What will America be to him?

For this child and for 15,000,000 Negro Americans 1952 may be a year of decision. All over the nation the Negro people have put up the "No Sellout" sign as a warning to the two old parties. And a new party—the Progressive Party—is offer-ing an alternative. See story on this page.

Even before these predictions there were 3,000,000 Negro votes to be reck-oned with in a Presidential year: oned with in a Presidential year: 2,000,000 in the North, 1,000,000 in the South (though two-thirds of America's

In normal years, according to poll-taker Elmo Roper, "... in the North Negroes vote in higher percentages than the population as a whole." [62% of Northern Negroes vote; 15% in the South.] Clearly it is no myth that it is possible for the Negro vote to swing a close election.

THE BIG QUESTION: Yet, in face of this, both Republicans and Democrats this year made it harder than ever for a Negro to support either party. Both platforms scrupulously avoided advo-cacy of an enforceable FEPC. Both Vice-Presidential nominations cause consternation among Negro political leaders.

When FEPC was before the House in 1950 Republican nominee Nixon voted against it. In the Senate Democrat nominee Sparkman voted to continue

the filbuster that killed it. Would 1952 see Negro voters seeking new directions? That was a key question for progressives.

HOW THE GAME WORKS: Franklin D. Roosevelt shattered the Republican D. Roosevelt shattered the Republican Party's hold on Negro sympathies dating to Lincoln's time. It means nothing to me; it's costing me money. But I am the only same Infperialist left." In England and France there were

In England and France there were many last week who would agree: Englishmen and Frenchmen were threat-ened with more cuts in their living standards, Americans with more battle fields, as the European financial crisis deepened. Strained by excessive arms spending and by East-West trade barriers, British dollar and gold reserves fell from \$3,867 million at the end of June, 1951, to \$1,685 million in June, 1952. French losses were nearly as severe.

MORE OF SAME: Last week Prime Minister Churchill and Chancellor of the Exchequer Butler presented to Parliament (see Schaffer, p. 3) the much-advertised measure to "save sterling" by cutting imports and armament by cutting imports and armament spending; they were virtually the same

A tug of war between Washington and dependent capitals over East-West trade opened up on two new fronts last week. The State Dept. began a private Far East trade conference July 29 in Washington to tighten the embargo on trade with China. But with Britain, France, Canada and Japan involvea, there will be pressure in the other direction. Taaichiro Matsuo, Japanese government trade official, said Japan will seek "adjustment if not relevation will seek "adjustment if not relaxation of the ban on trade with China at the conference." REPORT TO READERS The Times, Adam Powell and the Big Blackout

N THE LAST WEEK, two ultra-significant incidents have occurred which demonstrate with real force the argument pre-sented in these columns over the last four years for building a

progressive press. • The Natl. Urban League, one of the two most influential Negro organizations in America, on July 28 held a meeting in New York to which it invited representatives of the Democratic,

Progressive and Republican parties to speak on their respective platforms on civil rights. The N. Y. Times, certainly the most respected newspaper for completeness and objectivity in the view of the American public covered the meeting thoroughly, but reported to its readers only the views presented by the Republican and Democratic spokesthe views presented by the Republican and Democrate spores-men. The Progressive spokesman was Earl Dickerson of Chicago, president of the Natl. Lawyers' Guild, and certainly one of Chi-cago's top 25 citizens from any point of view. Mr. Dickerson's views were not reported, nor his presence at the meeting even mentioned. (See p. 5 for Mr. Dickerson's presentation.)

This is unmistakeable prevention of opportunity for public examination of the only positive civil rights program before the voters of America in the 1952 elections. It is, in short, deliberate blackout.

• On Aug. 3 Rep. Adam Clayton Powell (D-N.Y.) called a meeting of his constituents to protest the defection of the Demo-cratic Party on civil rights, as well as that of the Republicans. Because of the press censorship against the Progressive Party

and its program Mr. Powell was able to urge as the only alterna tive a boycott on the Republican and Democratic Presidential tickets unless positive civil rights commitments were forthcoming.

Mr. Powell's audience had little or no way of knowing through the commercial N.Y. press that there is a positive civil rights alternative before the 1952 voters, in the Progressive Party platform; and that the candidate embodying in her very person and career the platform Mr. Powell wants is Mrs.*Charlotta A. Bass, Progressive Party candidate for Vice-President. Mr. Powell did not mention Mrs. Bass' candidacy.

