This week in the Northwest, ConocoPhillips continued at its largest refinery in the state, the Large River facility in eastern North Dakota, and the company's other refineries in the region are also operating at full capacity. The refinery is expected to produce around 300,000 barrels of crude oil per day, which will be sent to refineries across the Midwest and beyond.

When horses or mules are used on a project, the hourly rate to be paid for the service of the animal must first be determined. The rate shall be the prevailing rate paid to the horseman or muleman and may not exceed the rate of $10 per hour for a horse or mule.

The contractor's attention is called to Section 15 of the "Special Provisions for All Grades of Construction Work" dated June 21, 1931, which provides that contractors for horse or mule work shall pay a minimum of $10 per hour for such work. Horses or mules used in places where the minimum rate is less than the prevailing rate for such work shall be paid at the minimum rate.

The committee, which is composed of the following persons: (the names in italics are those of the workers):

- Mr. John Smith
- Ms. Jane Doe
- Mr. Robert Brown
- Ms. Emily Johnson

The committee has been working hard to bring about a change in the Board of Aldermen's stance on labor issues.

**BETRAYAL OF MOLLY MAGUIRE REAL WORKING CLASS LESSON**

By Bill Hayward

A few days after the Blaine mine was shut down, his shift was up for grabs. In the midst of the strike, he became the target of intense media attention. He was a key figure in the mining community, known for his role in advocating for workers' rights.

"You've heard of the Molly Maguires," he said, leaning back in his chair, "but they were a good organization. They were a real working class organization."

Bill Hayward worked as a miner in the Blaine mine for over a decade. He was a key figure in the Molly Maguires' strike against the coal companies in the late 19th century. The Molly Maguires were a labor union that fought for better working conditions and wages for miners.

"I don't think anyone really understands what the Molly Maguires were all about," he continued. "They were not just a group of violent men. They were a community that came together to protect each other from the greed of the coal companies."

Bill Hayward spoke about the impact of the Molly Maguires' strike and how it continues to influence the working class today. He emphasized the importance of standing up for one's rights and the need for solidarity among workers.

"The Molly Maguires were a real working class organization. They weren't just about protesting. They were about building a better world, one where workers had a voice in their own futures."

Bill Hayward ended his speech by encouraging the audience to remember the lessons of the Molly Maguires and to continue fighting for a fair and just society for all workers.
