Eisenhower favors 'Mother' & GOP's blackest reaction

"America needs more strip-teasers. There should be one in front of every candidate so you can't see what they stand for."

GROUCHO'S point was obscure; but he hit a popular note as the Repub-locrat election circus got into stride with Mr. Gen. Eisenhower's take-off from Abilene, Kansas.

Strip-teasers might have improved the gate, despite the heavy rain which compelled the general to slop through a sea of mud to face the nation over TV from his home town. With 50,000 expected, 2,800 turned up for the show (Abilance's propagation). (Abilene's population: 5,775). On the air one man was heard to shout from time to time: "Yay!" The applause was so sl'ght that listeners could make out each hand-clap. At La Guardia field and outside his residence at Columbia university, when the general returned to New York Friday, the pro-Eisenhower N.Y. Times estimated welcomers at "500 to 1,000" and 500 respectively,

Newspapers gave pages to the show, but few citizens were stirred. From Taft's corner Rep. Carroll B. Reece (R-Tenn.) acidly summed up:

"It looks like he's pretty much for mother, home and heaven."

The only press reference to the general's late mother—a militant pacifist and anti-militarist—was a description of his stop in her old garden to pick of his stop in her old garden to pick a bouquet of flowers.

Convention call

The Progressive Party invites all Americans to send delegates to the National Convention in Chicago's Ash-land Auditorium, July 4-5-6, to take part in drafting a people's platform for peace and nominating the only candidates in the 1952 elections who offer Americans a chance to vote for peace.

Any ten people may sign the creden-tial reprinted at the right, designate a delegate and mail the names with a \$2 registration fee to Progressive Party, 17 West 45th Street, New York 19, N. Y.

This unique proposal is made to order for GUARDIAN readers not otherwise represented. Call up a fellow GUAR-DIAN readers, get some neighbors or jobmates together with husbands and wives, mail your delegate's name and credentials this week.

If you need help rounding up sufficient people to join with you, airmail the GUARDIAN and you will receive an immediate roll. ceive an immediate reply.

Act now! Don't fail to be represented at Chicago July 4-5-6.

Confused America

Confused America

New York, N. Y.

Returning from a 15,000-mile lecture tour of the U.S. and Canada, Scott Nearing reports in the current issue of his quarterly news commentary, World Events:

"People all over the U.S. are in the dark. Some of them know this and resent it. They listen to commentators, read newspapers, magazines and books, attend mretings. Still they are uncertain and unsatisfied—literally hungry for knowledge and understanding. How many times during my recent travels I have heard people say. 'I am confused. It does not make sense. Why all this talk of peace and these frantic preparations for war? Why with our resources, our toels and our skills, should we fear another depression? Where can I get information that will set me straight?' Specifically, I found people ignorant of the forces behind communism, the nature of the cold war and the causes of the war in Korea. The bitterness I encountered concerning Korea exceeded that in any other field."

The bitterness I encountered concerning Korea exceeded that in any other field."

As for the press, the radio and the cinema the attitudes on which they base their output justify the words of William Cullen Bryant: "The press is a mill which grinds all that is put in its hopper. Fill the hopper with poisoned grain, and it will grind it to meal, but there is death in the bread."

Lettuce and Apples
HERSHEY, PA.

The GUARDIAN pulled a boner in putting in the "How Crazy Can You Get Dept." the important truth the Rockefeller Foundation has established, that a restricted diet would increase the span of life. Such news from this source should be hailed in big headlines in the GUARDIAN if you have the interest of the little fellow at heart. The title was "How Yellow Can You Get?"

We consider this very chauvinistic, and so do the Chinese and Japanese members of our union. Any expression that directly points to the color of a person's skin would seem to us could be substituted with some other phraceology. "Yellow" in this sense is considered to be cowardly, or describes a person with lack of courage. We cannot say that of the Chinese people who have taken the natural resources, as well as the means of production, into their own hands and are using them for their own good. This takes courage, determination, planning and much patience, as well as a great deal of suffering, misery and privation.

We sincerely hope that you will not use such a term again, and that an apology will be extended to our Chinese and Japanese members who may have read this because of our distribution of your paper.

Thank you and keep up the good work. Until later, salud.

Ike and the Brethren

Ike and the Brethren
DENVER, COLO.

I suppose when I say I was born
in Dwight D. Eisenhower's home
town I should straighten my
shoulders and throw out my chest.
But I don't. While living at Abilene, Kans., I never mat Ike that
I know of. The nearest association
I had with His Majesty was when
I accompanied my father to the
creamery and perhaps witnessed the
act of Ike's father emptying the
cream cans for us, or maybe writing
the check to pay for same.

My mother joined the River
Brethren Church at Abaline. Well
do I remember the little black
bonnets over little white caps worn
by the women. The men wore their
hair long or nearly to their shouldders. As an expression of humility
in their meetings, they washed each
other's feet. I never washed Ike's
feet, and I have no hankering to
kiss them now.

feet, and I have no hankering to kiss them now.

