And now the question is: why is the Pacific Mills Corporation of Lawrence in such a hurry to do its work? It is all for the benefit of that company's stockholders. Mr. Johnson, the president of the company, is a wealthy man, and he would like to see his company do good business. The company has been very successful in recent years, and Mr. Johnson is sure that it will continue to be so. He therefore feels that it is necessary to do all that he can to keep the company in good shape.