THE READERS OF THE GUARDIAN can break through this press blackout if they will, and on page eight of this issue we offer the means

The GUARDIAN believes that the candidacy of Mrs. Bass is the single most important candidacy before the American voters in 1952. We intend to continue our policy of giving the fullest presentation of the platform on which she stands, with her vali-ant running mate, Vincent Hallinan.

WILL IT BE THE 1931 COALITION AGAIN?

Britain heads to a crisis on arms and wages

By Gordon Schaffer **GUARDIAN** special correspondent

LONDON ON the evening of July 8 the sedate calm of the House of Lords was shattered when Lord Blackford declared that Britain's arms expendi-ture was "completely ruinous."

Lord Blackford is practically un-known to the general public, but he is one of the recognized spokesmen of the City of London (Britain's Wall Street) and exerts tremendous power.

To him and to others in the City who are not sharing in the big re-armament profits, the demands by most of the trade unions for increased

most of the trade unions for increased wages are causing great anxiety. In his July 8 speech he said: "The trade union workers of this coun-try answered Mr. [Chancellor of the Ex-chequer] Butler's proposals with regard to food subsidies by instantly putting in for large increases in wages totalling 500 million pounds a year if they are granted in fuil. If those wage demands are granted, then the inflationary spiral is bound to go on and lead to final ruin.

Dyad in Daily Worker, London "Lie down-we buried you once."

This is the crucial moment at which the workers of this country have to make a decision as to whether they will con-tinue to press in that fatal direction or whether they'll accept the small increased cost of their food, do away if necessary with one of two of their luxuries in order to meet it, and determine that while we are faced with this ruinous rearmament expenditure they will not demand any

eign policy platforms of both the Re-publican and the Democratic Parties, Frank L. Howley, former U.S. com-manding general in Berlin, declared during a visit there that the U.S. ...should abandon its "containment" pol-key towards Communism and think of lib-erating the people of Eastern Europe" (NYT, 7/30).

Offering recruits for Howley's liberation movement. Erich Mende, an influential Free Democrat (President Heuss' party), said

"., many German war criminals have been imprisoned for acts that . . . were no different from those committed by United Nations troops in Korea."

Dr. Mende recommended immediate release of 1,466 prisoners because, as Lt. Gen. Heusinger and Lt. Gen. Speidel, architects of the new German army, have stated:

It will be impossible to recruit desirable officers for West German military contin-gents unless a substantial number of war criminals are released from Allied jails. (NYT, 7/25).

chau, Frankfurt, Germany OLYMPICS, 1952 The NATO free-style

Gordon Schaffer's article was writ-ten before last week's Commons debate in which Prime Minister Churchill in which Prime Minister Churchill asked for what he called a "reshaping" of the arms program in the light of his "new assessment" of the world situa-tion to prevent it from becoming "utterly beyond our economic capacity to bear." Bevan declared that Church-ill of leaf had caught "a climpte of last had caught "a glimpse of the truth.'

further increase of wages."

further increase of wages." "COMPLETELY RUINOUS": Black-ford said he had all along agreed with Aneurin Bevan on rearmament: "I have always though that the present expenditure on armaments is completely ruinous. It will ruin all the countries of the world unless we can find some way out of it. But both parties are agreed at present that we cannot reduce the expenditure on armaments. It is only Mr. Bevan who is attracting to himself an increasing following, who argues in the opposition direct."

Lord Blackford was followed by Lord Balfour of Burleigh, chairman of Lloyds Bank, who asserted that the British people must face even some further cut in their standard of living. "The stark truth," he said, "has to be told to the people."

TORY ECHOES: Significantly, on the same July 8, Arthur Deakin, Transport Workers leader, urged the miners' an-nual conference to "restraint" in wage applications.

The virtual coalition between the Tories and right wing Labour and trade union leaders in foreign policy thus reaches its inevitable sequel-a coalition in domestic affairs.

DO OR DON'T: But these leaders are caught in their own contradictions. Their support for Tory foreign policy and the vast arms expenditure means they cannot at the same time demand higher wages for their members—and they are being pressed hard. Several Labour peers tried to solve

this dilemma by inviting the govern-ment to bargain for a coalition policy: the government would drop contro-versial measures like denationalization of steel and road transport; in return Labour would co-operate in working out solutions for the economic crisis. Since there was no suggestion of a genuine change in foreign policy or rearmament, such a move could only mean a joint attack on the standards of the working people, on the lines of the 1931 "National" government.