The teachings of the River Brethren are similar to those of the Guakers as to their simplicity of living, and their stand against war. How far afield has Ike strayed from the wholesome influence of his childhood! With America and the world in the palm of his hand, how easily might he accomplish world peace by the simple application of his parents' creed of brotherhood, humility and love.

REPORT TO READERS

1/500th of 1 p.c.

MRS., MISS OR MR. SUBSCRIBER: For the purpose of this argument you are a statistic.

You and each of you have recently received a Springtime letter from the GUARDIAN. It asks your subscription renewal if due; it asks for a small boost for the summer months, in any case. It is something most of you can respond to, even though we know full well that you are singly and severally the most

appealed-to people in America.

Some 50,000 such letters went out. Every 500 responses thus equal one percent of the potential return—and judging by the average content of each response (a \$2 renewal or its equivalent for a summer "boost"), each one percent return guarantees our entire printing and mailing bill for one issue of the GUARDIAN. So you are 1/500th of 1%, statistically, but as mighty as a uranium atom, personally, in the power potential of the GUARDIAN

POTENTIALLY, a 50% response to our malling would guarantee our printing bill for a whole year. Higher than 50% would begin to allow us to expand the paper now, to get it into more and more hands immediately at the basically low subscription price of \$2 a year (less than 4c a week). Even a 25% response would allow us to do these things, but on a shorter-term begin term basis.

OUR LETTER reached you just before the May 30 holiday weekend. It contained a highly visible postage-paid reply envelope printed in deep red on golden maize stock. If you already mailed address label will soon acknowledge this with an "S" or an ex-

tended expiration date.

If you haven't replied yet, we most respectfully but urgently request that you do so this week—today if possible. If you have mislaid the letter we'll send you another, but the general idea is contained in these paragraphs and the material for reply is right over there at the left side of this page, with your addressplate pasted on the front-page side of the coupon.

T WOULD CONFOUND ALL THE EXPERTS if anybody ever evoked a 50% response to a mailing, but there is nothing we put beyond the power potential of the readers of the GUARDIAN. -THE EDITORS

Scanning their faces, I could read the fear written on them—and I thought of the 600 million people who have raised their voices for world peace. I felt the guilt that the dispersing crowds would feel one day. The God of War reigned supreme at the Memorial Day services in America this day.

by the fine character of the man. We mentioned that the GUARDIAN had done an article on his case and he asked for a subscription.

He tells us that the prison authorities are making overtures to him with the offer of a conditional pardon which would preclude any political or trade union activities by him upon release. He says he will not accept a pardon since he has done nothing for which to be pardoned. He says they do not want to commute his sentence for fear he will sue the state. Here is a man who went into prison when he was 26 years old. He is now 46. To our remark that we were surprised he was not bitter or cynical, he replied, "When you enter prison, supposedly for life, you do one of two things—you either become insane or you become a stronger person."

I hope our GUARDIAN readers write to Gov. Douglas McKay, Salem, Ore., urging that Mr. Jordan's sentence be commuted.

TRIESTE, F.T.T.

It has just been brought to our attention that you published in the

GUARDIAN the letter which we sent you from Venice, following our violent and unjustified expulsion from the so-called "Free" Territory of Trieste at the orders of the Allied (read: U.S.) Military Government authorities. We are grateful for y giving our plight publicity, and are sure that the publicity you gave us, plus the splendid support by the organized working class movement of Trieste (including a 15-minute general strike of protest in the biggest establishments of the city) were the deciding factors in making possible our return.

We re-entered Trieste after a month's exile, and there has been no interference. But we have received ample indication from several sources including (1) the vice-consul at Venice, and (2) a letter from Ruth Shipley of Passport Division, Washington was ordered from Washington as additional punishment for the family of an American deportee! To let his people know

MENLO PARK, CALIF.

We were able to get the enclosed letter on the Rosenberg Case into the Palo Alto Times Just the night before William Reuben came out to speak to us in Redwood City.

Several conservative, responsible people in this community have thanked us for putting out the facts and told us this is the first they had known about the Rosenbergs at all. A good many progressives overlook the phenomenon that many decent persons of good will simply skip red-baiting and spy stories in the press, being disgusted with the whole witch-hunt and not knowing what to do about. Therefore they are actually sprised to learn that people are hail or on death row, and glad to be given the facts and to be told how they can help. There has been one fascist-type reply to our letter. For the rest, people have been phoning us and going out of their way to thank us.

If GUARDHAN readers, who know the facts, thanks to your superbreporter, Mr. Reuben, would quietly address themselves to the local press and to individuals of good will, simply stating the facts about victims of Smith, McCarran or the Justice Dept., and show what can be done, they'd get a good response. This is a matter of patience and of trust in the good will and traditional decency of the people.

The State Legislature at its last session had made it a crime for residents one county to solicit signatures on nominating petition in another county. The law requires 200 signatures from each county, a statewide minimum of 25,000. California fights to elect **Negroes and Mexicans**

THE California fight for Negro and Mexican representation crossed political lines, not only in its support but in its candidates.

