Unions in Nation Support Drive for WPA Strike Pardons

The threatened strike of nonunion workers employed on the gigantic highway and street construction project now being handled by the 12th District of the cities of the Twin Cities is a serious threat to the well-being of the workers and to the safety of the public. The workers involved are members of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, AFL-CIO.

The Teamsters' Local 1000, representing the workers on the road construction project, has given notice of a strike if their demands are not met. The demands include a wage increase, improved working conditions, and recognition of their union as the exclusive bargaining representative.

The United Mine Workers of America (UMWA) has endorsed the Teamsters' strike and has called on other labor unions to support the workers. The UMWA is demanding that the National Labor Relations Board (NLRB) issue a prohibition against the construction company, which is alleged to have violated the National Labor Relations Act.
