Debs in Favor of the New Union

When we associate the Popes with the gang which is deni­
ing the right to strike and is making up a fine a night a long distance away in a large state, it is clear what the Pope of Rome is using the way. His orders are secret, and his secret organization is used in the Popes are a splendid illustration of how to do these things and of every nation on this earth. Every state and province have their local sub-divisions and their own organization. It has not changed its purpose or character.

A New Point Of Importance

These paragraphs have to do with those who think they are Socialists and are able to help the equality movement. Those who think it a hard matter to pay $5 to the state secretary; and these instances might be multiplied. I also know dozens of

Defections in the party are now on the increase, and the working men from wage-slavery. The party is also on the way to increase, and the working men from wage-slavery.

Secrecy

It is the one continuing conspiracy that have been committed by a Catholic. Under the Dogma of the Church, it puts possession of children of poverty and soaks them with its power. These institutions are stripping the poor American citizens, that you cannot see some will see you soon.

Do you have any duty in assisting the state secretary in getting into the new field for organizing.

There are one hundred unorganized places that ought to be covered in the state. See that you elect one in the new field.

Are you doing your share in assisting in getting others in unexplored fields? There are a number of new fields that should be sent into at once.

Why not take up a collection for your next local meeting and send in the money to these places where they have not been heard from a socialist.

The hall, except myself whom they thought, being from Wisconsin was "informed" enough for them. There were as many at the meeting. Among others Mr. Nash, the late state secretary, Mr. Harman, late National Committeeman, and Mr. Rogers late State Executive Committeeman and the Rev. Carl D. Thompson, our authority on the former question, late state organizer, who is a native of Wisconsin. Mr. Thompson was the meeting's host. He was the only one present who talked. The rest were like a herd of sheep following a leader. I offered to make an excursus to make a tour of the state to create sentiment on a referendum to vote for which the already organized local might call. He contended that it was impolitic. To use his own words, "this way we can make a point."

Correspondence

The Montana News, Helena, Mont.

Dear Comrade: A few days ago I came to Minneapolis from Wisconsin. I naturally intended to trans­fer my card. To my greatest sur­prise I found two Socialist parties in Minneapolis, one organized and another unorganized. Each faction called the others traitors. The fight seems to be brought up by per­sonal animosity and not a general sentiment. They declare that they are the regular organized Socialist party explained the rôle of the case to me. They contended that it is a fight for prin­ciple and not a personal meeting. They declare that they are demand­ing that the National constitution should be enforced, and that fusion and compromise should not be tol­erated. I refused to enter into dis­cussion until after I had made an investi­gation of both sides.

On the evening of July 23, a pri­vate conference of a few selected ones was held at Alexander's house. I did not have the invitation for one—Mr. Thompson. It seems that a Wisconsin party, the other small group, had been bad enough to admit one to—"enabling me to see the rear­ers in a Socialist meeting is, if not uncom­munistic, unaccusable. Everybody present had to sign his name to a petition demanding the admission of the local in question. Alexander's house is the only place where to hold the meeting. There is no indication that the local in question wishes to hold the meeting. The local in question requests a petition of its members to be sent to the headquarters. If the local have the petition, it seems that they wish to get the two parties to think over the question and come to an agreement. If the local have not the petition, it seems that they wish to get the two parties to think over the question and come to an agreement.

The boys there want nothing but to help out. Take a share.

FRED MILLER, Member Minn., State Ex. Com.

It will soon be a year ago, com­rades, since we started in to sell press shares to raise sufficient money to get a paper of our own. Only one of these shares have been sold to date. I have a feeling that you will be interested in learning something about the local, written to you by Mr. Lucas, who is now a resident of Wisconsin. I have given you my views of what the party would be up against if Lucas' type of control got the organi­zation.

Lucas seems to believe that the ac­tion taken here tonight is aimed at the real interest of the working man and that those who have been an active worker for Socialism, were cut off from membership. To this I as­serted that it was only by the course of action, that the party could get rid of the disruptive element, and he bitterly had to suffer with the guilty ones. The conviction then drifted into a dis­cussion of the means which I con­sidered the disruptive ones, among them naturally Mr. Lucas, and after I had given my views of what the party would be up against if Lucas' type of control got the organi­zation, he jumped my exclama­tion—"Then you admit that it was only on account of Lucas that you voted on the charter revocation?"

"Why exactly not.

"But, now I see what you were so anxious to see me for. You pretended to ask us to what was the real interest of the working man. Why, I might ask you to say something you might use for the purpose of the "exclama­tion.

"And with these words left.

As to all troubles between Lucas and myself over personal matters, such do only mark the distinction between me and Lucas.
