# A NEGRO LOOKS AT HIS NATIVE LAND

This I saw in America

Since its inception 25 years ago, Negro History Week has never had such broad and deep significance as this year—this week. As Negro citizens of the United States look back on their long, patient, heroic fight for equality under our Constitution, the world is sitting in judgment upon all white governments on the basis not of their words about democracy, but of their deeds toward peoples hitherto denied democracy.

With pride in the new generation of young Negro journalists he represents, the GUARDIAN reprints below as its Negro History Week editorial message this column by Clyde O. Jackson, published in the Little Rock (Ark.) State Press of which he is city editor. On pages 4 and 5 of this issue is an article on John Brown by Dr. W.E.B. DuBois, a prime mover in establishing Negro History Week (now under Justice Dept. indictment—see Marcantonio, below), with other special reports showing how the Week is being celebrated by the U.S. government.

### By Clyde O. Jackson

LITTLE ROCK, ARK.

HAVEN'T been to Russia, England, China, Austria, Germany, France, Norway or Sweden, but I have seen plenty of these United States, my native land, my "home of the brave", my "land of the free". I've seen enough murder, disgracefulness, miscarriages of justice and bigotry in the South (and occasionally in the North) which could well put so-called totalitarian and fascist countries to shame for lack of ability to eompete with such inhumanity.

I remember when I was very young, I saw my people terrified, seeking refuge in the hills and cornfields, running desperately to escape the yoke and wrath of the white people who burned their homes and killed their kinsmen, showing no regard for women and children.

I saw a Negro woman school teacher in Georgia fall to her knees on the witness stand while testifying of the brutal way her husband was murdered before her eyes by white men, because he had saved enough money to buy a decent home and a new car, which not so many of the white people of the community had.

I saw the hate in the eyes of the children of an Alabama woman who had been raped by seven white boys as she made her way from church. Of course, these boys were never brought to justice. They are at large right now, probably committing more such erimes.

I saw the Congress of the United States completely ignore the fact that a great Negro leader, William L. Patterson, was attacked and called **a** "black son-of-a-b—h" by a Georgia Congressman (at a congressional hearing) who holds his seat in Congress illegally.

SAW a judge re-instate a Southern white cop on his job with the police force in Little Rock after the 25year-old officer brutally beat a helpless, unarmed 70-year-old Negro.

I saw two white men get only three

years after raping a five-year-old Negro girl; I saw a white policeman slay a Negro soldier, in the uniform of his country. I saw him pump bullet after bullet into the unarmed man as he lay prostrate and helpless on th<u>c</u> ground.

I saw a noted white authoress, who had spent a good deal of her time in China, declare that if she had her choice she would rather be anything except a while person, because being non-white she would not have to account for the exploitation of the white people upon the non-whites. I saw still another noted while authoress, a Southerner, stand before a Chicago college faculty and student body and declare that in China (before the Communist People's Government took over) white Americans had set up business enterprises with signs in the windows reading, "CHINESE AND DOGS NOT ALLOWED" (does that give you some vague idea as to why we are being run out of Asia?).

I saw white lynchers go scot free, and white murderers in mock trials boast of murdering Negroes and go scot free. I saw white women accuse innocent Negroes of crimes which white men have committed upon Negro women since the beginning of the plight of the Negro in America. The innocent Negroes are always lynched (either by mob or by "law") and the white men always go free.

I saw Negro murderers of Negroes go free while other Negroes have been struck dead or sentenced to lengthy prison terms for as little as refusing to say "yassuh boss" to white folk. In the North, I saw a white woman who wrote pro-Negro articles for a Negro newspaper and who addressed Negroes by their proper titles and respected them as men and women, confined to an asylum—ruled insane for believing in humanity and decency.

Oh, Democracy, the unforgivable sins that are committed in thy name!

NO, I have never been to Russia, England, China, Austria, Germany, France, Norway or Sweden, but these things I saw—in America.

