SOCIALISM

Do you know what it means? "Dividing up?"
No. "Killing off the capitaliste?" Not at all.
"Anarchy?" Just the opposite. "Then perhaps
it means a meaven on earth that is coming when
every oncis good?" Not that either; Socialism is
coming long belove every one is good, and it will
make it pussible for people to help each other
instead of fighting each other.

The way that Socialism is coming is this.
Socialists understand that there are two classes
of people in the civilized world. First, there is
the working class, including all who do useful
work either with their hands or their brains.
They are as a rule poorly paid because the
larger share of what they seen is takes from
them flegally of course! by the other class of
people. These are the capitalists, who gather
in the cent, interest and dividends. Once the

The synback into that environment, Antaeus like, it gains strength with each rebound, and comes tack with ever sharper darts and heavier blows.

You thought perhaps the Socialist agitator was impervious to the "slings and arrows of fortune." You fancied because you had seen him standing on some street corner smiling with quiet scorn into the face of the mob that hurled into his face all the vile vocabulary of the gutter and the slum, that nothing would cause him to wince. Ah, C. Kalser 2.60 for 3781 members, which goes to show but that opposition was all but a par the great and serious game upon cause of Socialism. He had reckone with and overthrown that mob months and years before he stood upon that street corner platform. Or, perhap you saw him coolly smiling over some by a capitalist daily, and you felt surthat after this no criticism would ever be felt deeply. You forgot that thi form of abuse is but the signal that his

But shots from within the ranks knife blows that come from the hands of those with whom he is trying to fight, these find exposed spots in his armor, spots which he left exposed because he never dreamed of attack from those directions.

At the beginning he thought also to have clothed himself in an impenetrable armor against the blows of want. He prepared himself to suffer physical discomfort, even to hunger and cold and thought that nothing could ever break through the protection of his self-renunciation. Suddenly the blow falls, not upon his own shoulders, but upon those of wife and children, and the iron creeps down into the very heart depths. Slowly the wound sears over, but ever bleeds beneath the scar, if the knife that laid him low received its impulse from his own hand.

Suddenly the mode of attack changes. Instead of deep thrusts and stunning blows that drain the life blood and stagger mind and body, there comes e shower of stinging poisoned darts. He hears it hinted that the shabbiness with which necessity has forced him to dress is demagogic affectation. Bewould be more truthful to say that lie "is dying on the movement," may send the shaft back with added force, but healed thereby.

Those former friends who retain the closest sympathy often deal unwittingstinging cuts that come from the financial scourge. Over and over again the demands of Socialism for the things that money can so readily supply presses in upon the Socialist worker, and he goes to these friends for the help which they are sgmetimes ever ready to give. Right at this point the capitalist and socialist world of thought and motive meet in the very heart of man, and here where this conflict is centered the pain is keenest. Try as he will to avoid it, all true ground of friendship is destroyed or weakened. Gloss it in the minds of his friends the feeling that they are being exploited for the cause of socialism. Cut off by the friends who oppose him, distrusted by those who sympathize with him, attacked by those with whom he would toll, his own life narrowed, crushed and distorted, his loved ones deprive of the comforts of the present, and the future for away life of a Socialist agitator offers little to be envied.

There are other sides-times of enouragement, of victories gained, of hopes realized. Of these I may speak again. Now I would only raise a hand to ask that when next you would hurl a word or blow or suspicion against the man who is giving his life to Socialism, that you pause and consider if his load may not be heavy enough witnout the additional burden.

An Open Letter to the Comrades

An open letter to all comrades of the

Holyoke, Mass., Feb. 12, 1902. Comrades: - Undoubtedly all of you have read the first annual report of the National Secretary. Those that have failed to read it would do well to study the report in order to become icquainted with the conditions prevalent in our party. .

The Secretary's report shows that the comrades in various localities are guilty of having grossly neglected their duty in regard to their financial obligatious towards our national party organization.

