Eau Claire Drivers' Strike Solid at Gamble-Robinson

North Central Council Organizes Drivers in the Dakotas, Minnesota, Wisconsin; Unions Advance

Eau Claire, Wis., May 26.—The strike of 17 employees of the Gamble-Robinson Company was watched with interest last week by the 14,000 drivers of the Union of Transverse Drivers. It was an important strike for the surrounding area. The union has been trying to organize the large shipping company for several years. The company has refused to meet the union's demands.

The strike began when the company refused to negotiate with the union. The drivers have been working without a contract for several months. The company has been trying to break the union by offering lower wages and worse working conditions.

The strike is expected to last for several more days. The company has threatened to fire all drivers who participate in the strike. The union has vowed to continue the strike until the company meets their demands.

Faribault Woodworker Workers Signs for Men with Peterson Company

Apparently feeling that right and left of the world all out of shape, Mr. Lund, having 1000 men working alone in St. Paul and Hastings who are being struck by the Woodworker Workers, has decided to ask the Federal Judge for a Declaratory Judgment on the question of what work classified union workers should do for work. The union case will be handled out of court by Judge Nordlund of the General District Court, and the question will be resolved in a very general way.

The solution of this vote on the strike is now

Committee Recommends Reactionary Judges in "Bar Primary"; Secret Funds Used To Elect Candidates

The activities of the Hennepin County Bar Association in "piling" local judges, and the use made by the local group for the arrest of the Farmers-Labor and Trade Unionists, has been of interest in the bar association.

There are 1,197 Hennepin county judges who are elected to "Bar Primary," and 73 judges elected on the slate of judges. The Bar Association has no slate endorsed judges, and a slate of judges that is not endorsed by the Bar Association, is recommended.

The political aspect behind the slate is well understood. The latter comprises 100 judges, and a slate of judges endorsed by the Bar Association, is recommended.

Gas Union Signs Pact

In one of the most amazing union victories that has ever been recorded in this part of the country, the Gas Workers Union, Local 1041, has won a contract with the Minneapolis Gas Light Company, after a week of negotiations.

The contract, which was signed last week, represented the end of a 12-month campaign to organize the local utility company. The negotiations were led by the Business Representative of the Union at the time. The Union was able to negotiate a retroactive salary increase and other benefits for its members.

The contract is a major victory for the Gas Workers Union and a reminder of the power of organized labor in the modern world.

Bill Brown Says—

Some employees are still dumb enough to think they can relieve the General Board of Workmen for themselves, and the employees are finding that the only way to get justice is to bring the matter to the court.

The strike in the making was touched off when the employees asked for an increase in wages and working conditions, which was refused.

The employees went out and the strike was settled without a fight.

The strikers are asked to return to work.

2. The candidate must support the committee's platform.
3. The candidate must be willing to campaign actively in the ward.

The committee's decision is final, and the candidates are expected to support the committee's platform once elected.
