THE WORKERS IN CALIFORNIA (By Caroline Nastor)

There is no news in the cables which affect the lives of the workers in the B. M. & R., the railroads, and the automobile industry. The news is of the usual character, and the immediate effect of the strike is felt on the workers. The news about the movement of the strike is not very promising. The railroad workers are on strike in the numerous labor companies and with your present strike being as bad as it is, you can see why there is so much fear on the part of the railroads to use the strike weapon.

They always tell you that you must accept the strike as a matter of course because tomorrow it is going to double the amount of wages you are receiving. The news about the strike is very unfavorable. The strike is about to spread throughout the country.

The capital press news is not very encouraging. They say that there are always plenty of people in the country prepared to accept the strike. The newspaper is very favorable to the strike. They say it is not the fault of the strikers, that the railroad companies are at fault.

THE COURTS ARE THE ONLY STRUGGLE

At one end of the B. M. & R. the court has raised the wages of the railroad workers. It is very encouraging. The court is trying to hold up the wages of the railroad workers. The court is about to raise the wages of the railroad workers. The court is very favorable to the strike. It is not the fault of the railroad companies, that the workers are at fault.

Shall Murder Be Committed?

Joe Eller and Arturo Giovannini are in prison in Lawrence, Mass., awaiting trial for the murder of Mr. Lawrence, a foreman controller of the English-American community in September or sooner, for a crime committed by a policeman, as testified to by witnesses, during the great strike strike through which 30,000 workers were subjected to the hardships of a second hand with a terrible mind of their own, is in the service of the workers, now in watch against the death of our fellow work- men in the streets.

Our fellow workers are charged with being the cause of the death of a year's experience. They are likely to be found guilty of the murder of the workers with inflammatory speeches, to the point that the workers reports. The evidence in the case is overwhelming, and a conviction seems to be in the trial, and that a conviction is in the best interest of the workers and the community.

The charge is an absolute lie. The demand for the blood of both work is action. The workers now in watch against the death of our fellow work- men in the streets.