Jack Berman, exec. vice-chairman of

the Independent Progressive Party, keynoting a recent Los Angeles confer-ence on Negro-Mexican representation, warned progressives against demanding that a Negro candidate be "cast in our political image." Said IPP Congressional candidate Horace V. Alexander, who cross-filed in the Democratic primaries but stayed out of the GOP race because another Negro (Fred Roberts) had filed:

"Negro representation is not something a political party just dreams up. It's a reflection of the deeds and demands of the Negro people today. And the question here is, to what degree are the white people prepared to support the program for Negro representation."

The conference, called late last month by 25 trade union, Negro and Mexican leaders, pledged support to

NEW YORK: In N.Y. City the political machines geared themselves for a gang-up on Vito Marcantonio, American Labor Party state chairman, the only voice in Congress to denounce the Korean War. Marcantonio was defeated two years ago by a Democratic-Republican-Liberal coalition and a deft gerrymandering of this district, New York's 18th. The winning gang-up candidate was Democrat James G. Donovan, who in office has such an unbroken record of extreme reaction—including militant support of aid to Branco—that the Liberals have withdrawn support, though leaving the way open for an eventual return to the gang-up.

The stakes in the steel dispute

AT the White House representatives of steel producers, of the CIO Steelworkers, and Presidential aide John R. Steelman talked. Around them great pressures were building up: from the 600,000 steelworkers on strike and the shut-down mills, from Congress eager to use the strike to toughen antilabor laws, from election considerations, from the U.S. economic picture closely affected by steel.

In House and Senate hoppers were bills to outlaw nation-wide bargaining,

limit or ban strikes outright. The Senate was debating a move to force Truman to use the Taft-Hartley law against the strikers when majority leader Sen. Ernest W. McFarland (D-Ariz.) interrupted with a bulletin:

A settlement was near.

How near or on what terms was unrevealed. Whatever the settlement, revealed. Whatever the settlement, these were the issues for the workers, the companies, the administration and

STEELWORKERS: For them the reasons for the strike were simple. One third of them in the North had been getting \$1.31-\$1.51 an hour (10c less in the South). The nation-wide average in U.S. Steel, for example, was \$1.41. The Bureau of Labor Statistics estimated that for a "modest but adequate" budget a family of four must get \$79.46 a week-59c an hour more.

Last November workers chalked on factory walls their demand for a 30c raise. The Steelworkers' Philip Murray opened talks by whittling this to 15c.

To support that demand plus other benefits, the union scheduled a strike Dec. 31, 1951, postponed it to January, then February, then April. Meanwhile the fight had turned into a lawyers' battle before the Wage Stabilization Board, which finally turned up a compromise "package" of a 12c raise with other benefits. The union accepted. Management rejected. The President seized the mills, sought to raise wages up to the WSB compromise. On June 2 the Supreme Court ruled that seizure illegal and the union, six months after it scheduled the strike, finally tested the issue on the picket line.

MILL OWNERS & GOVERNMENT: MILL OWNERS & GOVERNMENT:
They saw the strike differently. Steel
had been doing well: the 20 top producers' after-tax profits were \$156,000,000 in 1939, \$1,803,800,000 in 1951.
But, according to CBS commentator
Bill Costello (5/11), big-business planners several months ago foresaw slack
markets and favored a policy of refusal markets and favored a policy of refusal to negotiate with labor, provoking strikes which would automatically curtail production, restoring shortages, boosting prices.

There was no steel shortage as the strike began, but the Journal of Com-

merce (6/3) commented:

If the strike should last for several weeks, consumers who have not been easily frightened by talk of shortages . . . might finally be swayed into a new rash of scare buying.

CBS' Costello said the Truman Ad-ministration had a different formula -better geared to an election year-for

staving off a slump: appropriate \$7.9 billion for foreign military aid to revive dwindling export markets; resist cuts in arms funds, perhaps boost them to bolster domestic production; make in-stalment buying easier.

IT'S WORKING: The two formulae were both working last week for inflation. While the strike cut production and, in the absence of controls, pointed to higher steel prices, the Administration's policies to stimulate purchasing power (on easy terms) and demand were taking effect.

On June 1 General Electric reported retail sales of its major appliances up 24% from April, 25% from May, 1951,

and explained:

Reports from the field indicate the suspension of down-payments and installment regulations by the Federal Reserve Board has played some part in the improved sales picture.

Autos, construction, shoes and some textiles showed similar trends.

AIDS TO INFLATION: War crises in Germany and Korea coincided signifi-cantly with the Administration's efforts to beat down Congressional pressure for tax cuts and economy. Congressional conferees agreed on a foreign aid authorization of \$6.4 billion—nearly \$1.5 billion less than Truman asked, but well above the current spending rate.

The Administration hurried inflation along by lifting ceilings on many packaged food items. Since Jan., 1951, when price control began, wholesale prices fell 2.7% but retail prices rose 4.8%. Under government regulation food processors

and traders had upped their margin of profit 7.5% of the product's value.

