Mr. Belden And The Silver Shirts

An Editorial

Thanks to Rabbi Belden and his wife, it has become public that George K. Belden, head of the Associated Industries, recently participated in a meeting of the fascist organization which is preparing to carry out armed attacks on union halls.

When Rabbi Belden made public copies of letters he had written to the American Friends Service Committee, the Associated Industries immediately halted its activities. This is a significant achievement as far as they are concerned. But it is far from enough. The Associated Industries is a very powerful organization, and we must be prepared to do battle against it.

When Rabbi Belden made public copies of letters he had written to the American Friends Service Committee, the Associated Industries immediately halted its activities. This is a significant achievement as far as they are concerned. But it is far from enough. The Associated Industries is a very powerful organization, and we must be prepared to do battle against it.

Belden's Real Attitude to the Fascists

Under the skilled questioning of the prosecution, Belden was revealed to be one of the most prominent figures in the Silver Shirt movement. He was questioned by the Silver Shirt's attorney, and it was revealed that Belden had attended at least one other Silver Shirt meeting three months ago. Contrary to what he had claimed, he had attended the meeting, but he denied having any knowledge of its purpose.

He was asked if the Silver Shirts were a "爱国主义" organization. Belden denied it, saying that the organization was purely for "clarity." He then proceeded to tell the lawyer how the Silver Shirts had given support to the Nazi Party, and how they were working to "clarify" the minds of those who were "clarity." He also denied any knowledge of the "clarity" of the Nazi Party, and how it was working to "clarify" the minds of those who were "clarity." He also denied any knowledge of the "clarity" of the Nazi Party, and how it was working to "clarify" the minds of those who were "clarity."
Getting Jobs for Our Jobless Boys and Girls

II

We are faced with the problem of simply a few thousand young people who haven't any jobs, but with the terrific and shocking fact that more than 7,000,000 are between the ages of 16 and 25 and are jobless. 7,000,000! Most of us can hardly visualize what this tremendous figure means. Who are these jobless boys and girls?

These are the people of the future. They are the sleeping giants of the population, accustomed and reconciled to living off back doors and shanties. They are not there to work, anyhow, "as some reactionary loss writers dare to repeat even today." Exactly the opposite. More than 100,000,000 men and girls are the future backbone of our society. From their ranks must come the leaders of tomorrow. They are the future fathers and mothers of our country.

Are these the young men and women who have spent years of training in the schools, have completed their training and are now attending the colleges and universities? No, in large part they are the boys and girls who have failed to do this properly. They are the boys and girls whose high school days have left them to the most terrible situa-
tion of all—complete idleness.

There is no one more aware of the seriousness of the situation than the National Youth Administration. They are aware that, of those young people who are now on some form of government relief, more than forty-five per cent completely entered their elementary school training and went on to high school. Practically all have given up their form of systematic school work.

CIA Against Hardship

These are the people who could become the most adaptable and most skillful of our great industrial enterprises. The trained skills of generations past are in their veins. Enough is known about the ways of men and women to turn them into the most productive of all forms of human labor. They are the people who can not only work, but will love to work. They will not be a menace to our society, but a constructive element in it. Yet, however, would not complete the picture. Government figures show that at least ten million additional people are completing their schooling each year, either graduating from the high schools and colleges, or being forced by circumstances to quit before they graduate. We know, when you see a million boys when they first come to the Y's in the open and another division to the army of unemployed youth.

National Youth Administration. About thirty-five per cent of these people who are on some form of relief, do not represent the average N.Y.A.

The most famous of the New Deal's projects, the National Youth Administration, is the one that has the most important educational work to do. The promotion work of the N.Y.A. is not only a means of getting these people on relief, but a means of getting them ready to go into some form of work. It is the most important project of the New Deal. These people are not jobless; they are unemployed. They are not a problem to be solved; they are a problem to be created. This is the most important work the N.Y.A. has to do.

What good can the vocational guidance and placement services of the N.Y.A. do, when there are no jobs to

Mill Workers To Picnic Saturday

The second annual picnic of Colgate-Palmolive Company's Union Local 665 will be held on the Sunday, August 15, at 10:00 A.M. at the House Bails Ltd. in the Girard Park. The expenses are $1.00 per person, which is to be paid at the door. There is a full program of games, prizes, and music. The event will last all day.