Moreover, Butler has already indicated that his steps "to maintain con-fidence in sterling" will mean further rises in the cost of living before the autumn crisis, when negotiations for something like half the organized workers end: railwaymen, metal and shipbuilding workers, miners, building workers. These applications are likely either to be refused or met with so small an offer that the union leaders will not dare to accept.

THE STARK TRUTH: When this point is reached, the workers will be told that the country simply cannot afford any further wage increases and that strikes will precipitate disaster.

Some trade unions have already begun to realize that wage increases are tied to a solution for the economic erisis. The railwaymen and metal workers (the Amalagamated Engin-eering Union) have declared for a reduction in the arms program, five-power peace talks and an extention of East-West trade. The miners, however, while asking for East-West trade, have reaffirmed by a majority their support for the arms program.

The right-wing union and Labour leaders halled the miners' decision. They believe that when block votes are cast at both the Trades Union and Labour Party conferences in the fall, the miners' vote of 600,000, coupled with the 2,000,000 votes of Deakin's Transport and General Workers, and

Daily Express, London "Let us eat, drink and be merry, Sir Algernon, for it's here today and gone for export tomorrow!"

the right-wing Municipal and General

Workers, will secure a narrow ma-jority for Attlee. Block votes—the method by which a union casts a vote on behalf of its whole membership—can be very useful in securing paper victories. But it is doubtful whether paper votes will stem the growing opposition.

The economic situation is worsening more quickly than Churchill expected. Britain is being called upon to settle in gold for her debts in Belgium and Western Germany. There is no sign of increase in Empire trade and the Americans maintain their embargo on trade with the East.

NOT 1931 AGAIN: In 1931 the bankers and politicians persuaded the peo-ple to accept reductions in wages and in social services to meet the economic In social services to meet the economic crisis. Today if such an attempt were made millions would demand, not cuts in wages, but reductions in arms ex-penditure, and trade with the countries anxiously to buy British goods.

That is the dilemma which neither party to the "coalition" has been able to solve. And British workers are learning very quickly today. The de-mand for a new policy of peace based on negotiations between the great powers and on measures to lift the ruinous burden of armaments grows every day. Millions are at last realizing that here is the only way for Britain to escape disaster.

> Moscow.... Today, the illusion remains that to rearm Germany is the only means of holding back Moscow; and as then, who ever dares to doubt this is held up scorn.

There was scorn in London last week, but it was directed against the backers of German rearmament. Commons voted to ratify the Bonn contract, but for the first time in 12 years there was a split on foreign policy between the Conservatives and Labour. In Kansas City President Truman signed the Contract, making the U.S.

the first nation to do so.

New Yalu raids dim truce hopes

TRUCE prospects in Korea dimmed considerably as the U.S. launched its "greatest B-29 raid of the Korea war" on July 30:

Sixty-three bombers in three waves bat-tered for more than three hours at the important . . . aluminum plant of the Communists at Yangsi in North Korea on the Yalu River estuary [ftying] within a few miles of the Manchurian border." (NYT, 7/31).

Robert S. Allen revealed in his syndi-

cated column July 19: General Mark Clark has a series of massed-air assaults up his sleeve. They will probably strike at the rate of one a week.

Radio Peking accused American planes of violating northeast China 124 times, killing 52 Chinese in an attack July 9. It protested American naval might parading in the Strait of For-mosa, "violating Chinese territory" in an attempt to obtain by "military pres-sure" what the U.S. "cannot get at the conference table" at Panmunjom.

WHERE DANGER LIES: But in West Germany sentiment for peaceful negotiation and opposition to the Adenauer government continued to grow. The Constitutional Court refused to grant an injunction against the second and third reading of the Bonn "Peace" Con-tract in the Bundestag (as requested by 144 opposition deputies) but it also re-fused to consider the constitutionality of the treaty at present. Red Cross parley urges germ war ban

LAST WEEK the 18th International Red Cross Conference—denied a site in Washington by the U.S. State Dept. because of its inability to guarantee entry of delegates who might be in-eligible under the McCarran Act—met in Toronto with the largest attendance in its history. To the embarrassment of the U.S., which has made repeated charges that the Soviet Union and China were frustrating the work of the Red Cross, it was discovered that of all affiliated countries only the Red Cross organizations of the U.S.S.R. and People's China had paid up their dues. Sophia M. Speranskaya appealed for the repatriation of 1,200 Soviet children in the U.S. zone of Germany, 500 in Austria. She said that Russian mothers were "waiting impatiently for their children, taken from their arms and compelled to remain in foreign coun-tries, [many] to become servants or to live in starvation." The children were taken from Russia during the Nazi in-vasion. The U.S. delegation led the move to block the Soviet request, which was defeated 8 to 5. Four delegates ab-stained; the rest did not vote.