The customers have already felt that rise. The BLS Consumer Index jumped 1.2 points in April; the May figure was certain to be higher. Last May Business Week, forecasting production and price booms for the last half of this year.

The U.S. economy still has at least one more thrust of inflation in its system.

Ike backs 'Mother' and GOP reaction

(Continued from Page 1)

[Eisenhower] is not the Democratic nominee.") Eisenhower's stand on the Taft-Hartley Act and parity farm price supports:

"We have got to find a way, a means of respecting the advances labor has made.... How can labor prosper unless the farmer and the investors and all the rest prosper?... We've got to find some way of bringing these people together... And we've got to work on it like dogs."

"When you talk to me 75%, 85%, 95%, gentlemen, I don't know... Certainly it's in the public interest that we have a prosperous agriculture. Besides that my heart is with them."

"DOWNRIGHT RUBBERY": Eisenhower went out of his way to disclaim any connection with FDR and the New Deal, denouncing any such tales as "absolutely a shibboleth—there's no such thing—none." Columnists gave their best adjectives to his personality: the N. Y. Times' astute diplomatic correspondent James Reston, evidently the processor to the procesor to the processor to the processor to the processor to the proc uneasiest reporter in Abilene, concern-trated on the general's "easy grace . . . expressive face and hands . . . re-strained toughness that appeals to the intellectual and worker alike." Stewart Alsop, fascinated by the general's face

"so mobile as to be downright rubbery'—said that though some might think his speech contained "a good many kernels of corn...somehow word rang true."

Presumably oriented by the best po litical brains big business can buy, the declarations seemed to show extraor-dinary Wall St. confidence in the effectiveness of five years of fear- and hysteria-promotion, on the brains of a nation consistently voting for progressive programs through two decades of Presidential elections. The general blandly referred to the GOP "liberty vs. socialism" statement of black reac-tion in 1950—which even Dewey and sen. Lodge criticized as too extreme on some points—as the basis of his philosophy. For a "man-on-white-horse" candidate, Eisenhower's demagogy seemed feeble by comparison with that of Taft, who for all his chill personality had said almost the same thing (nothing) a few days earlier far more racily. Taft was reported happy because Eisenhower "sidestepped the issues."

(German militarists applauded Taft when, in an interview widely published in Germany last week, he said he was "against the Nuremberg trials" and the "provisional award" of East German lands to Poland, and that he "would have armed the Germans long ago.")

DEMOCRATIC HAY: Meanwhile "liberal Democrat" Gov. Stevenson of Illinois was reported saying he would "feel compelled to respond" to a draft (Robt. S. Allen, 6/6); and Presidential candidate Averell Harriman made hay with a CIO delegation whom he told that he favored T-H repeal and continued price controls opposed McCarthyism price controls, opposed McCarthyism and giving tideland oil to the states, approved Truman's steel-mill seizure.

Stevenson's, Harriman's and Kefauver's support of the Republicart war policy made their domestic promises hollow; but Democratic contenders had not forgotten how specific progressive promises which could not be kept had won the pennant as a "lesser evil" in '48. As a further corruption scandal broke over the Administration, involving half-billion-dollar war-contract swindles and three of the President's close associates, Truman himself calm-ly dropped a trick to the GOP: he accepted an invitation to week-end with J. Howard McGrath, whom he had to oust as Atty. Gen. in April in a scandal that is prime GOP meat this year.

C. B. Baldwin, Progressive Party secy., had this to say about Eisenhower's

To the millions in Labor who are fighting to retain their standards of living; to

minorities who demand real civil rights;
to the millions of our elderly citizens who

fathers of America who want an end to
the senseless war in Korea and the drafting of their sons and the reduction of the

intolerable burden of taxes—to these mil-lions of voters the general has offered up a dish of platitudes. Mr. Dewey's favorite son makes it clear that he will continue the discredited war policies of the Truman Administration.

Alain Verney (Tribune des Nations, 23) commented from London that while on the divide-and-rule basis permanent division of Germany would be good for British steel and chemical trusts, it would "multiply the German peril" not by two but by ten. German Social Democratic leader Schumacher "raised the specter" that Bonn policies would lead to complete militarization

"would lead to complete militarization of East Germany" (NYT, 6/3).

In France, Gen. de Gaulle attacked the "soulless system" of the European Army and declared

Gen. Eisenhower spelled it out when he said (NYT, 6/4) the ground forces were needed to prevent "subversion, bribery, you might say, the stealing of the countries in which we are con-cerned other than outright assault"— a typical paraphrase for colonial revolts, strikes, protest demonstrations against a government's current policies.

