Fargo Labor Will Stage Huge Union Rally in City April 9
Progressive Forces Will Gather There to Open Union Campaign Which Will Organize All Workers
Friday night, April 8, at 8 o'clock, the city's industrial labor in Fargo, N. D., Fargo labor leaders will begin what they hope will be a comeback major union drive in the city. After the semi-Fascist forces in Fargo staged their savage raids and terrorizations over the General Motors strike, the city General Strike Union hall will be the scene of the major union drive, and the city's industrial labor will experience the arrest and conviction of many of its leaders.

While labor is the key of the country's recovery, it has been evident that its growth in the city's industrial labor in Fargo has slowed down and in some cases has been stagnant. The General Motors strike was a great blow to the labor movement, and the General Strike Union hall has been broken up. The presence of the large labor forces in the city is needed to make the city a success in the industrial labor movement.

The city's industrial labor in Fargo has been organized, and plans for the movement have been completed, and an impressive array of labor spokesmen has been assembled. For the speakers' meeting, the General Strike Union hall will be the scene of the union's major drive. The presence of the large labor forces in the city will be on hand to support the labor movement.

Willy Devere, a labor organizer, former organizer of the Fargo labor union, will be one of the principal speakers. John Deere, a delegation from the General Strike Union, will make the opening address in in the meeting.

It is possible that both Fardell and Parkers Corners, active in the Minneapolis labor movement, and the moving spirit behind the North Central District Strike Council, will also be present. The organizers are therefore to be expected.

 labor organizers are being trained in the city and a majority of the people in the city will be in attendance.

Issues Unsettled Still

Evacuation of the eight Chrysler automobiles in period of time will settle the most important issue involved in the strike.

The union leaders worked out an agreement on March 24, 1948, in which the union and the Chrysler Company agreed to an eight-hour day, a 75-cent wage, and a 15-cent raise. The agreement was signed by the union and Chrysler Company and was effective on April 1, 1948.

An agreement was also signed by the union and Chrysler Company on April 4, 1948, in which the union agreed to a 10-cent raise for each of the 12 weeks of the strike.

Workers at Paper Company Get Raises Under Agreement

Paper Workers Organize Plant Despite Efforts of Company to Keep Union from Gaining foothold

After many and repeated failures in the labor movement to organize the Minneapolis Paper Company, Local 2016 of the Warehouse and Paper Workers Union, was organized on April 20, 1948. The agreement was signed by the company and the union, and a small financial assistance fund was established to help workers in the plant.

The agreement provides for a 10-cent per hour raise for skilled workers and a 5-cent per hour raise for unskilled workers. "Crime Wave" in City Exposed
As Move of Anti-Unions Forces To Continue Fight on Labor

The facts in the Atlanta Street Journal article are correct. I have been a member of the United Mine Workers since 1930 and I have been active in the labor movement ever since. The statement about the "crime wave" in Atlanta is a gross exaggeration. The only "crime" that has occurred in Atlanta is the illegal tactics used by the management to suppress the union. The Atlanta Police Department has been thoroughly investigated and it has been found that there is no evidence to support the claims of the "crime wave." I would like to correct the false allegations made by the Atlanta Street Journal.

Workers' Needs Principal Cause of Strike Waves

Stayaway Wages and Red Working Conditions Are Real Cause

Professor Wm. H. East, head of the Psychology department of the University of Washington, wrote a letter to the editor of the Seattle Times expressing his views on the causes of labor strikes. He concluded that the factors which lead to strikes are poverty, exploitation, and the desire for better working conditions. He stated that the "crime wave" is not the real cause of strikes, but rather the "real cause" is poverty and exploitation. He argued that the "crime wave" is a result of the economic struggle between capital and labor, and that the solution to this problem is to address the root causes of poverty and exploitation.

G. L. U. Adopts Resolution on Tax Questions

The following is a resolution presented to the Minnesota State Taxpayers Association by the Detroit Taxpayers Association of Minnesota. It calls for the appointment of a commission to study the tax system and make recommendations for improvements.

The resolution states that the tax system is outdated and needs to be modernized to meet the needs of the 21st century. It calls for the appointment of a commission to study the tax system and make recommendations for improvements. The commission should be made up of representatives from various stakeholders, including businesses, labor unions, and the public. The commission should have the authority to make binding recommendations to the state legislature. The resolution also calls for the state legislature to take action on the recommendations made by the commission.

Spick and Span Notes

Nowhere in the world can you see a more beautiful city than Minneapolis. The city is clean, well-maintained, and full of green space. The parks are lovely and the streets are wide and open. Minneapolis is a great place to live and work.

