Frog and the Pitcher

The frog and the pitcher were two old friends who used to work together in a nearby pond. One day, the frog was fishing and accidentally caught the pitcher.

The frog asked the pitcher to let him go, but the pitcher refused, saying, "I caught you, and I’m going to keep you." The frog then said, "But I’m a good friend to you and you should let me go." The pitcher replied, "I know, but I’m not going to let you go just because I’m in a good mood." The frog then said, "Fine, I’ll just wait here until you change your mind."

After a few minutes, the frog began to hop around, trying to free himself from the pitcher’s grip. The pitcher said, "What are you doing? You’re just wasting your energy." The frog replied, "I’m trying to get my strength back so I can jump out of your grip." The pitcher said, "Fine, if you’re so strong, why don’t you just jump out now?" The frog replied, "I would, but I’m not in a good mood right now."
Noted Labor Lawyer Makes Estimate of Wagner Act

Publisher and Editor, following the introduction in the House of Representatives of a bill (H.R. 6143) to amend the National Labor Relations Act, hereafter called Wagner Act, in a speech yesterday. The bill is the work of a majority of the House Com- mission of the National Labor Relations Act.

Intelligent workers never believed for the bumcombe passed such a bill as this. It will not be long before the workers will begin to realize that this is a bill to give them, not rights and privileges, but a weapon for the bosses. For a TEN BILLION DOLLAR FEDERAL HOUSING PROGRAM?

From all indications our Union will soon have a new set of officers. It has been reported that the executive of the local, who fail to comply with the demands of the local will be suspended. This local has established an office of the Executive Board to make a balance of accounts and to see that the officers do their job. It is believed that the new executive will serve as a consultative body for the members of the Union to discuss any matter of interest. The new officers will strive to increase the membership of the local. The Union's strength lies in the ability of its members to work together for the common good.

WHY THE NATION'S COURTS ARE PROSECUTING UNIONISTS

IV.
In the past six months, hundreds of union offi-
cials representing nearly 300 unions have been
indicted for violation of the Labor-Management
Trust Act. A study of the indictments reveals cer-
tain facts which are the immediate cause of the
action of the courts.

1. Conditions in the labor field, while not cru-
\onal, are reaching the proportions of a national
\ocal disaster. The AFL has been forced to con-
duct a nationwide campaign to organize the
\ocal unions and to prevent the spread of the
\ocal movement—"the building trade unions—
\hich have at times been in utter confusion.

2. A number of the so-called "drive" against
\abor has been that, with one exception (that of
ich the unions are said to have been guilty of
ear prove, that the AFL has organized one
\on to one in prison and heavy fines.) The cam-
\aign has been directed by the American Federa-
ion of Labor—the building trades, the teamsters,
\hose members are engaged in the building in-
\ustry.

3. Now that the top leaders of both the Ameri-
can Federation of Labor and the Congress of In-
dependent Trade Unions have been convicted
of treason to the cause of labor, the AFL is
forced to organize the unionists with the aid of
the courts.

THE GOVERNMENT'S REAL AIM

The government has no other object than to
weaken all of organized labor and rob it of its
wealth. It is the same as if the government had
\arried the war and the M-Day dictatorship which will be
forced on the trade union movement, the govern-
ment declares war.

The government, naturally does not attack both
the AFL and the CIO equally. Having determined
on the extermination of the AFL, the govern-
ment has now set its sights on the CIO. Hence the
worst attacks on the AFL and the CIO are the
same; the government has no other object than
to exterminate both unions.

Treachery of the CIO

\illiam Green, the head of the CIO, has no
smaller object than to rob the AFL and the
DIGIL of its wealth. He has spent the whole of his
life in the service of the AFL, and has now turned
against it in order to gain the chief position in
the labor movement.

The CIO leadership has shown itself dishonorable
to the interests of the working class. The CIO
leadership has not only slighted the workers' in-
terest, but it has deliberately and systematically
attacked the AFL, which is the only union that
wields the power of organizing.

If the CIO leadership had shown themselves
entirely loyal, the AFL would have been defeat-
est on the battlefields of the labor movement
and the Congress of Industrial Organizations.

The CIO leadership has shown itself incapable
of carrying out its promised revolution. The CIO
leadership has also showed itself incapable of
"running" the labor movement. The AFL has been
forced to proclaim the existence of the CIO only
when it became necessary to organize the AFL
unionists with the aid of the courts.