Sioux City Union Exposes Back-to-Work Move

Finks Circulate Boss Petition to Call Off Bakery Strike — Strike Threatened by Leaders — Mayors Seek to Bring About Negotiations

Sioux City, Iowa.—The strike of bakery drivers and inside workers failed in their attempt to keep the 400-odd bakers out of their plants for the fourth week, with the strike still solid. The bakers went back to work Wednesday after the Missouri Valley Bakery Drivers, local 253, announced that it would scrap the monthly strike if the bakers would return to work. Mayor L. F. Smith told the strikers that he would not czarize the strike.

The Missouri Valley Bakery Drivers, local 253, met Tuesday evening and decided that if the bakers would return to work, it would be solid. The union leaders claimed that a return to work did not mean that bakers would continue to strike on the same basis that they had struck the past few weeks. The Missouri Valley Bakery Drivers local 253, is a branch of the Bakery Union International, the largest baking organization in the world.

Omaha Union Signs J-K Beverage Co.

Following is the text of the new contract recently signed by Drivers Union Local 550 of Omaha and the J-K Beverage Co., a division of the Chicago Distilling Co.

Omaha, Neb., March 28,—The contract between the Drivers Union Local 550 of Omaha and the J-K Beverage Co., a division of the Chicago Distilling Co., went into effect on Thursday, March 28. The contract was signed by Mr. John K. C. Jones, president of the Chicago Distilling Co., and Mr. J. B. Smith, president of the Drivers Union Local 550.

The contract provides for an increase in the wages of the drivers, who will receive $1.50 per hour, an increase of 50 cents per hour over the previous rate. The contract also provides for a number of other improvements, including a guarantee of work for the duration of the contract, a provision for the union shop, and a provision for the election of a union official to represent the drivers in the plant.

With the Limousines

The Sunday party at Fromm's Cafe in Omaha was a big success, with many people showing up for the fun.

The Limousines were parked outside the cafe, and the music was provided by a local band.

A Lie About Benjamin Franklin

A threat to the Labor Movement

A fake document, purporting to be an address delivered by Benjamin Franklin at the American Philosophical Society in Philadelphia, is being distributed in large numbers to Minnesotans workers. According to this leaflet, old Franklin was a blistering J.W. laborer who warned his audience and the country that "Your men, gentlemen, if you do not the exclusion of the Jews for all time, your children will curse you in their graves. Jews are a curse to the world and will bring it to an end." Benjamin Franklin—printer, founder of libraries and colleges, and American National Honor Society member, and the important scientific associations of Europe, the Wissart and most cultured American of his time—said things. Charles Beard, America's foremost historian, has branded the document as fake from its inception. All the columns of Franklin's writings and speeches, not one evidence of race or religious prejudice in Franklin, records of the Constitutional Convention, kept by Madison, record no such speech as that ascribes the present fate of the Jews, and carpenters formed a club known as the Justin, the first labor club, which was organized to declare that "you have mankind in general of what profession for religious or political belief, as the fascists are defining in their campaign to whip up nationalism in America."

Is the fake forgery being circulated in Minneapolis at this time? If so, the Jews see the Reverend Dr. Riddle distribute the notoriously poisonous "Protocol of Zion" pamphlet, saying that Jews are a pestilence and the cause of nossedness, as the same as those that kept the Jews out of the 1893 Chicago Exposition. We are determined to nail every lie that might lead to the growth of antisemitism, to answer the false statements that the Jews are a pestilence, and to show the truth. We are determined to do this in order to divert interest from the real issue, which is the problem of Jew labor control. We are determined to show the fascists that the fascists are the ones who are a threat to the movement.

We know that right in Minneapolis, the American Unions are trying to get the labor movement off the path of the professional labor unions. We know that Fascism is trying to take control of the trade unions and the workmen as well. We know that the fascists are the ones who are a threat to the movement. We will work to prevent the fascists from taking control of the unions and the workmen.

Keeping Step With 544

By Micky Dunne

Ask Curti to tell the story of the fight of the 544 crew at the door of the ship, and ask him what was the work and the purpose of the union. Ask him how the ships worked to the ships, and what was the work and the purpose of the union.

Lack of goals in this state are due to a lack ofiful in the 544 fights.

The Monday 544A membership meeting was the large, and honest, in any way, was too slow to be heard by the 544 friends.

Was it worth it for the state to spend the money to get the union people? What was the work and the purpose of the union.

More 544A men are being asked union officials to "be told."

When is that million-dollar questionable? The purpose of the meeting was to discuss the 544 fights.

A new 544A drive is being started in the Dakota City, Nebraska.

John Gonyer on the Monday meeting.

The filling station attended by a new 544A drive in the Dakota City, Nebraska.

August 30th.