MOTHER AND CHILD: A KOREAN PORTRAIT Frozen to death as they fied the war area, this woman and her infant present horrifyingly mute testimony to the madness of man. Multiply this scene several thousandfold, and you will have the picture of life in Korea today.

# OH LORD, WHY HAST THOU FORSAKEN ME?

In the bitter cold of Washington (an icy chill swept through the South that week) pickets, white and Negro, kept the vigil before the White House, seeking to stay the execution of the Martinsville Seven. Among the pickets was the wife of one of the condemned men, Mrs. Francis Grayson (left) holding one of her five children by the hand. On her face is etched the sorrow and suffering of a wife and mother—the sorrow and suffering of millions of her people. The President's ears were closed. Mr. Grayson, charged with a crime for which no white man has ever been put to death in Virginia, went to the electric chair.

## MARCANTONIO ON DUBOIS' INDICTMENT

# 'Last outrage against freedom'

### By Vito Marcantonio

THE TRUMAN ADMINISTRATION decided to celebrate Negro History Week with the indictment of Dr. William E. B. DuBois, one of the men most responsible for the establishment of Negro History Week. Dr. DuBois was indicted in connection with the Peace Information Center

Dr. DuBois was indicted in connection with the Peace Information Center for failure to file as a foreign agent. This is indeed ironical. Foreign in the sense used means inimical. Who is foreign to the best interests of the American people? Is it Dr. DuBois, who is outstanding in the fight for the maintenance of American freedom, or is it the Truman Administration which has plunged this country into the misadventure in Korea, that is definitely against the people's interests?

Mr. Truman will have to demonstrate exactly how his plunging us into Korea can be in the interests of the American people, when it has led to overtaxing of the common people, high prices, wage freeze, execution of seven innocent Negroes (victims of white supremacy), recognition and loans to Franco Spain, reprieve and liberation of the Nazi assassins, rearming of Japanese war lords, no civil liberties or rights, no housing and no health legislation—all this together with over 49,000 American casualties in Korea itself.

THIS LAST OUTRAGE against the freedom of the American people shows that the Truman Administration doesn't even know what period it is in. It just so happens that this is no longer August, 1950, when fear was the order

of the day against peace advocates. Then the American people were in a state of confusion purposely produced by the Administration.

This is another period. This is a period of awareness and resentment on the part of the people against the whole war program. Millions of Americans everywhere are giving expression to their opposition to this war program,

doing exactly what Dr. DuBois has been doing for a long time—fighting against the conspiracy to destroy the peace, freedom and economy of the American people.

Dr. DuBois is the defender of the Americans' best interests. His wouldbe persecutors are the traducers of American freedom and of their peace and security.

and security. I am confident that here too, once again, the American people will resist and throw this indictment back into the faces of the war conspirators for whom the Truman Administration has been stooging. BA

# Where do the churches stand?

Dr. J. A. Aasgaard, President Evangelical Lutheran Church,

408 - 5th Avenue S.

Minneapolis, Minnesota

Dear Dr. Aasgaard:

At this most critical time in our lives I am writing you as president of the church in which I was baptized, con-firmed and married to ask a few questions about the stand of the church and its leaders.

Do you, or does the church, support any of the Peace Movements that have been offered to the people of this country and the world; that is, the Red Cross Statement, the Stockholm Peace Appeal or any other peace movement

--and if so, in what way? Do you support the foreign policy of our government including the Truman Doctrine and if so why? Do you be-lieve that oppressed people have a right to rebel against their oppressors as they are doing all over Asia? Do you think the people of Asia have a right to an Asian Policy for Asia? Do you support our Government in its war against

Korea and if so why? It has been reliably reported that our bombers de-stroyed a Korean city of 100,000 people in 12 minutes and a city of 450,000 people in four hours. Do you approve of thic? of this?

of this? Do you favor the taking of our boys and young men into military service when older men stay at home in com-fort, while making a profit out of war? While our boys are dying at war, do you think that any one should be per-mitted to retain more income than permits a bare living? Do you oppose the use of the atom bomb? Do you favor disarmament or do you favor an armament race? Do you favor our government trying to oppose socialism by armed might? Do you believe there is security for our people in a military program? military program?