PUMPKIN FOR FRANCE: The American army now in occupation of France continued to train for "defense against Red invasion" as the govern-ment of Vichyite Pinay arrested trade unionists and maintained mobilization of a 40,000-strong armed force against strikers. While the commercial press described as a "fiasco" the "general strike called" for June 4 in Paris, the Daily Worker's top correspondent Joseph Starobin reported from Paris that while no general strike was called there were strikes in 974 plants, involving 100,000 workers, protesting the arrest of Jacques Duclos and some 160 other leading Communists. The French CP's Humanite (6/2) charged that Duclos arrest and the raids on CP offices were ordered by the U.S. State Dept. In this connection the Worker's Rob F. Hall noted from Washington (6/3)

. . . the secret mission to this country undertaken last month by Jacques Baylot, prefect of police of Paris, [who conferred] with the FBI, the Justice Dept., and with George F. Monaghan, N.Y. Police Commson.

The coaching seemed to have been helpful. At the week-end the French Interior Ministry produced its "pumpkin papers"—"documents affecting the national security, found in a chicken house" (NYT 6/8); launched new raids and arrests in Toulon, Brest, Lorient, Bordeaux and Mers-el-Kebir in Algeria; arrested the political editor of Paris' Ce Soir for "inciting to violence."

Lie & HST are 'anxious' about Rhee terror in Korea

ROM Harry S. Truman President Syngman Rhee of South Korea received a "strong note" (NYT, 6/7) after he had ignored an Assembly resolution to countermand Rhee-imposed martial law, arrested 11 Assembly members, and law, arrested 11 Assembly members, and threatened to kick UN's commission out of the country. He replied that he would only disband the Assembly as a last resort. UN Secy.-Gen. Lie, who cabled Rhee expressing "deep anxiety," was accused by a Rhee spokesman of evaluating the situation "arbitrarily, on the basis of second-hand reports"; the spokesman insisted it would be shown that the arrested Assembly members were involved in a "Red plot."

British Defense Minister Alexander and Minister of State Lloyd arrived in Tokyo for a 7-day Korea-Koje Island tour "to study at first hand military and political developments" (Reuters, 6/4). In Australia External Affairs Minister Casey told the House he had "expressed concern at recent political events in South Korea" to Rhee. Canada's Premier St. Laurent also "expressed concern." The Washington Post (6/4) said Rhee had created a "virtual police state." In the Nation (6/7) editor

Freda Kirchwey wrote:

The three, all progressives, were dropped without charges, hearing or trial, but hospital officials acknowledged privately the reasons were political. Dr. Richard Lippman, one of the three, a top specialist in his field, has been barred from the hospital since his dismissal even when called by attending physicians; two patients he was not permitted to examine died. By the hospital's action he also lost a \$12,000 research grant from the U.S. Public Health Ser-vice and other grants exceeding \$13,000 a year. The Civil Rights Congress, Oct., 1949. The Civil Rights Congress, which is defending him, and other investigators have called the charge a frame-up. A first conviction was reversed by the State Supreme Court in a 6 to 1 decision; a second trial ended in a hung jury, 7 to 5 for acquittal. An all-white jury sits in the current trial. Christiani protest mounts

N New York City public protest sizzled over the fatal shooting May 10 of Enus L. Christiani, N. Y. University Ne-gro student, by an N. Y. U. guard dur-ing a student fund-raising affair after Christiani protested a caricature of a Negro woman set up as a dart-throwing target. Student and community leaders charge that NYU's administration "encourages racist thinking," point out that the armed guards are all white, the employment policy is jimcrow, there is discrimination against minorities in the student body. The DA's of-fice said it had received hundreds of protest letters and telegrams; delegations representing many organizations demanded prosecution of the guard; scores of civic groups urged action.

Last week the DA's office sent the case to the Grand Jury, announced that at least 25 witnesses will be heard, urged others to appear. (The Christiani killing is the most recent of a long series; a recent report on U.S. civil rights in 1951 jointly issued by the American Jewish Congress and NAACP listed N.Y. City and Birmingham, Ala., as scenes of greatest racist violence).

COP ON TRIAL: In nearby White Plains, N. Y., white ex-cop Stanley La-Benskey was on trial for first-degree murder (changed from second degree after public protests). He shot and killed two Negroes March 19 after protesting their presence in the same Yon-kers tavern with him. The prosecution offered testimony that LaBenskey's active prejudice against Negroes is well-known in his neighborhood; the defendant himself admitted drinking heavily the night of the shooting. The jury is all white.

ENGLISH IN DANGER: From Trenton, N. The Civil Rights Congress urged demands upon Gov. Alfred E. Driscoll for an immediate pardon.

FREEDOMS Cicero police chief guilty; Calif. drowns race hate project

JEAN FIELD AND SON Again - No!

"If we adopt repressive policies at home—curbing speech, persecuting people for their political creeds, being suspicious of anyone who is not thoroughly orthodox in his views—then we are in for trouble abread."

Supreme Court Justice Douglas, June 3, 1952.

