Men Locked Out
Scotland, Canada
Forty-eight hours of taciturnity on the part of the federal government officials and Railway Labor Board officials has brought in its train a national railway lockout. The strike is of vast proportions. It is estimated that over a million people are directly affected by the stoppage of the country's lifeline. The situation is serious and the government has declared a state of emergency.

Mother Jones Reacts
Political Scandal
One hundred men were arrested on April 30 at Los Angeles under the leadership of the Los Angeles County Co-operative League. The order of the court was that the defendants were being held to answer the charge of violating the Anti-Trust Act.

The Shames of Hotel Kitchens
In the hotel kitchen, the atmosphere is filled with the odors of burning fat and the grime of endless cleaning. The gleaming of silver and the sheen of dishes are the only signs of cleanliness. The workers toil away at their tasks, never stopping for a moment.

Philippline Notes
The all-strippers are standing firm. A Labor Department investigation has been conducted on the company's activities. The workers are willing to accept a decrease in hours of work, but not in wages. Meanwhile, the company is still in negotiations with the strikers. The company is seeking to break the workers' resolve by offering them higher wages.

A Dose of Craft Unionism
Factory conditions are abysmal. The workers are forced to work in unsafe environments. The company has been paying the workers a mere fraction of what they are worth. What is more, the workers are often subjected to verbal and physical abuse by their supervisors.

Blood and Still More Blood
Another victim of the bloody conflict has been added to the list. A young employee, a victim of the recent violence, died in hospital after being shot.

Plenty Good Enough Wages
G. W. White, successor-counsel of the United Mine Workers of America, recently said: "If we can rid the coal centers of the scab and the strike, we can rid the coal centers of the human beings also, and we can rid the coal centers of the wage slugholes."

Mr. Block

The street cars are now again taking strikes. The workers are reported as being in a very serious condition. They have not been paid their wages for many weeks, and are now on the verge of a major strike.

To Construction Workers
Fellow Workmen: It is an aggregation of arrangements that you have made for your work and your industry. You have made these arrangements for the betterment of your work and your industry. Your work is important, and you should be proud of having made these arrangements.