Knowing you as I think that I do, to be a man of great and unusual understanding and vast experience, I hope you will give me a thoughtful answer to this letter. Sincerely, Elmer A. Benson

NOT SNOW, NOR RAIN, nor heat, nor gloom of night stays your mail carrier as a rule, but a mail embargo is something else again.

Because we are not at all sure that this week's GUAR-DIAN isn't reaching you ahead of last week's—and also because this is a rather neat way of bringing the conversation around to our favorite topic—we shall therefore review here some things we had to say last week about subscription renewals, specifically yours if you haven't renewed yet. pears, there is an explanation of our code system which tells the month and year your sub expires. In a recent issue we pointed out that by simply tearing out your address-plate on p. 8, you could renew in 30 seconds with \$2 and a 3c stamp. From Philadelphia last week, one of these came back with the necessary \$2 and a record to shoot at.

"It took me just 12 seconds," the renewer vouchsafed in a penciled note.

WHILE YOU MAY NOT be able to lower the Philadelphia record, you can certainly save the 3c if you'll scratch around among your unanswered letters, bills, etc., for the last month, because somewhere in that load on your con-

science is a postage-paid return envelope we sent you at New Year's time, waiting patiently for your \$2. If you can't be persuaded to hunt through your mail pile at this very moment, the familiar young character pictured (center) on this page will lead you via an alternate route through this issue of the paper, bringing you at last, breathless but wills-mills to the spure of the apotter in the breathless but willy-nilly, to the crux of the matter in the lower righthand corner of p. 8.

# What Uncle Harry's tax bill will mean to you

By C. B. Baldwin Secy., Progressive Party

AT last President Truman and Treas-A ury Secy. John Snyder have given the country a rationing program. Auto-mobiles, television sets, refrigerators, phonograph records, watches, alarm clocks—even cigarettes and liquor—are to be rationed. This will be done by a new, simple method: no octopus of an OPA, no specific enforcement machin-ery—the Justice Dept. with its FBI will

take care of flagrant abuses but it really won't be difficult. In World War II we were all issued coupons roughly related to our indi-vidual needs. This time Uncle Harry and Cousin John just add a tax which prices the up would be out of the market

prices the un-wealthy out of the market. The choice is up to you: eat, or give up all other things your family need and like. If you want to go without food, not pay your rent bill, not buy clothes for your children or send for a doctor when he's needed, you can buy a car to get you to work by paying Uncle Harry an additional \$350 or a television set by paying him \$75. You and your wife can even have a drink a day if you are willing to pay \$150 a year for the privilege. You can have a bottle of beer a day if you pay Uncle \$25 a year, a daily pack of cigarettes if you pay him \$36.50 a year.

Moscow was still trying to induce the West to sit down to negotiations. The West demanded discussion of other questions and a preliminary meeting of deputies in Paris to work out an agenda. Agreeing to this, Moscow in-sisted that rearmament of Hitler's warlords and U.S. and West European

arms programs are the central cause

The Soviet note dismayed the U.S. The N.Y. Times' Drew Middleton cabled from Frankfurt:

will be on the shelves and you will have will be on the shelves and you will have the cash to buy it—for everybody's in-come tax goes up \$4 on each \$100 of earnings, and on big incomes the in-crease is negligible. To the person earning \$2,000 it means a 20% increase in tax; to one earning \$10,000 or \$12,000 it is a 10% increase; \$1,000,000, only a 31% increase. 31/2% increase.

His poor relations can pay the bills he runs up, generally without consulting us or the UN.

UNTOUCHABLE PROFITS: Honest John Snyder developed the theory for the new system, and told Congress about it a few days ago. Speaking about the 84% of us who make less than \$5,000 a year, he said: "This con-centration must be tapped if the tax is to raise enough revenue.'