TROUBLE abroad grew as repression rampaged at home. But amidst the gloom of Smith Act trials, bombs hurled gloom of Smith Act trials, bombs hurled at Negro homes, KKK cross burnings, threatened extradition of Negro fugitives back to Dixie justice, punishment of politics by passport denials etc., there were at least two bright spots: in Chicago the police chief of Cicero, Ill., and three others were convicted for their parts in the three-day riot of last July; in Los Angeles a well-acked attempt to legalize race discrimination was defeated. nation was defeated.

Erwin Konovsky, top cop of all-white Cicero, and two members of his force were found guilty by a federal jury of conspiring to keep Harvey E. Clark Jr. from moving into an apartment, and of depriving him of his civil rights by refusing to protect him and his property against rioting mobs. Clark had testi-fied the cops themselves threatened him and sided with the rioters. The recommended maximum sentences: the four are liable to a year in prison and a \$1,000 fine on each count.

In California last winter State Sen.

Jack B. Tenney said his "America Plus, Inc." would raise \$75,000 and collect 300,000 signatures for a ballot initiative to guarantee the right of proprietors of public places to choose their patrons and tenants, and of employers to re-fuse jobs because of race or religion. Last week the Calif. Committee for Hu-man Rights, set up to fight the measure and composed of AFL and CIO leaders, announced Tenney's campaign a dud because of effective opposition.

HEARING FOR DOCTORS: There were developments in three other California

Act trial outlaws opposition party **Baltimore Smith**

N defending the "constitutionality" of witch-hunt laws the government has repeatedly stated it has no intention of outlawing the Communist Party; the McCarran Act specifically provides that the requirement of registration of CP membership "is not to be construed as a requirement for furnishing evidence of the commission of a crime." But last work the Self-Defence Committee of week the Self-Defense Committee of the Baltimore Smith Act Defendants (2705 Parkwood Ave., Baltimore 17, Md.) sent out an appeal and a warning pointing out that the outlawing of their party was what in effect had been 'legalized' in their case.

As the first "second round" Smith Act defendants to be convicted (April 1, 1952), their case has unique features. The trial was raced to completion in three weeks. The appeal is being simi-larly rushed; defense briefs were due to be filed this week, oral argument set for early July before the Fourth Circuit Appeals Court sitting in Asheville, N.C. The three defense lawyers in the trial who for various reasons are able to work on the appeal in a limited capacity or not at all—protest that proper preparation in that time is virtually impossible. Dr. Royal Wilbur France, for 23 years a faculty member of Rolfor 23 years a faculty member of Rol-lins College in Winter Park, Fla., who agreed to join in arguing the appeal, faced the task of studying a 2,690-page trial record and some 74 lengthy ex-hibits (books, pamphlets, documents) in less than a month.

(Dr. France, in a letter dated Jan. 14 Smith Act trial attorney disbarred and jailed for his defense, had written:

Although I abandoned the active practice of law a number of years ago in favor of the more or less cloistered life of a college

Herblock in Washington Post "Drop in any time."

professor, the trend in American life represented by your disbarment is leading me to consider an early return to the active practice of law. More and more, I fear, younger members of the bar will be intimidated by contempt and disbarment proceedings against lawyers who defend vigorously unpublic repress in pouplar causes.)

"FATAL VARIANCE": The appeal is additionally complicated because the Baltimore case raises vital new issues of law absent in other Smith Act trials and not contained in the Supreme Court decision upholding the 1949 convictions; in a memorandum the defense speaks of the

... fatal variance between the indictment on the one hand, and the proof and charge to the jury on the other.

The fatal variance: the defendants were charged with one thing—conspiring to teach and advocate overthrow of the government by force, and to organize the Communist Party for that purpose—and tried and convicted of another: membership in the CP, a charge not contained in the indictment. (In the original 1949 trial the defendants were indicted for membership but not tried on that charge; the indictants are till reading contained. indictments are still pending. Constitutionality of that section of the Smith Act has never been tested.)

YOU CAN'T JOIN THAT: Trial Judge W. Alvin Chesnut is specifically blamed:

W. Alvin Chesnut is specifically blamed: the "trial court fatally misconstrued the indictment." The memo adds:

The theory of the case as it emerged in the trial and as it was presented to the Jury was a theory evolved by the Judge, because only upon this theory could the evidence be rendered relevant and a conviction made certain. . . [His] charge to the Jury . . [was] that it could find the defendants guilty as charged if it found that the CP taught and advocated illegal doctrine and that the members were members knowing its purposes.

The defense contends that the trial

The defense contends that the trial was based on guilt by association:

As this case has been tried, individuals have been convicted for books circulated, conversations held, doctrines taught by individuals unrelated to the defendants, and wholly removed in time and place from them. Virtually all of the evidence in the case is hearsay of the most flagrant kind.

.. The effect, the purport, the necessary implication of Judge Chesnut's decision is to outlaw the Communist Party.

In its appeal and its warning, the

Self-Defense Committee wrote:
Unless reversed, our conviction pushes still further this dangerous encroachment on the democratic freedoms guaranteed by the Bill of Rights.... The broadest kind of publicity, and the widest expression of opinion, are needed to halt this threat to freedom.