On July 24, apparently anticipating a debate at the Red Cross Conference, the U.S. in a statement asked the Soviet Union to tell the North Koreans and the Chinese volunteers to abide by the Geneva convention governing the treatment of POWs.

there exists an international agreement—the Geneva Proctocol of June 17, 1925. But of all the great powers, only two have not ratified it—Japan and the U.S. On April 8, 1946, Presi-dent Truman, with the results of secret research in the U.S. in his posession, withdrew the ratification of this treaty from the Congress agenda. Grow gets slap on wrist

Maj.-Gen. Robert C. Grow while mili-tary attache in Moscow kept a diary. Excerpts of it turned up early this year in a book, On the Road to War, by in a book, On the Road to War, by British journalist Maj. Richard Squires, published in German in Berlin. The excerpts quoted Grow's selection of Russian targets for bombing, his calls for "war now...by all weapons," his belief that "in this war it is fair to hit below the belt."

His pay and allowances were untouched. As Albert Kahn announced publica-tion in English of Squires' expose (see GUARDIAN's review July 31) the Army charged some of Squires' quotes were false. Most of the disputed paragraphs are contained in photostated copies of Grow's own handwriting reprinted in Grow's own handwriting reprinted in Squires' book and Kahn's pamphlet.

Negroes may hold key to elections

(Continued from Page 1)

Mary McLeod Bethune, famed Negro educator, commented in 1950 after one such Republocrat double-play:

"The loss of the battle, while disappoint-ing in itself, was not so piercing a blow as the way the Republicans appear to have insulted our intelligence." Last month Archibald J. Carey, Negro lderman in Chicago, told the GOP

Y.) said: "They can cram a candidate down our throat but they cannot make us vote for him." Similar angry or worried comment came from Arthur Chapin, Negro civil rights director of the New Jersey CIO Political Action Committee; Walter White, exec. director of NAACP: As-White, exec. director of NAACP; As-semblyman W. Bryon Rumford, Cali-fornia Democratic convention delegate. The Pittsburgh Courier's political analyst John Clark wrote of that convention: convention:

Salaried fakers who have been registered and accepted as representing the best in-terests of the Negro teamed with bigots of Dixle in okching the campaign instru-ment [civil rights plank] before the plat-form committee. Austin Norris, editor of the Courier's biladelphia edition wrote:

THE ALTERNATIVE: First public airing of the question came at a "soundoff" luncheon at Harlem's Hotel Theresa last week sponsored by the conservative Natl. Urban League. ADLAI'S ALABAMA PEACH This is John Sparkman

COR ALL HIS 16 years in Congress Alabama's John J. Sparkman—the Democrats' Vice-Presidential nominee -has been a vigorous foe of civil rights legislation. For all his dismal record on this key issue, the Senator is now being offered as a fighting liberal, but his voting record doesn't support the new label.

In 1938 he voted against a wage-hour law providing a minimum wage of 25c an hour. In 1940 he voted for the crippling Smith amendment to the Wagner Act. He voted for the Smith Act itself; he has voted for meas-ures to extend the Committee on Un-American Activities. In 1943 he voted for a bill that would have included the trade unions under the so-called Anti-Rackets Law. He voted for the Smith-Connally anti-labor bill during World War II and to override President Roosevelt's veto of it.

NO FRIEND OF LABOR: He has opposed aid to farmers. He voted for the creation of the Smith Committee to investigate the Roosevelt administra-tion. He backed a measure that would have restricted labor's right to participate in politics. He voted for the Hobbs anti-labor bill in 1945; a year later he voted for the Case anti-labor bill. In that year he also voted to kill price controls

SEN. JOHN SPARKMAN How liberal can you get?

Although he voted to uphold the veto of the Taft-Hartley Law, he had voted for the bill itself. He supported a loan to Spain and backed the Kerr proposal to remove natural gas from government control. He voted for the McCarran Act and against the veto of it. He supported a bill for segregation in the Army.

