Diabolical Dynamite Plot Has Been Exposed

LAWRENCE, Mass., Sept 2, 1912—In August Robert Lodge Pfitzner, a wealthy mill building contractor of Lawrence, was murdered. Several indemnities were offered by the Grand Jury since the suicide of the conspirator. However, Lodge's widow stood aloof from these offers and met her last at the shilling of his life. Pfitzner was a master builder of the Lawrence Dynamite Company, which was discovered to be the mastermind of the murder. The mastermind of the murder was recently arrested and is being held for trial.

NO VIOLENCE IN G. T. P. STRIKE

On a recent strike in which we were involved, there was no violence. The strike was conducted in a peaceful manner, and all grievances were resolved through negotiations. The strike was settled without any violence or disturbance, and both parties agreed to continue working under the new contract.

PUBLIC OPINION WILL BE TUSKED if ever the cry of the lounging, individual and preening is cease to be the dominant element in the labor class. The managements and the workers have now become aware of the fact that the power of the workers lies in organization. It is ill-advisory for the trade unions to drop their investigation of the cost of living and its effects on the wages of the employees.

The power of the workers lies in organization. It lies in solidarity. It lies in the strength of numbers. It lies in the fact that the workers have the power to strike and impose their demands. It lies in the fact that they can use this power to bargain collectively.

The strike is a weapon of the workers. It is a means of achieving their goals. It is not just a demand for higher wages but also for better working conditions and recognition of their rights.

The strike is a form of protest. It is a way of expressing the workers' dissatisfaction with their working conditions and the demands of the employers. It is a means of negotiation and bargaining for the workers to achieve their goals.

The strike is a means of achieving their goals. It is a form of collective action. It is a way of sending a message to the employer that the workers are united and determined to achieve their goals.

AGITATE—ORGANIZE—FIGHT FOR THE EIGHT-HOUR WORK DAY

SHALL MURDER BE COMMITTED?

Joe Etter and Arturo Giovannitti are in prison in Lawrence, Mass., awaiting their trial. They are being held in the jail of that city by the police, for the murder of a railroad worker, who was killed in a railroad yard near Boston. The two men are accused of murdering a man who was working as a railroad laborer. They are also charged with the murder of a man who was killed in a railroad yard near Boston.

These young agitators came to Lawrence, Mass., at the invitation of the railroad workers in order to give them the benefit of their organizing experience in the battle for a living wage. The master class, whipped by the militancy of the workers, now seek to get revenge by the death of our fellow workers in the electric chair. Their crime like many others have been charged with being the cause of a death of a railroad worker. They are being held in the jail of that city by the police, for the murder of a railroad worker, who was killed in a railroad yard near Boston. They are also charged with the murder of a man who was killed in a railroad yard near Boston.

We must have first class attorneys. They will cost a lot of money, but we must have them.

Shall we allow our fellow workers to be murdered to satisfy a blood-thirsty appetite? Will we stand idly by while our fellow workers are murdered, just as the railroad workers are doing? We must act now.

A WORD FROM A JAPANESE

As a result of a recent interview with a Japanese laborer who is now living in Lawrence, Mass., the following information was obtained:

The laborer is a member of the American Federation of Labor and is employed in a textile mill in Lawrence. He has been in the United States for three years and has worked in several factories. He was born in Japan and is a citizen of that country. He speaks English fluently.

The laborer states that the conditions in the factory where he is employed are very bad. The hours are long and the pay is low. The working conditions are unsanitary and the wages are inadequate.

The laborer also states that he has been forced to work overtime, which is not paid for. He has been denied a raise in pay, even though he has worked for many years in the factory.

The laborer further states that he is opposed to the management because of their treatment of the workers. He is a member of the American Federation of Labor and is working to improve the conditions of the workers in the factory.

The laborer concludes by saying that he will continue to work for better conditions and will not be silenced by management threats.

The days of slack enterprise where social unrest and agitation is the "Industrial Worker" on their own. The days of the industrial worker in New York have been long over. The days of the industrial worker in New York have been long over.

R. A. LONG—"PEOPLE'S PARTY"

I have been reading on the "Industrial Worker" and the "People's Party" as organized by the organizers. The industrial worker is a man of the people, and the "People's Party" is the party of the people. The "Industrial Worker" is the voice of the people, and the "People's Party" is the party of the people.

As one of the "industrial workers," I agree with R. A. Long in his sharp criticism of the organizers. The organizers of the "People's Party" might be more successful in reaching the people if they were to adopt the principles of the "Industrial Worker."

I think of this, "sensible working men" who have not yet discovered the "Industrial Worker." The "Industrial Worker" is the voice of the people, and the "People's Party" is the party of the people. The people must be educated to understand the principles of the "Industrial Worker."