Motion for new Hiss trial argued in N.Y.

. . Dismissed from a navy chaplaincy for bad conduct, he joined . . . in the effort to unearth imagined Jesuit plots, and, posing as a Roman Catholic, was twice expelled from Jesuit colleges for scandalous conduct. In 1678 he forged the evidence of what purported to be a Jesuit plot to assassinate Charles I. . . The "Popish Plot" then became a f.enzied investigation that culminated when Oates accused the queen of high treason. The populace, in great rage, killed numbers of Roman Catholics without mercy, but gradually the panied diminished. Oates' charges were disproved and, after the accession of James II, he was tried and sentenced for perjury.

John Dryden on the "Popish Plot" in "Absalom & Achitophel," 1681.

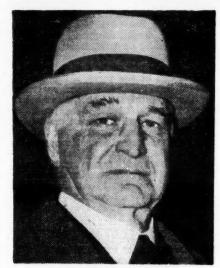

N the latest chapter of what future historians may call the 20th century version of Titus Oates's "Popish Plot" hoax, the new-trial motion of New Dealer Alger Hiss—convicted in 1949 of perjury for saying he never passed State Dept. papers to self-labeled ex-spy Whittaker Chambers—was argued before Judge Henry W. Goddard in New York last Wednesday. Said Hiss' attorney Chester Lane:

"What our [new] evidence sums up to is that Chambers' entire case against Hiss is a fraud. . . [It] so completely destroys the Government's case that a new trial would inevitably bring about an acquittal."

Thirty spectators were in the courtroom as he began. In such typical organs of the U.S. press as Hearst's urnal American and the N.Y. Herald Tribune, not a word was printed of what Lane said in his hour-long argument or of the three affidavits on which his motion was based. Lane's new-trial motion contends (GUARDI-AN, Mar. 12, 19) that Chambers's testi-mony was so "riddled with inconsist-encies" that conviction of Hiss was "inconceivable'

or the apparent corroboration furnished by the Baltimore Documents [State Dept. papers Chambers said Hiss gave him] and the testimony of Edilh Murray supporting the Chamberses' story of social relations between the two families.

"INGENIOUS FORGERIES": Lane said the defense had witnesses who would testify that the typewriter in evidence at the two Hiss trials was a "fake ma-

chine"; that Edith Murray's testimony had no other reality basis than that "she had been educated over a period of weeks by conferences with the FBI Chambers"; and that Chambers being a "Communist espionage quit being a "Communist espionage courier" at least a month before the date of the last Baltimore Document.

The Justice Dept., whose obstruction at every step of his efforts to get evidence was described by Lane in his affidavit, had finally obeyed a court order to let Lane inspect the Baltimore Documents themselves. Lane said his ex-"devastating" findings prove that they

. . . were not typed by Priscilla Hiss [as Chambers testified], or by any one person. They were not given to Chambers by Alger Hiss. They were not put in the envelope and kept in the dumbwalter for ten long years. They are ingenious forgeries."

"NO EVIDENCE": When the Government's turn came, U.S. Atty. and former Dartmouth All-American football player Myles Lane spoke solemnly:

"If I saw anything in Chester T. Lane's affidavit to warrant a new trial I would be the first to suggest a new trial.... This motion is frivolous... sheer speculation... [just like the] pre-trial propa-

ganda of the defense attempting to deplet Chambers as a social leper. The jury found that Hiss was a llar, a perjurer and a Com-munist spy and no evidence to the con-trary has been produced..."

The fake-typewriter argument was "irrelevant," he said, because the gov-ernment expert did not identify the machine itself but only specimens known to have been typed on the Hiss-es' machine when they had it, which he said came from the same machine as the Baltimore Documents. Even sup-posing it was fabricated, "the soundness and completeness of the Government's evidence is not affected one

As for the documents being forgeries, the U.S. Atty. offered three FBI agents' affidavits that they weren't. The defense affidavits that Edith Murray never worked for the Chamberses at either of the two addresses she named would "at best serve only as attempted impeachments" of her testimony and would not warrant a new trial. Concerning the authors of these affidavits, the U.S. Atty. offered sworn statements that one had been away from home too much to know, and the other had had many jobs, lived in many places, been convicted for discharging a firearm and violating the prohibition act, and "has had two wives and one mistress."

(Chester Lane interpolated that, solely concerned with searching out the truth, he had made long but vain efforts to find someone else to prove that Edith Murray did work for the Chamberses; the Government, with "resources 10 to 100 times as great," had widently not been able to find such a evidently not been able to find such a witness either or they would have shown it.)

GRIMM-OR? The Government called "irrelevant" defense affidavits showing Chambers had quit "couriering" before the date of the last Baltimore Docu-ment (April 1, 1938), because Cham-bers's statements fixing the time of his "break" were "obviously approxima-tions." (Chambers had sworn seven times, before Hiss sued him for libel, times, before Hiss such him for liber, that he quit in 1937.) Anyway, said the U.S. Atty., this was "a collateral matter," and any idea that all of the new evidence would cause a jury to acquit Hiss was "inherently absurd." The U.S. Atty. concluded:

"Mr. Lane has made out nothing even re-motely resembling an argument. . . . [His argument was] the most fantastic thing I have ever listened to. It resembles a com-bination of a Grimm's fairy tale with a Rube Goldberg twist."