On foreign affairs, he has voted consistently for every cold-war meas-ure and supports the war in Korea.

IKE'S FAVORITE FERRETER This is Richard Nixon

RICHARD Milhous Nixon was born 39 years ago in Yorba Linda, Calif., graduated from Whittier College in 1934, went on to Duke Law School (a treatise he wrote there called "Chang-ing Rules of Liability in Automobile Accident Litigation" he proudly lists in Who's Who), took his degree in 1937.

He returned to Whittier to practice law and remained pretty much un-heard-of until 1946. At the start of World War II he did a short stint of government work before he got into the Navy, where he made the rank of lieutenant-commander. Back home after the war he answered an ad for a Republican candidate to run against New Dealer Jerry Voorhis, surprised everybody by winning the election.

In Congress they put him on the House Committee on Un-American Activities and he found the work he really liked. He was also on the Labor Committee and helped frame the Taft-Hartley Act. But his concentration was on witch-hunting and he is credited most for the conviction of Alger Hiss on a perjury charge. He

As a Senator he has made few speeches, voted with the right-wing of his party, lined up with the China Lobby boys, who have contributed handsomely to his campaigns.

The Wall St. Journal noted three main factors in his choice as Eisen-

hower's running mate: "Youth, geography and anti-Commun-ism...He'll do a good job, the GOP high command feels, in getting out the young people and the female vote." The Journal also noted that "GOP

strategists will build him up as 'the man who put Hiss in jail.'"

Newsweek sums up his coming campaign this way:

Aign this way: His experience in the Hiss case had made him one of the best-informed anti-Communists .in the Congress and he planned to draw upon this knowledge in

Before an angry audience of 5,000 Powell charged: "The 1952 Negro has been sold down the river twice within three weeks in the city of Chicago. ... You can sell out in Chi-cago. You can sell out in Washington. But you can't sell out in Harlem." He recalled Negro martyrs past and

present and said: "If this be Armageddon let it be Armageddon." Powell condemned not only the Vice-Powell condemned not only the Vice-Presidential candidates but the civil rights platforms as well. He had wired Sparkman asking whether he would campaign actively for FEPC and, if elected Vice President (also presiding officer of the Senate), whether he would "do all in his power" to block an anti-civil rights filipater

to run for President as a Democrat. He still likes Ike, said recently: "I still think he's a great American." The Senator is a non-smoker and non-drinker but a confirmed gum-chewer; in Washington he teaches a men's Bible class for the Methodist Church Church.

WHO PICKED HIM? He went to the Chicago convention early to round up votes for Sen. Russell of Georgia; his own nomination for the Vice-Presi-dency is described by the Wall St. Journal as an "acceptable' compromise." He is supposed to be palatable both to Northern liberals and the Dixiecrats. Even to rebel Gov. Battle of Virginia he is "reasonably acceptable.

Sparkman was chosen for the No. 2 spot at a meeting attended by Presi-dent Truman, Adlai Stevenson, Speaker Sam Rayburn and Democratic natl. chairman Frank McKinney. Last month Harry Truman said of him:

"He's all right. There is not a better fellow in the world. John Sparkman is a peach."

Dr. Ralph Bunche or Channing H. Tobias "to dis-prove Communist claims" of discrimination.

HE WILL SEE THEM: Both Stevenson HE WILL SEE THEM: Both Stevenson and Sparkman have informed Powell they would be glad to talk with him soon. The crowd cheered when Powell mentioned a possible "march on Spring-field," but he modified the proposal to a delegation of himself, Tammany leader J. Raymond Jones, Assemblyman Hulan E. Jack and Dr. Tobias.

Powell leveled much of his fire at "the uncle-tomming" of Negro Rep. Dawson (D-III.) who, he said, had "sabotaged" the civil rights fight and tied the hands of liberals. He left a loophole for a possible change in the civil rights stand of the nominees. Falling that he called for an "affirmative boycott": a solid Democratic vote for local candidates, abstention on the national ticket.

5-month Smith Act trial ends in L.A.

THE LAW

• N Thursday, July 31, after five months of trial, the case of 14 West Coast Communist leaders charged with violating the Smith Act went to the jury; by GUARDIAN's press time Monday no verdict had been reported. The wind-up of the trial came with

The wind-up of the trial came with a perfectly-timed document released in Washington by Sen. Pat McCarran (D-Nev.); compiled by the FBI, it bore the massive title: "Documentary Proof That the Communist Party, U.S.A., Teaches and Advocates the Overthrow and Destruction of the United States Government by Force and Violence."

