350,000 Drivers Win 25% Wage Lift in New Area Pact

An average wage boost of about 15 per cent, with another 10 per cent wage boost to go into effect November 1st, 1939, for drivers covered by the new two-year contract over-road-pact, this announcement that goes into effect today in the case of the superintendent, was announced yesterday. The new area pact, covering approximately 350,000 drivers and 2,500 companies and 1,600 local unions in twelve cities, has been approved by President Franklin D. Roosevelt. It follows the announcement made two weeks ago that the agreement would be made final and would be submitted to the drivers for a vote. The vote will be taken by mail and the results will be announced by the American Labor Movement at the end of the first week in November. The wage boost is to be reflected in the cost of living to the consumer, and it will increase to 25 per cent of the hourly wage at the beginning of the new year.