John's ideas of concentration are different from ours. We were brought up to think of concentration having something to do with great accumulation of wealth and not great masses of people. The greatest concentrations of wealth are our big corporations, who were husky in 1939 when they made a piddling  $6\frac{1}{2}$  billion dollars but now complain because their profits are only eight times as great, or something over 50 billion.

If Uncle Harry got the extra 10 billion he wants for his world-wide destruction from the corporations, they would still have over five times their 1939 profits left.

WHAT TO DO: Congress is now considering this tax bill. The people are

gan relative by marriage.

EUROPE CRIES OUT: In France, where Premier Pleven's government has in-creasingly capitulated to U.S. pres-sure, official demands for a prompt four-power meeting were muted. But Hubert Beuve Mery, editor-in-chief of the conservative Le Monde, expressed what one U.S. correspondent called a majority point of view in an editorial calling for France to free itself from the U.S.'s "holy war or crusade of ex-termination against the Communist nearline" peoples."

ments [in Nevada] were timed at this particular period for scientific rea-sons." The Nevada tests—said to be of atomic artillery and atomic war-heads—were also expected, some UN sources said, to influence China to a Korea truce

In West Europe the real aim of U.S. policy was more and more seen to be the "liberation" of East Europe. This was emphasized in a "Declaration of Aims and Principles of Liberation of Central and East European Peoples" adopted at Philadelphia's Independence Hall Feb. 11 by a committee of East Hall Feb. 11 by a committee of East European exiles, acting under the aus-pices of the officially sponsored Free Europe Committee (GUARDIAN, Nov. 22, 1950). power conference to conduct secret di-rect elections for an all-German par-liament. But Chancellor Adenauer rejected East German unity proposals, demanding that East Germany first release imprisoned war criminals.

JAPAN IN THE TEAM: In Japan, U. S. Ambassador John Foster Dulles reached agreement with the right-wing Yos-hida government on terms of a peace treaty: the U.S. will keep troops and bases in Japan, will help Japan build ar. army, will not bind Japan to con-tinue occupation reforms, will not ask Japan to pay reparations (most are Japan to pay reparations (most are owned to other countries: the Philip-pines, Britain, Australia, China, Rus-sia). To quiet Pacific nations' fears of a newly militarized Japan, Dulles pro-posed a Pacific Pact. The Japanese government celebrated his visit with widespread roundup of Communists and peace advocates.

At Lake Success Washington tried unsucessfully to get the sanctions committee to meet and take up the question of sanctions against China. Assembly President Entezam tried to find a third nation representative to serve with him on the three-man Good serve with him on the three-man Good Offices Committee (Sweden had al-ready accepted). "The UN is looking hither and zither for a third man" was the crack of the week at Lake Success. Mexico's Padillo Nervo finally consented to serve.

Right-wing Republicans renewed efforts to capitalize on popu-lar anti-war sentiment by returning to the "Great Debate" on sending U.S. troops to Europe. # Prosecutor ails; Six back in jail

ON Monday of last week the second trial of the Trenton Six-six young Negroes sentenced to die for a murder they could not have committed, in what was later declared a mis-trial-got under way at Trenton, N.J. On Tuesday -three years to the day since the first of the Six entered jail—the men re-turned to their cells, their trial de-layed by another month. Prosecutor Mario H. Volpe had to have his appen-dix removed in a local hospital.

The State of Virginia had closed the book on the Martinsville Seven just book on the Martinsville Seven just three hours before the Trenton pro-ceedings opened on Monday. What be-came at once apparent in the pine-paneled, plush-carpeted, velvet-draped courtroom was that—in contrast to the 1948 proceedings—the State's charges against the Six were of concern to the world, not only to Trentonians.