Teaches and Advocates the Overthrow and Destruction of the United States Government by Force and Violence." William Z. Foster, natl. chairman of the CP, promptly dubbed the 16-page document "a deliberate lie." Defense attorneys in both the Los Angeles and New York cases moved for mistrials, termed the release of the report highly prejudicial to the defendants and in effect designed to provide the jurors with a built-in verdict. The mistrial motions were denied, but in New York Judge Edward J. Dimock cautioned the jurors not to read the document.

THE PAYOFF: In -Los Angeles Judge William C. Mathes agreed to hear arguments for a directed acquittal; the motion was backed by a bulky "friend of the court" brief submitted by the American Civil Liberties Union; the judge reserved decision on the matter until after the jury's verdict (under federal law, a judge may set aside a conviction if he holds the evidence insufficient).

Of 22 witnesses testifying for the government, 13 were undercover agents in the CP; the defense showed that the government had spent \$48,030.52 for its informers. Ten of the defendants rested their case at the completion of the government's case on the ground that nothing had been proved against them but membership or leadership in the CP, which the government itself insisted is not a crime. In his charge to the jury ludge Mother sold:

sisted is not a crime. In his charge to the jury, Judge Mathes said: "Even if you find that the conspiracy charged in the indictment has been proved, you may not infer that any particular individual is a party to ... such conspiracy merely because the evidence shows him or her to have been a member or officer of the Communist Party." Oleta O'Connor Yates, the only one of the defondants to take the stand

Oleta O'Connor Yates, the only one of the defendants to take the stand, was given indeterminate jail sentences on four counts of contempt because she refused to turn informer on friends and associates; she is still to be sentenced on 11 additional counts of criminal contempt. Protesting the government's "inform or go to jail" technique, the defense rested its case without calling further witnesses.

A WITNESS A MONTH: The New York trial was going into its fifth month with only the government's fifth witness on the stand; the defendants charged the prosecution with deliberately stretching out the proceedings they cost the defense \$1,000 a day. Louis Rosser, the government's latest witness, showed a perfect memory for events and statements of 20 years ago but, after only three days, couldn't recall what day he had been called to the witness stand.

PITTSBURGH TRIAL: In Pittsburgh, pre-trial motions in a Smith Act case against six defendants there got under way on Monday; no trial date is yet set. In the Pittsburgh case, the Civil Rights Congress was undertaking, a nationwide campaign to secure the freedom on bail of chief defendant Steve Nelson. Already convicted under a state sedition law, he was sentenced to 20 years, fined \$10,000, billed \$13,-291.98 for the costs of his own trial, and had his bailed revoked pending appeal. The sentence is the harshest on record in a political case. Of the trial costs, Nelson said:

costs, Nelson said: "They expect me to pay for the rope used to hang me. I wouldn't do that if I could."

STEVE NELSON Justice closes up shop

The CRC urged letters to Gov. John S. Fine (Harrisburg, Pa.) and to Pittsburgh District Atty. James F. Malone asking restoration of bail. They also called for letters of support addressed to Steve Nelson, 13X, Allegheny Co. Jail, Ross St., Pittsburgh.

Main argument in the Baltimore case is that the defendants were convicted under provisions of the Smith Act not contained in the indictment and not used in any of the other Smith Act prosecutions.

How major parties will woo rural vote

TO Agriculture Secy. Brannan, the GOP platform farm plank for 1952 is "a negative document if I've ever seen one." To Republicans, the Democratic plank—promising continued mandatory price supports of not less than 90% of parity and all the benefits inaugurated during the Roosevelt administration—is pure "socialization" and "regimentation."

ministration—is pure "socialization" and "regimentation." But the battle for the rural votes, which can make or break an election, is not likely to be fought along those lines in the farm belt. Republicans talking to farmers will find it expedient to ignore their platform and stress instead their voting record on agricultural legislation. In the 82nd Congress, many a farm state GOP legislator recognized the greater political wisdom of matching Democratic promises to farmers than of adhering to the traditional policies of their party. The present law extending 90% parity price supports through 1954 was co-sponsored in the Senate by a leading Republican.