At the time of the Unity Convention the Socialist Party had 6654 members, Previously reported\$17:00 only \$21 of whom paid dues in August. that less than one-fourth of the total little sacrifices are necessary to asmembership had seen fit to pay national dues up to that time.

Comrades, we need not be astonished to see our National Organization indebted to the amount of several thousand dollars. Is this not your own fault? Consider this and make it your to fulfill your duty more promptly and punctually than you have done in the past. It is your duty to regularly send in your national dues in order that the National Committee may be enabled to carry on a more energetic and successful campaign of

What do we care for all the cheap noise about the progress and agitation as long as a portion of the membership do not pay their share towards the expenses of the National Organization!

Comrades, remember that the members of both factions agreed to pay off all debts and accept all liabilities that had been contracted up to that time. We believe that the comrades who pelped the party by their work or who advanced their money at times when the movement was in a critical condition, should get what is due them.

Local Branch Holyoke, Mass., not believing in empty resolution and sweet talk, decided to make a start towards putting our party into better financial condition. At our meeting, held February 9th, it was decided to approprinte the sum of \$10 to the National Committee towards paying off the old debts of the party. Our Local Branch has 36 members at present. Most of our comrades in Holyoke are weaven by trade and their present' weekly earnings do not average more than it.

Comrades of America, ponder for a moment! Can you really not do the same as your poor weaver comrades of Holyoke? Can you not follow our example and do your duty financially towards our party and our movement! We wish to impress upon your minds the fact that talk alone will not make a Socialist movement. Deeds and some complish this.

Do your duty and within a very short time we shall get rid of the trouble-some burden of old debts that will remain a check and obstacle to our movement as long as they are not paid

Local Branch Holyoke, Mass., demands of the comrades in all localities that they send within the cert four weeks, to the National Committee an amount equal to a per capita of about 25 cents for the above stated purpose.

We demand that the National Com mittee quorum, at its next session, also take immediate action in regard to this matter and take such steps as will bring the various locals and state organizations to the realization of their carelessness and neglect of duty to wards our National Organization of the Socialist Party.

Kansas City Platform.

The Socialist Party of Kansas City in municipal convention assembled, reaffirms its adherecne to the principles of International Socialism, as exof International Socialism, as ex-pressed by the National Convention of City upon the understanding that a Soolis Aug. 1, 1901.

The mission of the Socialist Party is to organize the working class and all its sympathizers into a political party for the capture of all the powers of government from the precinct to the national, for the complete overthrow of all privilege and the erection of a government operated by the people and for the people. The complete triumph of Socialism means the restoration to society of all natural and artificial means of production and distribution, now in private hands, and the organization of industry on a scientific basis instead of the present anarchistic disorder. It means that those who produce the wealth will have it, and hose who do nothing toward its production will have nothing.

It is distinctly to the interests of the capitalist class to have a surplus of unemployed, in order that the competition of that surplus will keep down the price of labor. Therefore, in the line of increasing employment and wages, we will abolish the contract system as far as possible, and have all work done through the various departments of the city, and all municipal employes will receive the union scale of wages, for a maximum day of eight hours

We will demolish all unsafe and asanitary tenoment houses, and thoroughly cleanse the crowded districts of the city where the poor live in filth and squalor, only to populate the pesthouse and deck the potter's field with wooden slabs.

We are absolutely opposed to child labor, and while carefully contrived laws enable the capitalists to exploit the children of the working class, stunting their minds as well as their podies, we will establish a fund to provide every child that can be torn from the shops and factories, with the opportunity for mental and bodily derelopment. Books, and if necessary, ood and clothing, will be provided from this fund.

Compulsory education and the absoute prohibition of child labor are two of the strongest measures of the Socialist Party, to rescue the working people from the grasp of capitalism, and will be effected as soon as the party has the state government. In the meantime, we will use the powers of taxation to supply sufficient school coom, with ample playgrounds; all of its "non-partisan" professions, does not do, though it could. It does not because it is absolutely capitalistic, and the class it represents is not interested in taxing itself to give the children of the working class any further facilites for educaton.

