE COURT REMOVED THE CORROBORATION

When the anti-suffrage excitement was at its height in the late fall, more than 4800 people assembled in the city to listen to the pleas of the women for the return of the suffrage amendment. In the course of the meeting, however, a group of men and women, numbering a little over 300, left the hall, and the Leak, 100, who were more or less of the same mind, entered the lobby and attempted to carry the suffrage amendment to the people. A crowd of 200, however, intervened and stopped the movement, and the Leak was forced to withdraw. The Leak was then arrested, and the 300 persons who had followed him were also arrested. The Leak was sentenced to two years in jail, and the 300 persons were fined $100 each.
CRAFTY UNION MOTTO.

"All of my family suffer.
I lose myself.
If not the only, the first in the care of me,
The devil may take the rest."

There is no class struggle in a deck of cards.

Catcher playing is a poor substitute for revolutionary action.

It is not the wealth per capita but the wealth per pockets that interests the workers.

Adulterated food will return as snots as too little food, while giving the workers too little food and that unadulterated.

Survival value is unpaid labor. You are robbed in the pay envelope. Organize at the point of production to get the full product.

We go to work to get money enough--to buy food enough--to get strength enough--to go to work to get money enough--to eat more food--and to work more.

The capitalism, do not support you. It is he who supports the capitalists. They do not advance the means of livelihood.

You give them the day, a week, or a month of your time before receiving any wages. Labor is all-powerful. Awake! to sleeping giant!

As we gain strength we can take a part of our product; gainin, still more strength we can reduce the employers' profits to the point of our power; and finally having gained enough force through education and organization we will take and hold all product of society winning the mean of production.

THE MILITIA OF Christ.

A Roman Catholic organization known as "The Militia of Christ" is attempting to gain a foothold in the south and is but little different that the organization among the negroes, but the negroes make more noise. The negroes are properly spoken. Two of the most prominent leaders of the craft unions are its supposed officers though in reality it is a rival to that great international whose head is the Roman Catholic Church. These men, however, are the sons of the negroes, for the craft unions, the whole balance of the membership, and a well-organized, composed of extremely unintelligent, predatory-prone negroes of the pope, is at their disposal.

The Vancouver News-Advertiser of January 5th points the following:

"Under normal conditions the Anglo central 65 per cent of the vote of the Congress of the American Federation of Labor, and under extraordinary circumstances they can turn out 85 or 90 per cent of the vote," was one of the statements made by Joseph T. weed, an organizer for the American Federation of Labor in the west, who occupied the chair on Tuesday evening at the meeting of the Committee that night.

"The immediate purpose of the work of the Congress of the American Federation of Labor is to organize the laboring men of the country into a national labor party," said Mr. Weed.

"The Canadian Central of Labor Congress has been formed to do this, and the work of organizing the laboring men of the country into a national labor party is the immediate purpose of the work of the Congress of the American Federation of Labor."

Mr. Weed went on to say that there are many places where the laboring men of the country are not organized into a national labor party. He said:

"The success of the work of the Congress of the American Federation of Labor is measured by the number of laboring men in the country who are organized into a national labor party."
Modern Machine Proletariat

(Alby Rollins)

This is one of the most vital subjects that was ever tackled by our socialist and labor leaders. It is one of the most important pieces of scientific work of the whole socialist movement. All of the recent, social, or economic theories that have been presented are merely partial, and of course, the most important piece of this subject is to be given to the whole of the present and future social upheaval. We have no time to argue over the merits of the immediate present, but it is evident that we must make a comprehensive study of this question.

We must first of all realize the importance of this subject. Without a comprehensive study of this question, we cannot understand the situation of the modern machine worker. We have seen the signs of this in the recent strikes. The workers are demanding better working conditions, higher wages, better hours, better conditions of living, and other things.

The principal difficulty lies in the fact that there is no comprehensive study of this subject. We have not been able to make a comprehensive study of this subject, and we cannot understand the situation of the modern machine worker. We have seen the signs of this in the recent strikes. The workers are demanding better working conditions, higher wages, better hours, better conditions of living, and other things.

To Help Us Grow

For Four Dollars
Four Sub Cards
If you are interested in spreading the
propaganda of Industrial Unions, if you
wish to see The Industrial Worker purchased four
monthly subscription cards for the price of one,
you will order the cards in the process of
mailing the third of the cards at a dollar apiece, and
you will have your own subscription taken care of for
the same cards, which will be sent out at the rate
of 25 cents each.

DEBS AND DIRECT ACTION
(Revised by Ralph C. Van Orden.

In the February issue of the International
Unions, the I. W. W. of the World, we
enjoyed a brief sketch of the career of
Frank Debs and the I. W. W. and the syndicalist
movement, which marked the passing of a man
by his contribution to the cause of the working
class. His name is etched in history, and his
memory is cherished by its friends. His
experiences, his struggles, his victories and his
failures, are the story of adventure, of sacrifice,
and of success. He was a rebel against the
established order, and his life was devoted to
the cause of freedom and progress.

IN THIS INDUSTRIAL UNION!

The last class we will note deserves especial
attention. It represents organized sabotage.

In this instance, a large number of
workmen, under the leadership of
their union officials, have carried
out a campaign of direct action.

In this case, it is a case of the
propaganda of the dead.

Individual unions, under the leadership
of their officials, have sent out a
campaign of direct action, and
they have been successful in
reaching the workers.

The workers, in their enthusiasm
for the cause of industrial unionism,
have been carried away by the
propaganda of the dead.

The workers have been carried
away by the propaganda of the dead,
and they have been successful in
reaching the workers.

propaganda of the dead.

LUGERGERS' ACCIDENTS
(Revised by Frank G. Shubert.

According to figures furnished by the Wash-
ington police department, there have been
several deaths and accidents in the
laborers' quarters of the Lugerger
Company. The workmen have been
employed by the company for about
three years, and the laborers have
been generally satisfied with their
employment. A recent strike by the
laborers at a neighboring works
forced the Lugerger Company to
renew its contracts with the
workmen.

The most recent accident
occurred on the afternoon of
January 25, when a workman,
name unknown, fell into a pit,
and was killed. The workman,
who was employed in the
machining department, had been
working for about two weeks,
and had been informed by the
superintendent that he would be
out of work for a few days.