THE WORLD WATCHES: There were THE WORLD WATCHES: There were not many more than 50 spectators in the courtroom. Half the seats were vacant to provide for members of the jury panel. It was almost as if the empty seats were a proclamation of the State's hope to keep the proceed-ings confidential. But a dozen newsmen whose stories would be read in many lands observers for a score of occarding lands, observers for a score of organi-zations, and several hundred Negro and white would-be spectators jamming the corridors showed that this time, in this respect at least, the State would not have its own way.

At the counsel table sat two noted attorneys with the four other defense counsel: Arthur Garfield Hays and Trenton Judge George Pellettieri. The forcefulness with which Pellettieri pre-

sented his opening argument was a reminder of the powerful and influential organizations now backing the defense. He asked for a week's adjournment because Prosecutor Volpe had not given the defense, as he had ten days earlier assured the court he would, records of the police's initial investigation of the crime and other documents. Presiding Judge Ralph J. Smalley ruled against the defense, but his careful and full explanation showed his consciousness explanation showed his consciousness that millions were watching the court's every move. Next day he ordered the reports turned over so that he could decide whether the defense was en-titled to receive them.

THE BIAS REMAINS: That this trial would be presided over from the bench, not as before from the prosecution

table, was indicated after the defense asked a prospective juror: "Have you ever known Negroes socially?" Asst. Prosecutor Frank Lawton rose to object in an indolent tone. Judge Smalley sharply cut him off.

The State challenged eight prospective jurors for cause, because of their expressed opposition to capital punishment.

In the seven hours of the proceed-ings, 20 persons on the panel were questioned. On Wednesday, after the judge declared a technical mistrial because of Volpe's appendectomy, the de-fense said it would seek a change of venue because of indications of racial bias in the prosecution's questioning of talesmen, which Pellettieri called "alarming and most disturbing."

# Threats fail to halt fight for McGee

From now on, any lousy conscienceless haver who seeks to defeat the ends of justice in the Willie McGee case should be branded as a public enemy and treated as such. . . . LAST week two attorneys retained by the Civil Rights Congress, John M. Coe of Pensacola, Fla., and Bella S. Abzug of New York City, took note of these and other threats. Then they set foot on Mississippi soil and, before the State Supreme Court, argued success-fully against state prosecutors for a delay of execution for Willie McGee, 35-year-old Negro war vet accused of raping a white woman. The new date: March 20.

Between now and then the lawyers will prepare a writ of habeas corpus for will prepare a writ of nabeas corpus for presentation to a federal court; it will be based upon new evidence showing a long relationship between McGee and his accuser, Mrs. Troy Hawkins. # THE VIGIL FOR THE MARTINSVILLE SEVEN That night in Richmond

### By William Mandel

(William Mandel, author and lecturer, was one of 30 Northerners who spent a week in Richmond, Va., in a last-ditch fight to save the Martinsville Seven.)

RICHMOND, VA. THURSDAY night, Feb. 1, was execution eve for the first four of the Martinsville Seven. That night these

Martinsvine Seven. That night these things happened in this small southern city which was once the capital of the Confederacy:

Managers of Negro movie houses stopped their shows, appealed to audiences to phone or wire the Governor to balt the executions

 One of our group who appealed to people in a Negro hotel lobby to phone the Governor got this result: one man ran out to get \$5 worth of nickels, most of those present lined up to await their turn at the phone booths, the hotel manager insisted on feeding our man who made the appeal

• Two young men went to the city-owned segregated dance hall, pre-vailed on the white manager and

white woman band leader to stop the music every half-hour, urge dancers to phone the Governor.

• Our group could not distribute leaflets at late-night bars: patrons themselves passed them out, posted them in windows, lined up customers to make phone calls.