Furniture Sign Agreement

Adding another company to the long list of union victories, the Furniture Workers Union signed an agreed-upon contract with Margo Co. on April 19. The agreement covers the shop workers at Margo Co. in Minneapolis. The agreement includes provisions for a wage increase and improved working conditions. The agreement is a significant victory for the union and its members.

The first thing leaders of a political movement must do is to change the most important thing you need to change. The National Bureau of Statistics and the National Bureau of Labor do not exist, so they cannot help in the fight for labor's rights.

The city council has voted to increase the minimum wage to $15 an hour. This is a significant victory for the labor movement and a step forward in the fight for justice. The minimum wage is an important tool for improving the lives of working people and should be increased as soon as possible.

This is a statement from the National Bureau of Statistics. The bureau has been in existence since 1912, which has resulted in increased productivity and increased wages.

Please be advised that the city council has voted to increase the minimum wage to $15 an hour. This is a significant victory for the labor movement and a step forward in the fight for justice. **The Central Labor Union**

The last Central Labor Union meeting held Wednesday, March 18, was entirely a vote of closure. On that day, the union staged one of the most complete meetings ever held by the Kansas City labor organization. The vote of closure was a recommendation to the American Federation of Labor. We had the picture of a well-organized labor body charac-
terized as a force that is almost unbelievably strong. We had the picture of the American Federation of Labor as a force that is not only strong but growing.

When a motion was made which would have put the CLU on record as one of the nationally organized unions, a roll call was taken. There was no one who opposed the motion. A few minutes later a motion was made to endorse the American Federation of Labor. This was carried by a vote of A. F. of L. members.

We saw the motion laid on the table by a vote of those delegates that were decided to carry the resolution. A few days later the resolution was denounced by a number of those same delegates. Their policy toward the American Federation of Labor is to boycott the A. F. of L.

The labor movement, in our estimation, is not and cannot be the responsibility of the Central Labor Union. The labor movement is the responsibility of the American Federation of Labor. The Central Labor Union is a branch of the American Federation of Labor. The labor movement in Kansas City is a branch of the American Federation of Labor. The labor movement in Kansas City is a branch of the American Federation of Labor. And this is true, of course, of all the other branches of the American Federation of Labor in the United States.

The Courts

Of late it has been the privilege of certain sections of the Minneapolis labor movement to apply to the courts for the protection of their members. The courts are being used to meet the demands of the employers, not to meet the demands of the workers. The courts are being used to meet the demands of the employers, not to meet the demands of the workers. The courts are being used to meet the demands of the employers, not to meet the demands of the workers. The courts are being used to meet the demands of the employers, not to meet the demands of the workers.

As a result of these court actions, certain sections of the labor movement have been subjected to unconstitutional acts, and are being subjected to unconstitutional acts, and are being subjected to unconstitutional acts, and are being subjected to unconstitutional acts.

Central Committee

Monday night, the Minneapolis Central committee met to discuss the question of organizing a new committee for the purpose of unifying the local labor movement. The committee consisted of representatives from the central committees of the various local labor organizations. The committee was successful in the unification of the local labor movement.

The committee also discussed the question of the formation of a new central committee for the purpose of unifying the local labor movement.

Unify

The continual cry that is heard in the labor and political movements is that of a united labor movement. The labor movement needs a united front. For unity is the goal of the labor movement. For unity is the goal of the labor movement. For unity is the goal of the labor movement. For unity is the goal of the labor movement. For unity is the goal of the labor movement.

North Central District Drivers to Meet in Minneapolis on April 11th

Important Meeting Will Come Before Conference

On April 11th, the first meeting of the North Central District Council of the American Federation of Labor will be held at 7:30 p.m. in the auditorium of the Minneapolis Hotel. The meeting will be held to discuss the possibilities of organizing a united labor movement in the North Central District.

Several new developments are expected to be discussed at the meeting. These include the possibility of forming a new local labor organization, the formation of a new central committee, and the unification of the local labor organizations in the North Central District.

The meeting is expected to be a great success. The North Central District Council has made great strides in the past year and is expected to continue its progress in the future.

Funds Needed by So I Said to State Highways, Mr. Gallager—Unemployed Men

BETH SING

We're in the new year. Although it's not winter yet, we're already thinking about the next winter. We need to start planning and organizing now so that we can be ready for the winter ahead.

In order to provide for the unemployed men and women of our community, we are raising funds to establish a shelter and support services. This is a crucial time for us to come together and make a difference.

We are also reaching out to the local businesses and organizations to consider making a donation. Every little bit helps us to provide the necessary support to those in need.

If you are able to contribute, please visit our website or contact us directly. Your generosity will help us to continue our mission and make a positive impact in our community.

Thank you for your support and for considering this important cause.
