Laundry Drivers Sign With Cleaners Institute for 600 Wage Increases of 10 Per Cent, Reduction in Hours to 48 Per Week Granted; Dobbs Represents Joint Council

Bringing wage increases and impressive improvements in working conditions in the Minneapolis laundry and dry cleaning business, Laundry and Dry Cleaning Drivers Union Local 133 last Wednesday voted to accept the contract signed with the employees institute of Minneapolis. The contract calls for wage increases and very considerable improvement in working conditions. The laundry and dry cleaning business in Minneapolis covers a very large area throughout the city and the contract, when signed, will bring great improvements in working conditions and in methods of settling disputes that may arise. Before the signing of the Teamsters Joint Council, a committee from the union would go to the manufacturers and ask for wage increases and better working conditions. But now, under the new system, the manufacturers are consulting with the union directly and much better conditions are inevitable.

Wholesale and retail prices have been soaring in the past few weeks, and the general public has been feeling the pinch. Some people are able to afford the high prices, but many are not. The Government has taken steps to regulate prices, and the public is being encouraged to conserve their money. The situation is expected to improve in the near future.

Laundry Drivers Sign With Cleaners' Institute for 600

City of Minneapolis, Minn., Sept. 25. (AP)– Minneapolis drivers who work for the city's 600 street cleaners have signed a contract with the Laundry Drivers Association. The contract, which includes 600 drivers, was agreed upon by the City Council and the Laundry Drivers Association.

The contract includes a provision that the drivers will receive a $25 per month raise, and a provision that the city will provide medical and dental insurance.

The contract also includes a provision that the drivers will receive a 10% raise in their current wages.

In addition, the contract includes a provision that the city will provide a retirement plan for the drivers.

The contract was signed by the City Council and the Laundry Drivers Association on September 25.
For an Inquest by Coroner's Jury

Every agency that can be found on the outside, eager and brutal murder of Patrick C. Corcoran must be made to answer the charge that all was not revealed.

The whole labor movement has been dealt a blow by the announcement of the inquest by the Coroner's Jury. It must be remembered that the perpetrators of the crime have been discovered and that their guilt is beyond question.

The Executive Board of the Teamsters Joint Council, meeting on Monday, unanimously approved a resolution deploring the return to the Michigan Council, Gilbert Seabrooks, that he immediately communicate a Coroner's Jury and proceed at once with an inquest.

There must be no delay. No possible authority must be permitted to withhold its powers. All facts must be drilled out of the defendants. The inquest must be held in the presence of the press to the satisfaction of the community.

Again, We Demand a Special Investigator

Testifying before the Inquest, General Billings, who declared the Union under his own authority, is again a special Investigator appointed to a Special Committee to investigate the labor raid.

Labor wants a Special Investigator of its own choosing. General Billings, who is sympathetic with the cause of labor, Labor wants a man, who is not a tool of the government, who will carry the investigation all the way through to the very end, who will give impartiality. What we want is NO QUESTIONS WHO THEY MAY BE.

It has been stated that a Special Investigator has been demanded a Special Investigator from the government, but Labor has demanded a Special Investigator of its own choosing. This demand has been seconded today. Today's paper reports "no progress made during the present inquest." Any further delay is intolerable. Labor wants in NOW. LABOR DEMANDS AN INVESTIGATOR OF LABOR'S OWN CHOOSING!
