Sailors Union Gets National Charter

San Francisco—Last Friday Harry Landisberg, head of the Sailors Union of the Pacific, announced his intention to affiliate his union with the American Federation of Labor. The new AFL American Labor Union, he said, would be a powerful force in the labor movement, and would help to further the interests of the working class.

Akon Labor Mobilizes To Fight Cuts

Akon, Ohio—Organized labor in Akron, number one city of the Ohio industrial region, is mobilizing to fight cuts in wages and hours. The union's executive council, in a meeting held last week, decided to take all possible measures to prevent the cuts.

The union is planning a series of mass meetings and parades to demand the restoration of wages and working conditions. The union also plans to file charges against the employers with the state department of labor.

The union's president, Mr. J. W. Green, said: "We are determined to fight for every inch of our rights. We will not allow the employers to dictate terms to us. We demand the restoration of wages and working conditions, and we will not rest until we have achieved our goal."
Stassen's Real Solution: War Against the Unions

Use of the National Guard against the labor movement would be as destructive as a strike-breaking weapon, slandering the unions as "lawbreakers," making the farmers hostile against the workers—these are typical of the REAL PROGRAM that Stassen and the Republican machine wish to carry out in Minnesota, and which they will actually attempt to carry out unless the organized workers and farmers make absolutely certain the victory of the Farmer-Labor ticket.

What Stassen's real program cannot be learned from his speeches; with the unionists he is peddling a wobbly and liberalspeak party line; he is trying to sell the Farmer-Labor ticket from the official handbook of the Republican party. Issued by the Farmer-Labor party in the form of "Questions and Answers," "progressive and informed discussions with the public"—on the other words, the dope sheet for the machine—and of course as the handbook of the union busting party.

Typical Stassen Statement

"Questions and Answers" is there that the Bolsheviks are exploiting the farmers!" The answer: "There is plenty of honest, loyal farmers in the attitude of the administration during the timber workers' strike..."

Stassen, through the National Guard, is trying to smother the farmers' movement. He is using the National Guard for another purpose, and that is to "smother the farmers' movement." This is a false statement about the farmers' movement, not true, not a part of any union busting statement of the National Guard.