"THEY'LL COME": At midnight that night, these responses of the people of Richmond were reported to a gen-eral meeting of the Virginia Commit-tee to Save the Martinsville Seven. There were but a few hours left; did we have time to organize a large death watch wigh in the central Conj death-watch vigil in the central Capi-tol Square at 6 A.M.? Did we dare urge people to violate a police limit of four persons at a time in the square? The Richmond Negro members of the com-mittee didn't hesitate; they said: Sure

Sure, the people will come out." By 3 A.M. lists of names had been compiled and committee members had scattered to all available phones. At 6:30 100 persons were in the square for the last death watch. A Negro restaurant owner trucked up with huge

MARCHING TOGETHER: On Sunday it was decided to hold a mass memorial meeting at 3 P.M. Leaflets announcing it were not ready until 1. but 900 persons turned up on that short notice.

At the meeting it was Father Clar-ence Parker of Chicago, a white Protestant Episcopal clergyman, who offered the committee's suggestion that the entire audience parade from that the entire audience parade from the meeting place down Broad St., Richmond's main thoroughfare, to Capitol Square, a half-mile away, to lay memorial wreaths before the capitol building. It was a slow, quiet, solemn proces-sion; those who were in it will remem-ber it forever. All the marchers, Negro and white, wore black mourning arm-

THE TEMPER OF THE SOUTH: Through that grim week there were many small incidents all of us will remember. We will remember how

a middle-aged white woman of Cath-olic background was distributing leaflets before a Negro church in the sub-freezing cold. She was asked in, others passed on her leaflets, and she was passed on her leaflets, and sne was given hot coffee. A few blocks away a woman here only three years from France handed a leaflet to a Negro soldier. He read it, came back and said: "I don't have much, but you follow a warwithing Uye got." folks can have everything I've got." He handed her \$5. We didn't save the lives of the Mar-

tinsville martyrs. But we saw the de-termined and controlled temper of the Negro in the South, and we talked to hundreds of white persons picked at random from the phone book: at absolute majority said they believed Negroes should not suffer death for an alleged crime for which no white was ever executed; one-third of them promised to phone the Governor.

promised to phone the Governor. That last Sunday night, as we sat in the Negro YMCA, a correspondent for the Afro-American said to me: "You know, you folks have done an awful lot for the white people down here... Resentment among the Negroes-against whites in general was running pretty high when your group came down last week. But from the way you've acted and worked, they've learned that there is also a different kind of white man and woman."

# Why John Brown's soul marches on

## By W. E. B. DuBois

JOHN BROWN, born on the threshold of the 19th century, was a man of deep faith. His religious feeling was not an ornament or dogma, but a part of his life, which sought to realize by his deeds. It was based on the Hebr which he Scriptures and on belief in a personal ruling God of justice. He was a poor man who worked in the soil with his

hands, and knew the great outdoors and the peculiarities of land. He was a man of fam-

ily, with wife and many chil-dren. Yet he was never limited by his work or his poverty or his family life from conceiving himself as an instrument to "make straight the way of the Lord!"

INTO BATTLE: His attention was early called to the anomaly of Negro slavery and in par-ticular to the Free Soil controversy in Kansas. He took himself and his growing sons into bat-tle to make the West free of slavery. He fought there with his own hands and in blood, to accomplish this: and then, turning from Kansas, he con-ceived that he must not simply

fight on the periphery but attack the slave system itself. For this John Brown needed help and money. For help he turned to the Abolitionists and to the Negroes; to the Negroes in Canada and New England; to Frederick Doug-lass, to the Abolitionists everywhere. He found support and opposition bravery and cowardice; but he went for-ward to his great plan.

MASTER PLAN: Most people and most books, even to this day, think that John Brown planned a slave insurrection not in the midst of slave territory but on the outskirts, where there were comparatively few slaves and where the system itself was decadent.

This was not true. His plan was a masterpiece. It was based upon the great Appalachian range of mountains, stretching from Alabama to the Great Lakes. Into these mountains for years the slaves had run away to hide and make their escape to the North. John Brown had a plan to systematize and organize this pathway to the North Star

Along the Appalachian heights from Georgia to Penn-sylvania he proposed to establish a series of forts and hid-

ing places, with caches of arms and food; so that when a slave ran away from Florida, Alabama, Georgia or Missis-sippi, he did not take the long chances of reaching the helping hands of the Underground Railroad in Pennsylnearby, where he could find arms, food and clothes; then by easy stages he would make his way to Freedom.