WHAT GOP FAVORS: Officially, the Republican Party is against the entire concept of price supports for which it substitutes a meaningless phrase for "full parity" prices "in the market place." For necessary supports, it favors the sliding scale system which it wrote into law when it controlled the 80th Congress; the present plank calls for ... commodity loans on all non-perishable products supported at the level necessary to maintain a balanced production.

to maintain a balanced production. To president Patton of the Natl. Farmers Union, a devoted Truman supporter, the Republican plank

porter, the Republican plank "... flatly rejects the entire federal farm program developed during the past 20 years."

Brannan himself has promised to stump the farm belt for his party's candidate, which considerably worries Republicans because he is a potent votegetter and a tough adversary in political debate; he is presently prepared to argue for 100% parity because "90% of parity is only 90% of fair." But the Democratic platform studiously refrains from even a whisper of a mention of the Brannan Farm Plan.

WHAT IT COSTS: What neither major party dares state in its bid for the farm vote is a point stressed by Elmer Benson, former Minnesota governor and natl. chm. of the Progressive Party:

atl. chm. of the Progressive Party: ' "The bi-partisan war program is costing the farmers \$3.500.000,000 a year. As compared with \$13,100,000,000 in 1947, the farmers of the U.S. will, according to Dept. of Agriculture estimates, have a net incom this year of only \$9,500,000,000, measure in terms of purchasing power in 1955. Yet, all of the major party candidates in the current race are committed to continuing this war program that is ruining the farmers...

thruing this war program that is ruining the farmers.... "Prices paid to farmers have been failing, farm income has been dropping, farm operating costs and taxes have been increasing, share-croppers and farmers are being pushed off the land, agricultural workers are being exploited worse than ever, and yet the Truman administration, which won the '48 elections on the basis of its promsises to the farmers, has betrayed the Brannan Program and the Taft-Eisenhower machines are still toying with their 75% 'flexible' parity proposals for price supports. The farmers have been flexed, reflexed and deflexed for the last four years, and what they want is full parity price supports for all crops now—not more promises of more flexible floors."

The Olympics have no team title but The Olympics have no team title, but unofficial team totals compiled by U.S. wire services showed the U.S.S.R., (in

its first Olympics), leading until the last day, when American victories swimming and boxing put the U.S. ahead.

To many observers the most remarkable showing was that of the Hun-garians, who finished third. The out-standing individual performances were turned in by a young Czech couple. Emil Zatopek won three gold medals in long distance running, setting new records in the 5,000, the 10,000 meter and the Marathon (over 26 miles). His wife, Dana, set a new record in the

PROGRESSIVE PARTY **Hallinan** leaves

prison on Aug. 17

PROGRESSIVE Party Presidential candidate Vincent Hallinan is due leave Washington State's McNeil to Island Penitentiary—where he has been serving a contempt of court sentence— Aug. 17 and head the campaign for himself and Vice-Presidential candi-date Charlotta Bass. Mrs. Bass and Mrs. Vivian Hallinan, along with local can-didates, have been campaigning coast to coast.

The PP announced this tentative

The PP announced this tentative schedule for Hallinan's tour: On landing at Tacoma from the island penitentiary Hallinan will be greeted by PP campaign manager C. B. Baldwin and delegations from Wash-ington, Oregon and California. Tenta-tive speaking dates are scheduled in Los Angeles, Aug. 27; Montana, Sept. 3-4; Chicago, Sept. 6. Hallinan will come east in September, possibly in time to address state conventions in Philadelphia, Sept. 13, Boston Sept. 14. Philadelphia, Sept. 13, Boston Sept. 14.

MARYLAND ON: Local campaigns concentrated on a place on the ballot, the fight for Negro, Puerto Rican and Mexican-American representation and primary battles. A place on the Maryland ballot was

assured as PP officials turned in 4,300 signatures at Annapolis; the require-ment is 2,000. (The GUARDIAN last week reported 82,313 signatures gath-ered in Massachusetts. Authorities certified 66,552; 58,000 are required.)

resentation in the area gathered 632 signatures, twice the number required, to list Dr. Bell, a Negro, on the primary ballot. The Board of Elections, made up of Republicans and Democrats, ruled the signatures invalid, but the committee prepared to take the case into court. LAWRENCE'S FIGHT: The Committee for the Election of a Negro State Senator earlier secured entry of indepen-dent Democrat Julius A. Archibald in th primary race for State Senator from the 21st Sen. Dist.

Another key fight in the campaign for Negro representation is the assembly race of Carl Lawrence, veteran news-paperman (Amsterdam News) running in 12th AD.
