Six-City Gamble-Robinson Drivers' Strike Won

On the National Picket Line

The economic crisis changes business habits overnight. Even a small change in the price of the basic raw material has a domino effect on the industry. In the textile industry, for example, an increase in the price of cotton has caused a recession in the whole industry. In other industries, such as steel and auto manufacturing, the impact of raw material prices can be seen in the form of rent strikes. In this particular case, the Gamble-Robinson drivers' strike was a result of the economic crisis.

America's Sixty-Four Ruling Families Exposed!

Beginning This Week! The First of a Series of Articles on Ferdinand Landelberg's Great Book — The Real Rulers of America Exposed to View — The Sixty-Four Ruling Families Who wield More Power Than Any Emperor or Czar Who Ever Lived.

AMERICAN CRUSADE, 1000 5th Ave., New York City.

Ferdinand Landelberg has gathered a truckload of evidence which he is now presenting. The following is a condensed account of what many people half-suspect, and what millions of people either ignore or are afraid to speak of: that the American people do not own America— that the ruling families own America.

That American workers work like prison laborers of medieval centuries, and that the American people are not permitted to use their brains—far from it. They are constitutionally thrown out of work.

That the vast wealth of a hundred and thirty million people in the richest nation in the universe has solidified its hands into the bonds of less than 6,000 persons—

That those 6,000 persons grouped into powerful aristocratic families linked with the royal blood of Europe, who hold the country with an iron hand inside the glove of "democracy," are the real dominant of America, the invisible masters of the industries, the utilities and the moving picture industry.

That "philanthropy" as practiced by these people is a practical sham, that America is a welfare state of great power.

This is the theme of a book which unrolls five hundred pages of the terrible true story of what has happened in America during the 164 years since the Revolution, a failure to fit this service. He had a good chance to be a real reformer in the 14 years in the Wall Street offices where the Super-Bosses spend their time.

He saw how the men get made. He determined to be one of them himself, or be made one by the men. He wrote the book. He said the book should be in the hands of every trade union member. He said that all readers of a broad picture of the contents of this book, could then join the ranks of the rest of a dozen or so to join the rest of the 650,000 signed articles reviewing "America's Sixty-Four Families."

The book is a must for every trade union. It is a must for every trade union worker. It is a must for every trade union leader. It is a must for every trade union member.

"Under their autocratic Hijackers — the Sixty-Four Families — the greatest nations ever known in the history of the United States today is richer than the entire region and empire of the past put together. The whole Roman Empire of the 20th Century has been the slave of the Great Seventy.

The whole of Europe is only slightly larger than the Sixty-Four Families.

The Sixty-Four Families control the great industries, the great communications, the great utilities of the United States— the great and powerful Four-Power control the great industries, the great communications, the great utilities of the United States.

The United States is a great Power and a great Military Power and a great Economic Power, but a Power under seven million men and a Power under 250,000 men and a Power in the hands of the Forty-two Men who control the Sixty-Four Families.

The Sixty-Four Families have the great industries of the United States. The great Sixty-Four Families have the great communications of the United States. The great Sixty-Four Families have the great utilities of the United States.

Omaha Drivers Win In Over-Road Test

First Round in North Central Area Negotiations Won in 4-Day Strike of Omaha Drivers—11-State Area Committee Meets in Omaha to Back Local Union Leaders

An agreement was reached and the strike, in preparation for the 11-State Area Committee negotiations for a different settlement in the over-road drivers, resulted in a victory for the driving industry.

A four-day strike of Omaha Local 544 began Thursday, March 16, authorized by the North Central Area Negotiating Committee, and ended at 11:59 p.m. Tuesday, March 21. The strike was called for 10 working days without a settlement, and the negotiations for a new contract, prior to the start of the strike, failed to produce the necessary agreement.

The strike was called on two main issues: the treatment of the drivers and the conditions of work. The agreement reached by the 11-State Area Committee on the second day of the strike, was said to be a temporary agreement, which would be renegotiated at a later date.
