Roosevelt’s Anti-Labor Stand Should Suprise No One, Capitol Scribes Say

A New Deal is being conducted by the WPA. The declaration was made by the secretary of the Workmen’s Compensation Board. The secretary has made it clear that the WPA must be altered in order to meet the needs of the workers. Unions—When Buying Gas

Always insist that the Lena, Illinois, Home Gas Company, when you purchase gasoline, all cars at the Whitney Pump Station, 221 S. Main St., have a filter-press of some sort connected and that the gas be delivered through the necessary filters before it enters the tank. If you do not insist on this, you may be risking your life, for you cannot afford to have any risk of a explosion in your home.

Unionists—A Case for M. J. M. M. P derby

A case for the M. J. M. M. P derby is that M. J. M. M. P is the most reliable, the most popular, and the most patriotic of the labor unions in the city. M. J. M. M. P is the true friend of the working man, and deserves the support of all who believe in the principles of democracy and freedom.

Farmers Back Labor's Fight on WPA

The following editorial is reprinted from the July 15th issue of the National Farm Bureau Federation's "Organ." The article appeared under the title "Farmers Fight WPA."

What does all this hullabaloo about the 150 hours a month for WPA workers mean? Why the strikes? That is what the farmers are wondering about.

Certainly a man to work 150 hours a month or 252 hours a week is not unreasonable—but the wages per hour the WPA worker will get remains exactly the same as when he worked half that time.

Up until WPA, the farmers had the prevailing wage which meant in many trades, the wages per hour the WPA worker will get remains exactly the same as when he worked half that time.

Now they have to work more hours for the same wage. Private employers, of course, are getting the benefit of WPA to bring down existing wage standards. The prevailing power of unemployed workers will be brought nearer to that of relief workers.

What does that mean to farmers who are already breaking the backs of the banks of a surplus because of demand? It means the underconsumption— it simply means the workers will consume more and make more profit for the capital owners. It has an interest in the welfare of the workers as well as the savings in labor and machinery payments.

Shading hourly wage rates is one of the inevitable results of this whole program. Another byproduct of the WPA was the House Democratic Committee. Another result of the WPA is the unemployment of labor and the elimination of competition in the field of labor. A third result is the increase in the complaints of the unions as to the activities of the WPA in violation of the Wagner Act.

The WPA workers' organization is the inevitable result of the Wagner Act. It is an act that the workers have to work 150 hours a month or 252 hours a week for the same wages per hour. The prevailing power of unemployed workers will be brought nearer to that of relief workers.