In the meantime, at these forts there would be gradually gathered permanent garrisons. From time to time they would make forays upon the plantations and entice other slaves to free themselves.

BETRAYAL: Brown based his ideas not upon fantasy but upon what had taken place under similar circumstances under Garibaldi in Italy and also in the Balkans. He hired a leader, Forbes, who once had taken part in European guerrilla warfare; but this man was one of Brown's first betrayers.

Brown began at Harpers Ferry because there was a supply of arms in the arsenal there, and because from Harpers Ferry secret hiding places along high mountain ranges could easily be reached.

It was a master plan and it could have worked. Indeed in the whole history of runaway slaves it had already been working without central organization and without arms and food. The drain of fugitive slaves along these heights threatened the existence of slavery and brought Civil War. The plan's culmination failed because those who were to initiate it were late in gathering at Harpers Ferry; the money for its support was too little; and it was partially betrayed before it could be initiated.

MARCHING ON: Thus the plot was frustrated after heroic effort and John Brown hanged. The plan itself failed; but his martyrdom startled the nation and the world.

After the death of John Brown his soul went marching on and American slavery was doomed. We can today sing again with Goethe: "Selig der den Er in Sieges glanze findet"—"Happy man whom death shall find in victory's splendor."

# **U.S. indicts DuBois** as 'foreign agent'

AS hundreds of American notables A prepared to celebrate his 83rd birthday Feb. 23 at Essex House In New York City, the U.S. government indicted venerable Dr. William E. B. DuBois under the Foreign Agents Reg-istration Act. The charge: Dr. DuBois as head of the Peace Information Cen-ter was an unregistered "publicity agent" for the Stockholm Peace Peti-tion, which 3,000,000 Americans signed last year. Santa Monica (Calif.) Independent readers were 78% for U.S. withdrawal from were 78% for U.S. withdrawal from Korea; Los Angeles Mirror readers were 83% opposed to sending more U.S. troops to Europe. DRAFT EVASION HIGH: U.S. military authorities regard as top secret all sta-tistics of draft-dodging, but by last week delinquencies had reached such proportions that a nationwide roundup was ordered of men failing to report for induction. In Los Angeles Asst. U.S. Atty. Ray Kinniston issued warrants for 116 men in the southern part of the state alone, but estimated that the to-tal number in his region would reach 7,500. Greatest cause of embarrassment were the railwaymen who in great numbers demonstrated that they were sick of the freeze to which they were being subjected. They also demonstrated, by walking off the job and staying out for more than a week, that labor-management "cooperation" in the management "cooperation" in the name of wartime unity had scarcely percolated down from Washington.

IN COURT: For two years the rail-waymen had tried to win improved conditions and a 40-hour week with no reduction in pay from their 48-hour take-home. The union leadership had negotiated settlements which the mem-bership rejected. The Army was tech-nically in control of the roads, though the change from civil life seemed to mean only that rail executives switched from mufti to colonel's uniforms. Last week the union leaders negoti-Washated with railway officials in ington. In Chicago, however, union counsel argued before Federal Judge Igoe that the leaders had no control over the membership: though they or-dered, cajoled, tried to persuade the men back to work, the men would not go.

The court action grew out of the government's contempt charges against the union for the "wildcat" strikes of last summer. Another contempt suit for the recent widespread "sick leave" is to be heard by Judge Igoe as soon as this action is completed.

REBELLION: Judge Igoe said the only issue before him was "whether or not REBELLION: Judge Igoe said the only issue before him was "whether or not the sovereignty of the U.S. is going to be defied." He then urged the army to "get soldiers to operate the railroads if nobody else can." Columnist David Lawrence wrote in the N.Y. Rep. Andrews (D-Ala.) offered a bill in Congress to draft all railwaymen having occupational deferments.

