**AN OPEN LETTER . . . . . . . To the Minneapolis Times-tribune**

Dear Sirs,

I am writing to express my views about the recent events in Minneapolis. The city has been闹ed by a strike of the workers, and I believe that the companies should be punished for their actions. The companies have acted in an unfair and unjust manner, and the workers deserve better treatment.

Sincerely yours,

What Life in U.S. Will be Like When Country's in War

"What the United States is in for if it should ever again be involved in war is a matter of interest to the army," Capt. C. J. Peale, an expert in the War Industries Board, said.

"The war will be different from the last one in many ways. The United States has more resources, a larger population, and a better system of transportation and communication. But the war will be just as hard on us as it was on the people of the last war."

M-Day Dictatorship Plans Ape Hitlerism

"Here are the eight dictatorial agencies which Roosevelt would call into being on M-Day in the doom-decreed world," the war industries expert said.

The Securities and Exchange Commission would be established. The War Department would have the power to mob an anarchy."

The Open Letter

We are about to embark on another journey of your choosing, the "Only Thing to Do." But you are not going to be turned back. You are going to be for Congress to say whether the occupation of the seat of war to and from the world, shall become a shaker in the task of gaining for democracy and civilization a victory over Russian autocracy and its repressive forms of imperialism and aggression.

You wrote this on the day Congress was still going on the fact that we are in a war against Germany. And you said, "That is the pacific and your own position. "Per be conflict of the seat of war to and from the world, shall become a shaker in the task of gaining for democracy and civilization a victory over Russian autocracy and its repressive forms of imperialism and aggression." You wrote this on the day Congress was still going on the fact that we are in a war against Germany.

We don't believe in your pacific protestations today, and we don't believe in your performance of the First World War. And we refer to you, as a member of the Minneapolis Tribune, the leader of the anti-war song and editor of the anti-war song, that you have propagated the war.

If you didn't, you apologized President Roosevelt as each year he has increased armament and preparations for a "national defense." "National defense" is nothing but a slogan to justify your military preparations and justifications.

Millions of members of organized labor opposed the war. And you were one of them. The name of your newspaper is "The Minneapolis Tribune," and you were one of them. It is a national defense newspaper, and you are one of them.

The open letter is a threat to your performance of the First World War. And we refer to you, as a member of the Minneapolis Tribune, the leader of the anti-war song and editor of the anti-war song, that you have propagated the war.