From 73-year-old Judge Goddard came one interruption during the twocame one interruption during the two-hour proceedings, when he asked Ches-ter Lane what kind of "proofs" he had that Chambers could have "himself" fabricated a typewriter in three months when the experts required 18. Lane, pointing out that "my experts could do it again in a few weeks," offered the suggestion that Chambers might have suggestion that Chambers might have suggestion that Chambers might have met skilled forgers through his "con-tacts with the Communist under-ground." The U.S. Atty, pointed out that "the Soviets" whom Hiss was "proven to have assisted" would hardly "proven to have assisted" would hardly have helped Chambers. Previously in the hearing he had contended there was "no credible evidence" offered to explain Chambers's motives for framing Hiss, nor to explain how he could have obtained the documents if not from Hiss—which "makes the whole defense contention ridiculous.

THE MOTIVE: How to explain these points was indeed the weakness of the case—otherwise overwhelmingly strong to any objective person—presented by correct, blue-blooded, Harvard Law School Chester Lane. For only two explanations were possible: either that Chambers was not a liar, or that the famous case which laid the major domestic foundation-stone for the cold war was deliberately concocted by the U.S. government itself. And this charge—though all the facts pointed to it—Chester T. Lane could not bring himself to spell out.

The judge, looking austere and doleful, said: "Adjourned,"—without indicating whether he would grant a new trial or even let the defense produce its experts and other witnesses at a hearing. Meanwhile Whittaker Chambers witnesses at a hearing. bers climbed toward his second \$100,000 of profits from his "confessions" of how he came to "give up a secure future to haunt the ruins of his own life;" Hiss, ruined by headlines and fabulous court costs, continued in jail; and the nationbankrupting juggernaut of the cold war against the people rumbled on.

BOOKS When Pharaoh was in Polish land

By James Aronson

N APRIL 29 in New York the 0 Polish ambassador to the U.S., Jozef Winiewicz, spoke at a meeting commemorating the ninth anniversary of the Uprising of the Warsaw Ghetto in which thousands of Polish Jews died in a last heroic defiance to human bestiality. He

"When the Jewish child stood like a glant and with gun in hand discha ged the pure words of resistance, when the ghetto mother tossed the grenade that spoke her courage, when the ghetto father sent down a hall of fire from the rooftops—we knew then that these latter-day Maccabees were writing another glorious testament to life, to the victory of life over the forces of death. The valor and gallantry of the ghetto fighters have not been in vain. Out of the ruin of war, a New Poland is being created with a richer and better life for all..."

Two days later a book was published, perhaps by coinci-dence, which told the story of some earlier-day Maccabees, unsung and probably not knowing-most of them-that they ing—most of them—that they were in the mainstream of twentieth-century history. The book, A Lantern for Jeremy by V. J. Jerome, tells its story through a 9-year-old boy—the story of a little Jewish community in a Polish village just before the 1905 revolution in Russia. It is a story that really is a prelude to the Warsaw Ghetto and the New Poland that is rising out of its rubble.

A HUMAN STORY: This is a tender and deeply moving book. It probes sensitively to the heart of a people, shows their bitterness and their humor, their abiding faith and shack-ling dogma, their rasping in-equality and their groping for brotherhood. The book, described as a novel, at first appears to be a series of vignettes; but as it is read it flows into a whole piece skillfully put together.

The Jewish community comes to life in rich characterization, but the people are never idealcaricatured so that ized or they lose their human quality

cher. And Jeremy saw them all. saw them with his bright, curi-ous eyes, his wondering mind, his innocence and his painful awakening, his thousands of questions, so real, so burning, so terribly important. Jeremy is a beautiful little human being and Jerome has given him fe with rare sensitivity.

Through all the pain, the

biting humor, the bigotry and ignorance there runs a note of hope and struggle that reaches a climax as Jeremy is about to set out for London and a new world of wonder. Frimmet expresses it through her tears at her beloved Yanek's grave:

er beloved Yanek's grave;
"We stand by your grave, Yanek,
but we do not say the Mourner's
Prayer. We clench our fists and
call out a curse on those who put
axes in the hands that cut down
such a young and beautiful tree.
A curse on those who divide Jew
from Gentile and brother from
brother!"

FOLEY SQUARE & VOKYRTS: There is a classic irony that such a gentle book should appear even as its author sits in the defendant's dock in the Federal Courthouse in Foley Square and listens to the testimony of the toad accusing him of conspiring to overthrow the government of the U.S. by force and violence. One reads V. J. Jerome's book, then looks on Foley Square and realizes that we in America are not far removed from the mad pogrom makers of Jeremy's village of