RR RUSSIANS: On Thursday Presi-dent Truman told a press conference the railwaymen were behaving like Russians and he would order the Army to get the trains moving. The Army issued a formal ultimatum: the men must be back on the job at 4 p.m. on Saturday or be fired. The Army offered a temporary hike of 5c to 121/2c an

hour, less than half the offer rejected

by the membership in December. Angered by the President, railway-men were scarcely mollified by his press secretary who told newsmen Truman compared only the Brotherhood leaders to Russians.

Where appeals to war fervor failed, the threat of a gigantic lockout seemed to work. Bitterly resentful, the railway-men reported back.

"NO RAISE, NO WORK": In the Chi-cago stockyards of Swift & Co., 7,000 7.000 packinghouse workers met, offere their support to the railwaymen, the offereg turned to their own problems. The Cle Packinghouse Workers contract calls for a wage reopener Feb. 11. Ralph international president of

Support for the railwaymen had come from all the progressive unions expelled from CIO.

# Modern furniture that really functions

ice introduces a new line of func-tional modern furniture, beginning with the bedroom-group above. Other matching pieces in this line will be displayed in subsequent issues.

The Bed Bar item is one of those inventive accessories which give meaning to the term "functional modern." It adds to your spring and mattress combination a new double-bed look as well as all the comforts and convenience of a Sleep Shop special. If your present mattress-spring combination is ready for the attic, the new one included in

HIS week the Guardian Buying Serv- the display above measures up in specifications to the best made and repre-sents even better value at \$88 than the combination we offered last month at \$65 (Dollar Stretcher, Jan. 10). More-over, the 272-coil mattress in the combination above can be bought separate-ly if your present spring is holding up O.K. All together, the above combina-tion with the Bed Bar thrown in comes within a couple of dollars of what you would have to pay in any department store for just the combination by itself.

# POTS & POCKETBOOKS

# Hints for an inflation era By Charlotte Parks

**E**CONOMISTS with fancy college degrees think in these terms. In these days of buying decisions, so must the housewife.

Check over your kitchen. Have all your pots good, tight lids? Have you a double boiler, a pressure cooker? A sharp paring knife and carver? A soap shaker? A good electric iron and potato baker? A measuring cup?

Double boilers, thick-bottomed pots save money. Tight lids save gas and vitamins. A sharp knife saves time and food. A sharp carving knife makes meat more palatable and far-reaching. If you haven't a good knife-sharpener, get one now. An egg cutter and a good grater are musts for economy and a meat grinder will make little go far and attractively.

### Sewing needs

Mending is a great money-saver as most people realize. Taking every rip to the tailor, or not turning sheets, counts up soon to more than the cost of a sewing machine that will last a lifetime. With children to mend for, it is gross extravagance not to have a sewing machine. Millions of women are now making their own clothes. It often takes less time to make a garment than to have a ready-made one altered Scisort? There are nece than to have a ready-made one altered. Scissors? There are peowho think a manicure scissors will, like Duz, do everything If you are smart with your hands, a hairclipper can be a good investment.

### In the bed room

Good springs and mattress are health necessities. Don't run the chance of finding them hard to get if yours are sagging. And the children? Are they outgrowing the cot or the youth bed? Light, warm bed coverings make for health. Mend and if neces-sary augment your insufficient supply. Heavy bedcoverings are not to be neglected as causes for poor sleep.

# The living room

A good sofa? Save your heart by lying down full-length. Five minutes on the back rests the body better than ten minutes in a stiff-hacked chair. Take the weight off your feet. Com-fortable easy chairs are no luxury. They restore strength like good food. Get springs mended where needed.

## **Refrigerators & washing machines**

Buying from hand to mouth and food wastage through spoiling are gross extravagance. A washing machine is a must where there are children. Fewer clothes need be bought and home-washed clothes last longer. A machine is cheaper than the doctor, and a large proportion of the women who use washing machines have children under their feet or under their aprons.
