SLAVES WALK OUT OF PAPER MILLS

One hundred thousand walked out of the paper mills of Western Pennsylvania on June 16, in protest against the conditions in the country's largest mill centers. This strike is one of the most serious in the history of the labor movement in America, and it is a direct result of the policies of the capitalistic owners of the mills. The workers are demanding better wages, shorter hours, and an end to the exploitation of human beings for the profit of the bosses. The strike is spreading and will undoubtedly lead to a general strike in all the mills of the country. The workers will not be defeated by the employers' tactics. The strikers are determined to win their demands and to establish a new order of society where labor is not oppressed by the ruling classes.

REBELS PINCHED IN UTAH STRIKE

Tucker, Utah, June 1—Over 200 agents, in the course of the L. W. May, are said to have arrested 500 of the strikers in the various parts of the state. The action of the Utah State Conservation Department is being condemned by workers throughout the country. The attack on the strikers is an attempt by the bosses to break the strike and to keep the workers in a state of servitude. The strikers will not be defeated by the police. They are determined to fight for their rights and to establish a new order of society where labor is not oppressed by the employers. The strikers are confident that they will win their demands and that their struggle will be a great inspiration to workers throughout the country.

AGITATION HITS MINNEAPOLIS

(Special from the "Industrial Worker," Minneapolis, June 16.)

They are determined to fight for their rights and to establish a new order of society where labor is not oppressed by the employers. The strikers are confident that they will win their demands and that their struggle will be a great inspiration to workers throughout the country.

I. W. W. Men Departed From Port Angeles

From the Everett Labor Journal—Organ of the Everett A. F. L. Men—June 15, 1912. The miners and workers at Port Angeles, where the I. W. W. has been fighting for a living wage, have left the town. They are determined to continue their struggle against the bosses and to establish a new order of society where labor is not oppressed by the employers. The strikers are confident that they will win their demands and that their struggle will be a great inspiration to workers throughout the country.

DIRECT ACTION WILL GET THE GOODS

Direct action is the only way to get the goods. The workers must take the law into their own hands and fight for their rights. The bosses are not going to give in without a fight. The workers must be prepared to resist the violence of the employers and their agents. The strikers are determined to fight for their rights and to establish a new order of society where labor is not oppressed by the employers. The strikers are confident that they will win their demands and that their struggle will be a great inspiration to workers throughout the country.

THE INDUSTRIAL WORKER, THURSDAY, JUNE 16, 1912

SHALL WE ACT AS WE ADVOCATE?

To the Editor—In the "I. W. W. Review," in the issue for March, you say "One of the I. W. W., religious,"—those who believe in the so-called "Great Law of Charity", this is a strange thing. Where does it come from, and who is it that is working for its propagation? I do not believe in, nor do I advocate any religion, but I do advocate the ancient, "I. W. W. Religious,"—you who are working for the advancement of humanity, and who see that humanity is the only way to true religion. 

The I. W. W. religion is a religion of action, and it is the only kind of religion that can save humanity. It is a religion of the working class that has been oppressed, and it is a religion of the working class that is fighting for its own rights.

The I. W. W. religion is the religion of the working class, and it is the only religion that can save humanity. It is a religion of action, and it is the only kind of religion that can save humanity.

The I. W. W. religion is a religion of the working class, and it is the only kind of religion that can save humanity.