The present dereputable institution provided for the care of the victims of smallpox is entirely due to the fact that the members of the Board of Health are not in any danger of havhere; so they are careless of what in society. happens, and the underlings in the management are permitted to commit the crimes and indecencies charged to them. The erection of a decent institution to care for this class of disease, and its maintenance under supervision of competent persons is of urgent necessity, though rigid hygienic measures, as previously outlined, would do much toward decreasing smallpox

Steps will at once be taken toward the erection of a hospital in every ward, with ample ambulance service. The present brutal system of dragging injured and sick persons for miles before even the scant care at present available can be given must be replaced by more humana methods. Their Promoters Are Denounce The best care that science can give will be furnished under the Socialist administration. These hospitals will also take the place of the office of the city physician, and would dispense medicine and give attention to those requiring it in the wards, and everything done toward placing the victims in reach of all the aid for physical allneed them.

crime, is of sufficient importance to be by the real industrial conditions in the taken in charge of the municipality, and will be so taken, Private charity is as degrading as it is inadequate.

remunerative employment, the city must relieve the victims of society. The idiotic declaration, that the criminals now infesting the city are mere wantons, cannot be entertained by in-telligent men. The experience everywhere is that crime variety prevalent productive and fruitful land open for until such time as they agree to a

real and personal. At present rates those of 'small means are made to pay in excess of their just proportion of taxes, while corporations and wealthy individuals swear to assessment lists which should send their makers to the Penitentiary.

The Socialist Party asks the aid and cialist administration will at once declare the franchises of the Metropolitan Street Railway Co. forfeited because of the non-compliance with the very plain terms of such franchises, all of which is a matter of public note; the system to be operated under a receivership until such time as the city can come into legal possession of the equipment or establish a system of its own. No franchise will ever be granted to any individual or corporation again.

The whole efforts of the Socialist Party are at all times directed to in-creasing the share of the working class, and decreasing the share of the capitalist class; in defending the victims of the viciousness and brutality of those who rule; in enlightening them as to the true condtion of affairs and pointing out the remedies to be applied at every stage of the battle.

We will submit a charte amendment to give the city power to acquire lands on which taxes have been defaulted instead of allowing same to be taker by speculators; such lands never to be sold but rented out or used for municipal purposes, and we will also take steps toward the erection of modern tenement houses, to be rented at cost of maintenance. The insurance of decent surroundings to the victims of present day society being of more importance than parks and boulevards.

The erection of a municipal ice plant is an absolute necessity and will be immediately, begun, same to be managed on Socialist principles. The efforts of all officials, no matter how honest, to regulate the private business of capitalists will always be a howling farce. Anti-trust laws will never save the victims of man's ingenuity and nature's severity.

Again, we call the attention of the citizens to the fact that there is a property qualification for office-holding in Kansas City's charter, which is in direct conflict with section 5259 the Revised Statutes of 1899, all of which shows the unscrupulousness of the capitalist class, which thus seeks to intimidate its victims and mnoopoilze the functions of government to itself. As this provision of the charter is illegal, it is too insignificant to be mentioned or considered except as we have here shown. We will submit name of the union. At the last meetamendments which will prevent the present farce of dead-locked councils and one-man power. The upper house which the present school board, with must be abolished and enlarged repretablished. The veto power of the Mayor is a relic of the past. Boards, with powers practically with powers practically co-relative with those of the council must go. But again we remind the working

class and its sympathizers that it is most important to use your majority to show your present masters that you understand the situation.

Down with capitalism and corruption. Let it be known that the majoring their relatives or friends sent ity intends to put an end to class rule

Cleveland Socialists have lost a true and noble comrade in the death of Dr. S. B. Tuckerman. The loss is doubly severe because he was our candidate for School Director, and a man capable in every respect to fill the position. But if the news of the untimely demise of Comrade Tuckerman was sorrowfully received by the entire labor community, it may be well understood that it was a terrible shock to his loved ones, with them we will say "Requiescat in pace."
